Smart ECR

- IEC 61400-25

“The holistic approach for industry grade business processes within the distributed
renewables world !”

Uwe Fischer

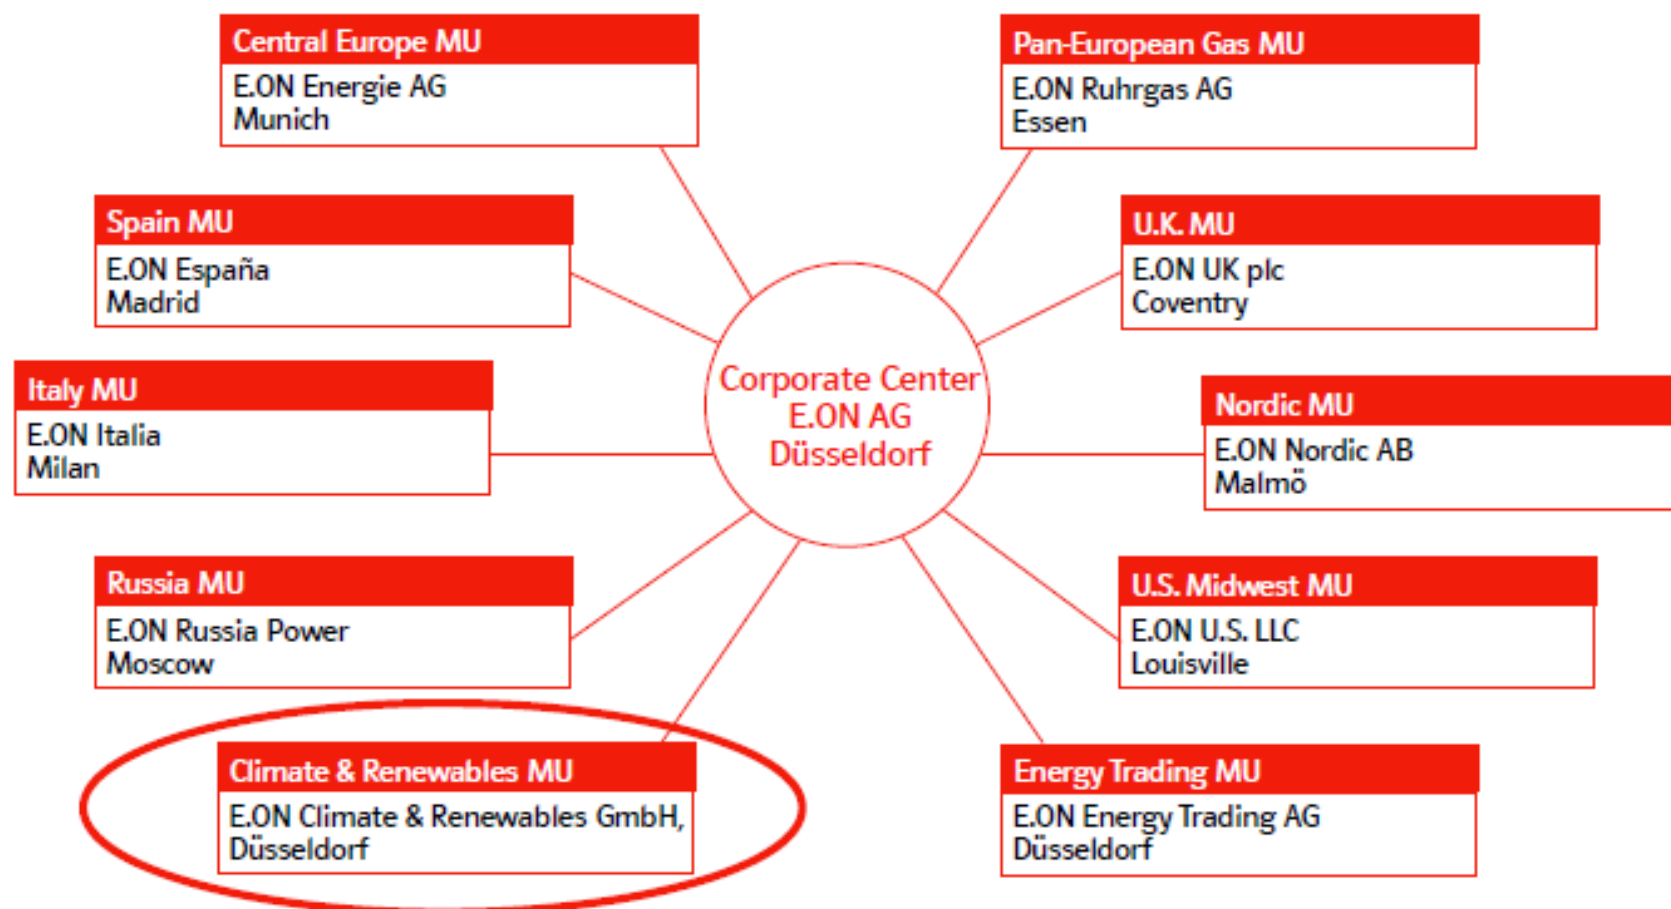

January 20th, 2011

