

PI Coresight 2016:

New Vision, New Display Editor, New Look and Feel

Nick Pabo, Field Service Engineer

September 28th, 2016

Our Visualization Vision

+130 interviews averaging +90 minutes each

What You've Told us

“People want their data **where they are**, not where the system is.”

“I have a tough time selling ProcessBook internally because it's **powerful** but to the end users **it looks heavy and old** and other tools have **5% of the functionality but look better and work over the web** and they win.”

“... that ability for an **end user** to be able to go in and configure it and get an **integrated experience** has **not been there.**”

Our Vision: A Unified Visualization Experience

Our Vision: A Unified Visualization Experience

Making these capabilities available for

- Extensibility
- Office productivity
- Portal integration

First Step: PI Coresight 2016

What is PI Coresight?

The fastest, easiest way to visualize PI System data

- Access data from any web browser, including **mobile** device browsers
- Collaborate and **share** comments across the company
- Deploy and **roll-out** rapidly

NEW in PI Coresight 2016

Full display
editor

Multi-state
support

Custom
images

Event
commentary

...and more!

Demo 1

- Full display editor
- Custom images
- Multi-state support

Data as Mobile as You Are: Tablet Experience

- **Full graphical views**

See the same views as you would on a desktop

- **Context switching**

Re-use the same displays to view similar assets

- Specify user-specific search roots

- **Event Frame integration**

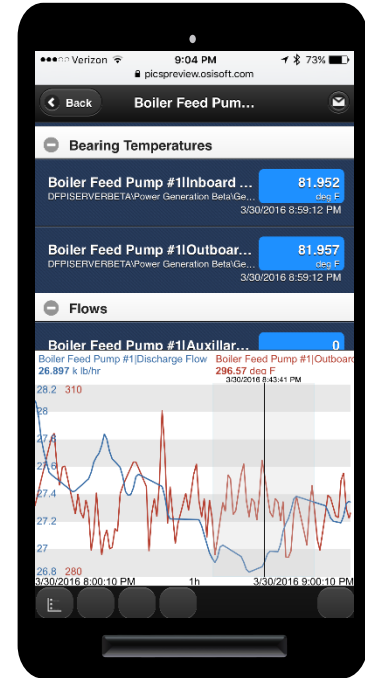

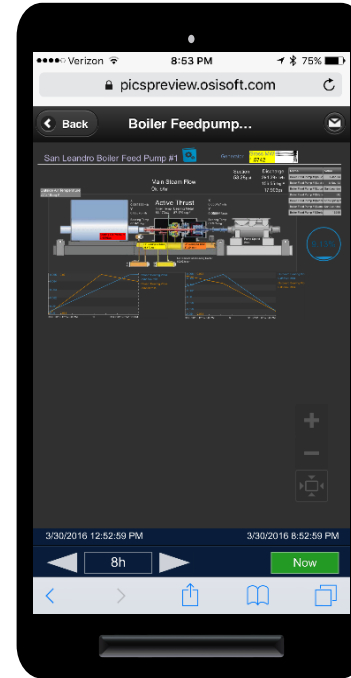

View event comparisons or event details

- View and add comments

A Full-Featured Phone Experience

- **Full graphical views**
See the same views as you would on a desktop
- **Compact asset views**
Quickly view reformatted, phone-optimized displays
- **Manipulate time settings**
Pinch and swipe to change the time range
- **Share data via email**
Use one-touch email integration to share displays

Demo 2

- Collaboration
- Mobile Experience
- Event Investigation

Extensibility Framework (CTP: Community Technology Preview)

- Use custom symbols just like any other symbol
- Leverage secure, built-in data access functions, and automatic undo/redo
- Persist changes and settings between displays
- Create custom configuration options for each symbol