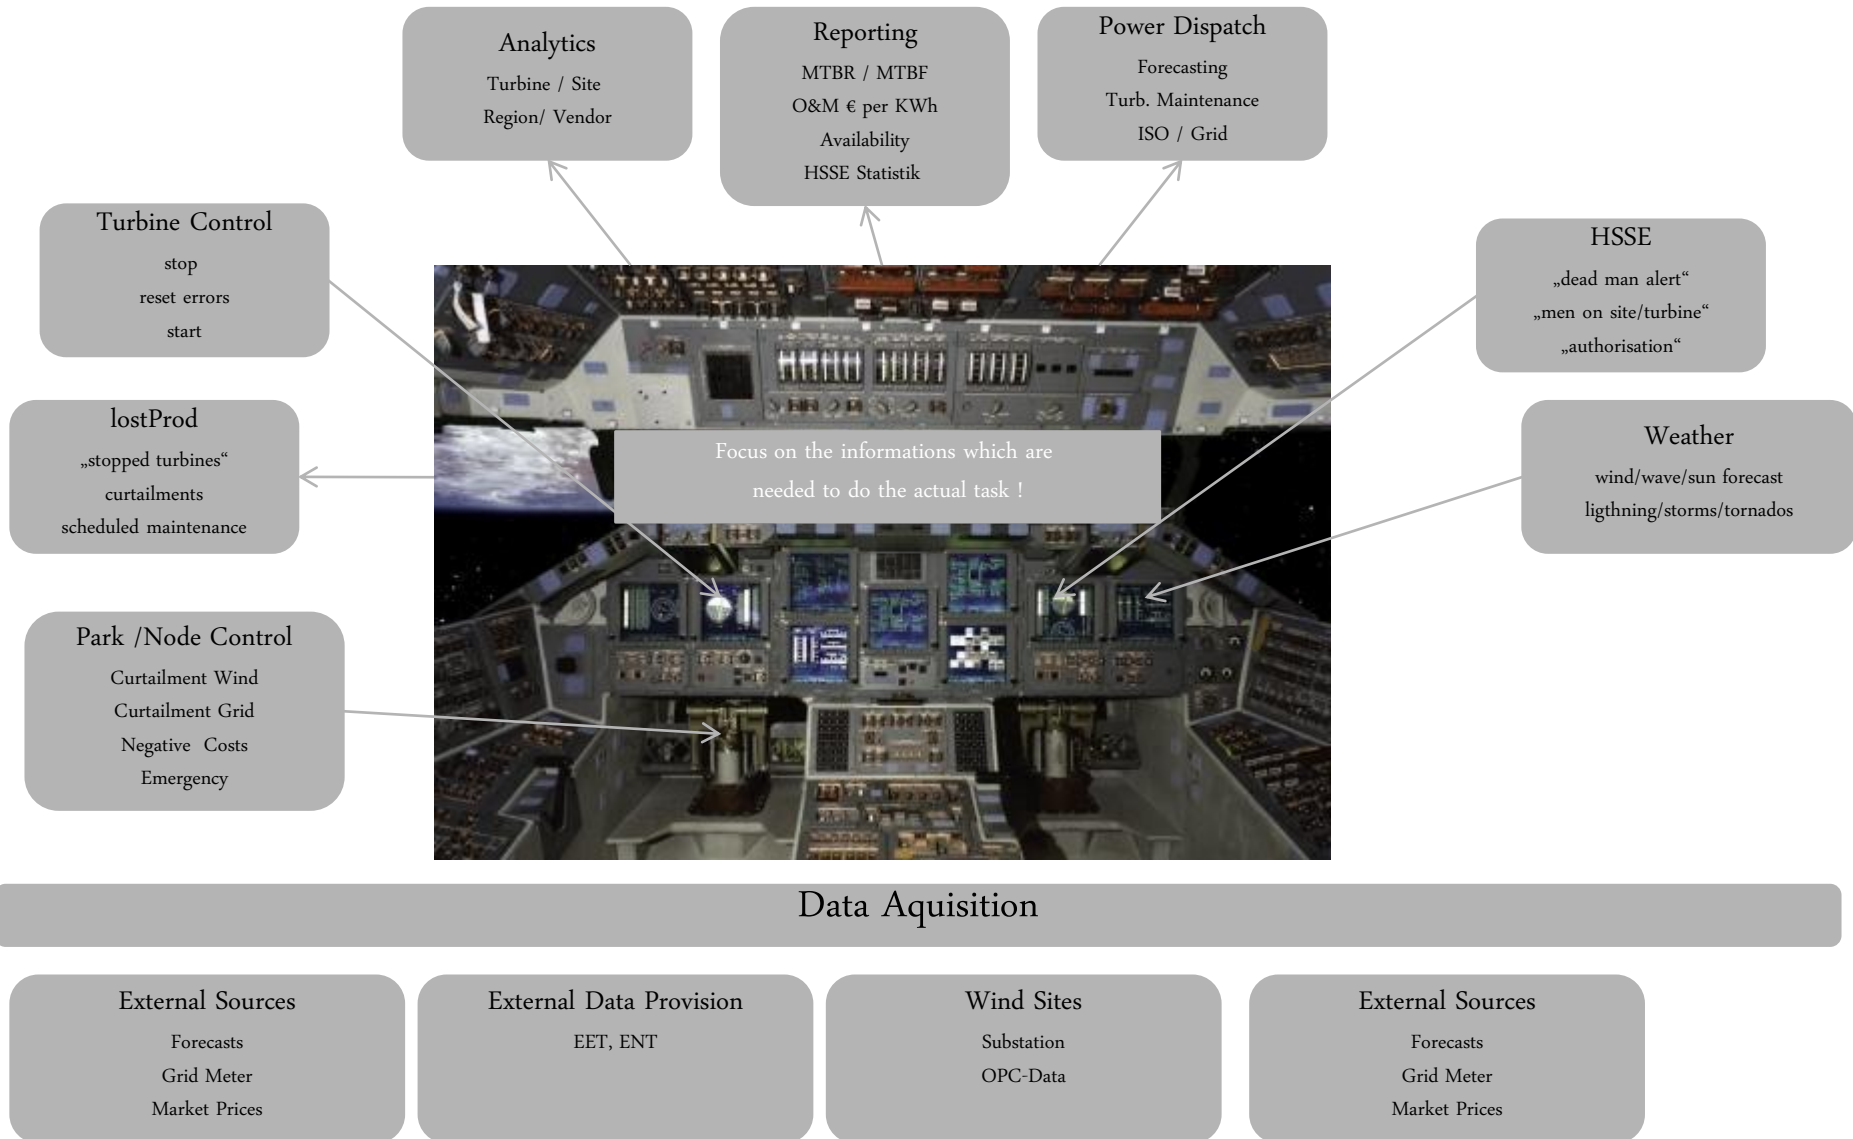

About E.ON

- One of the world's largest investor-owned power and gas companies
- More than 88,000 employees generated sales of just under €82 billion in 2009
- Clearly focused player with leading market positions in power and gas and approximately 30 million customers
- Operations in more than 30 countries
- Created by VEBA-VIAG merger in June 2000