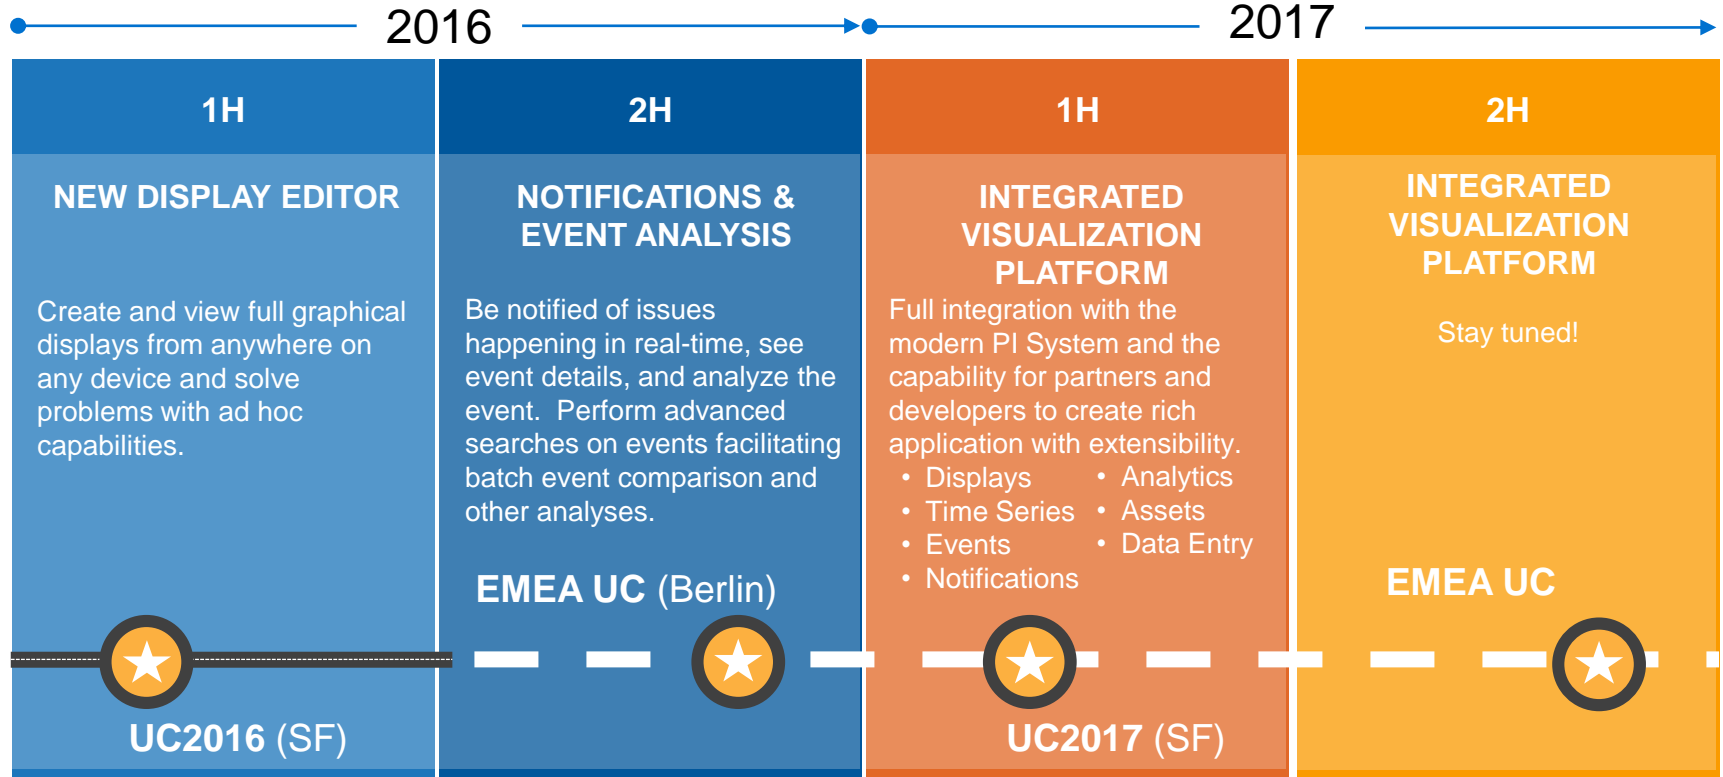

Demo 3

- Custom symbols
- Extensibility

PI Coresight Roadmap

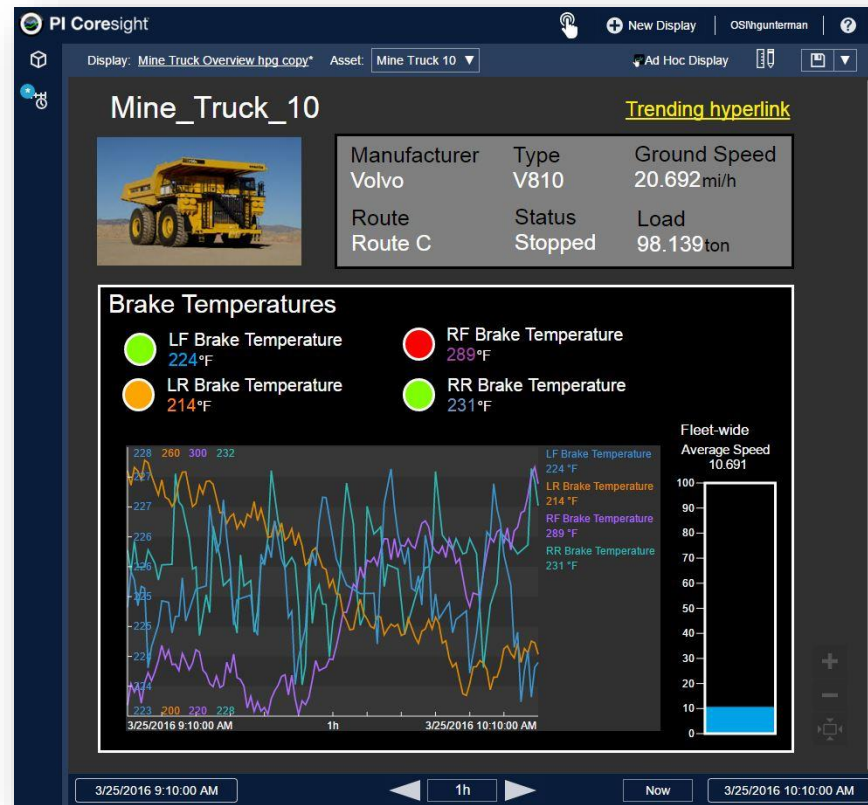

PI Coresight 2016: PI Coresight Like Never Before

PI Coresight 2016 puts power and flexibility into your hands

- **Mobile** data access
- **Easy** display creation
- **Rapid** deployment
- **Collaboration** platform for critical events