Climate & Renewables a Market Unit of E.ON

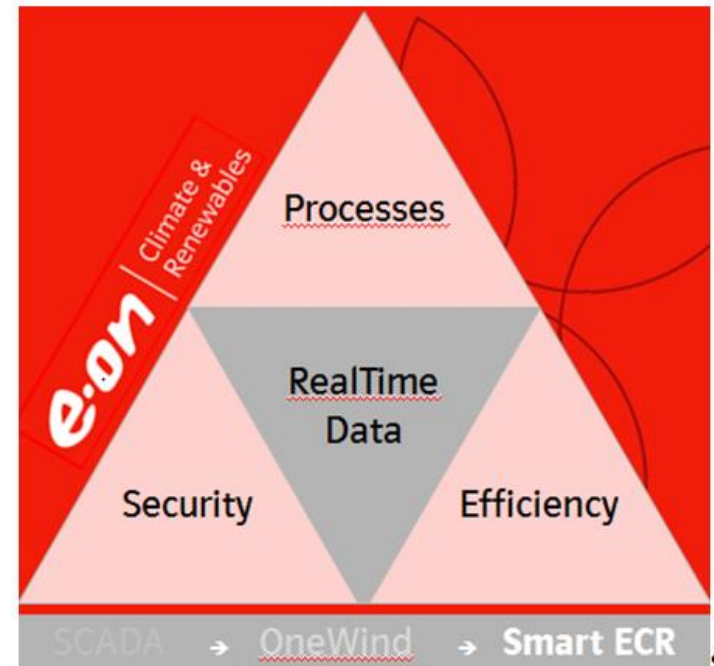

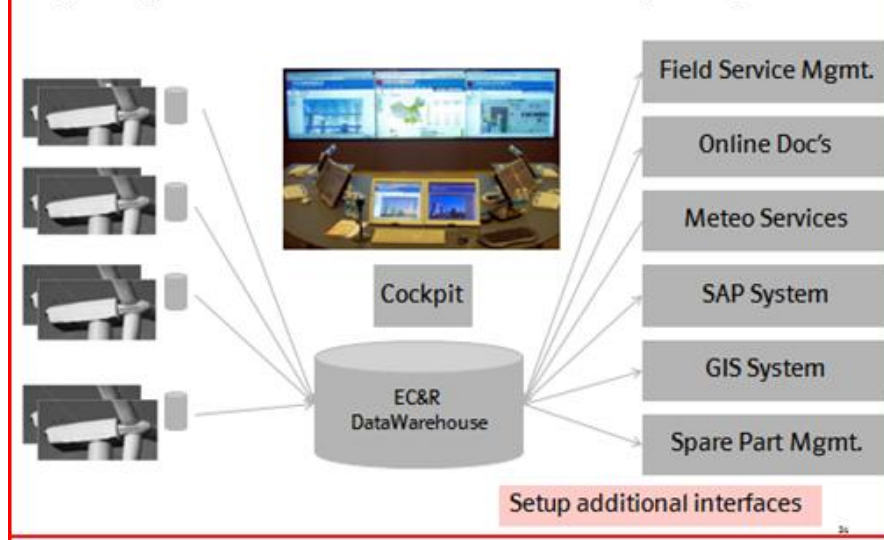

How to achieve this

Staged approach to an EC&R SCADA Landscape Stage-3

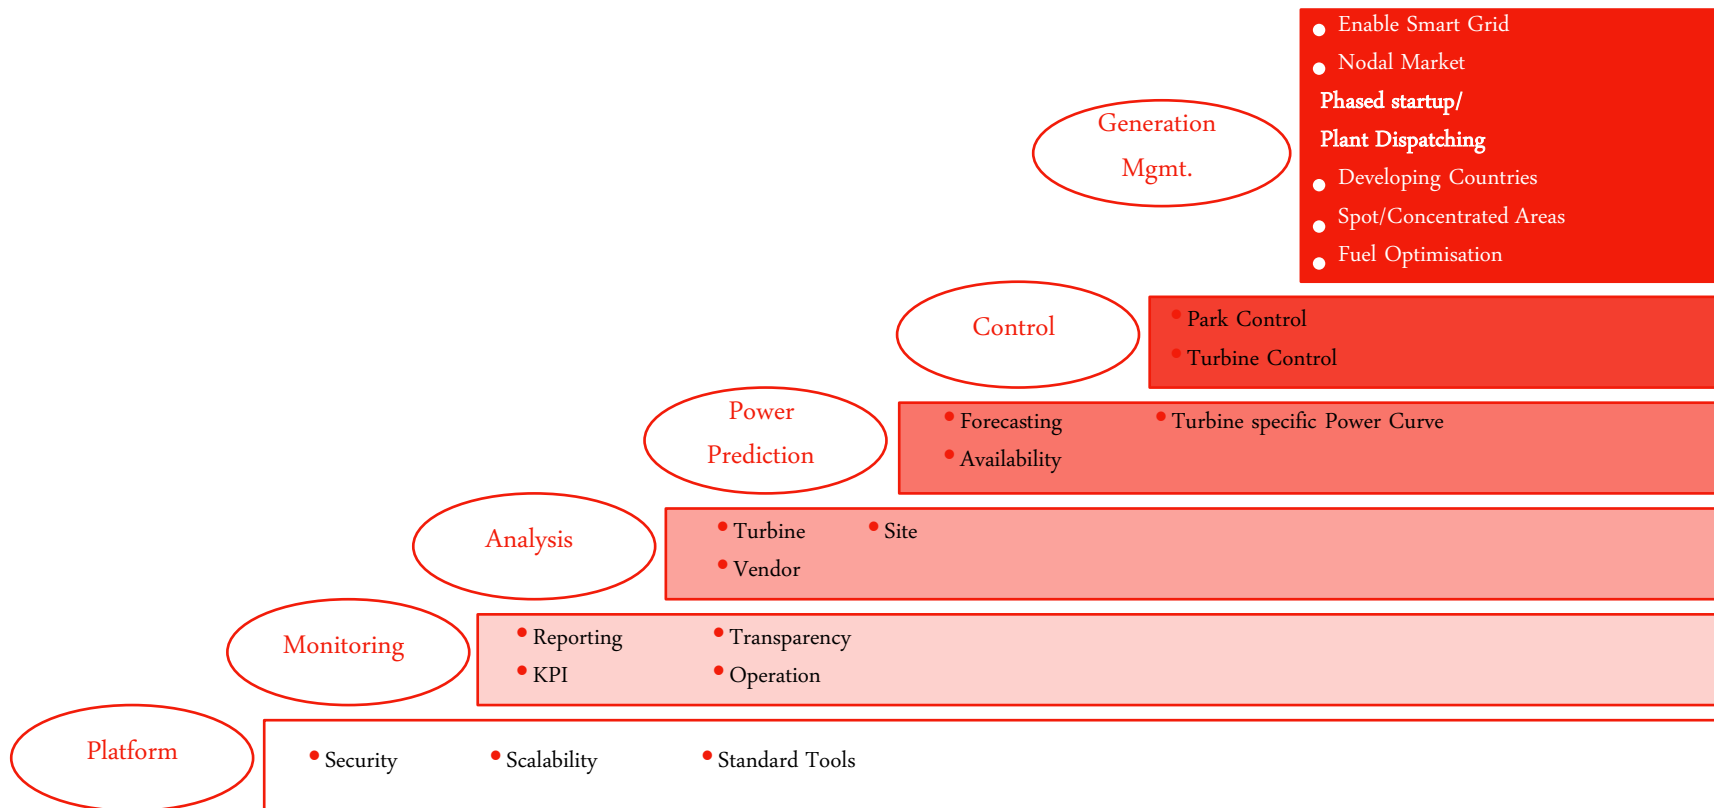

The EC&R SCADA Roadmap

Control Start/Stop/Reset	Get Points for P, Q, cos phi	No Control

Standard IEC_61400 25

established 2008

- Definition for Data Exchange
 - Data sets and attributes
 - Communication and interfaces

Industrial of Use IEC_61400 25

established 2010

- Enterprise Architecture and Networking
- Security and Reliability
- Enabling of Windturbine Controller
- Legal restrictions and paperwork

Our First IEC 61400-25 Connected Windturbine

Successful implementation

December 2010

- OEM Vendor Repower
- Turbine Controller Bachmann
- DA Software OSIsoft (SISCO)
- Real-time DataStore OSIsoft PI System

➔ Rollout to all Turbines started January 2011
