

# PI Coresight 2016:

New Vision, New Display Editor, New Look and Feel

Graeme Fukuda, Field Service Engineer

Wednesday, November 9<sup>th</sup>, 2016

# Our Visualization Vision

# We Started With Customer-Driven Research & Design

+130 interviews averaging +90 minutes each

# What You've Told us

“People want their data **where they are**, not where the system is.”

“I have a tough time selling ProcessBook internally because it's **powerful** but to the end users **it looks heavy and old** and other tools have **5% of the functionality but look better and work over the web** and they win.”

“... that ability for an **end user** to be able to go in and configure it and get an **integrated experience** has **not been there.**”

# Our Vision: A Unified Visualization Experience

# Our Vision: A Unified Visualization Experience

Making these capabilities available for

- Extensibility
- Office productivity
- Portal integration

# First Step: PI Coresight 2016

# What is PI Coresight?

The fastest, easiest way to visualize PI System data

- Access data from any web browser, including **mobile** device browsers
- Collaborate and **share** comments across the company
- Deploy and **roll-out rapidly**

# NEW in PI Coresight 2016

Full display  
editor

Multi-state  
support

Custom  
images

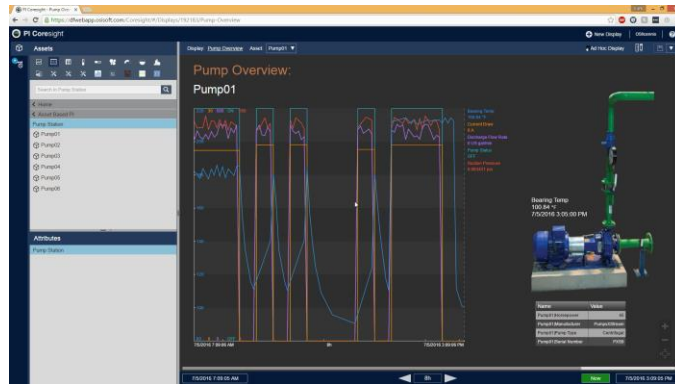

Event  
commentary

...and more!

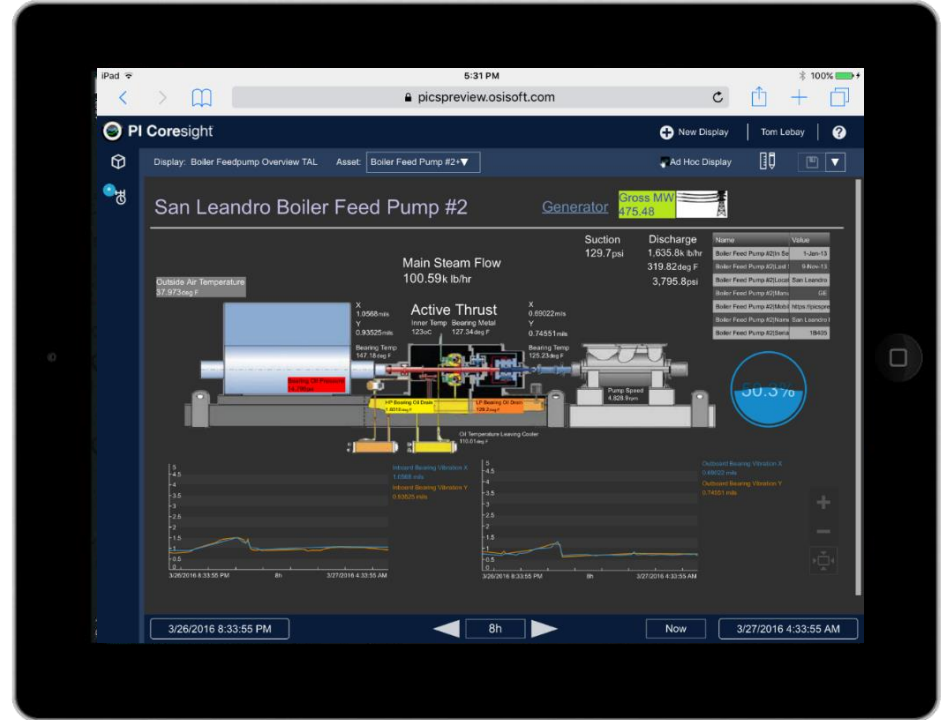

# Demo 1

- Full display editor
- Custom images
- Multi-state support

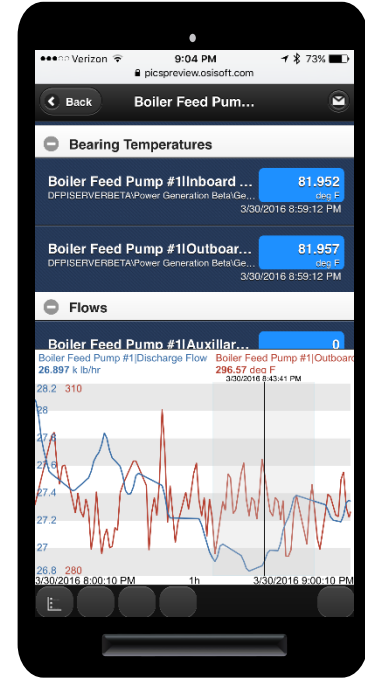

# Data as Mobile as You Are: Tablet Experience

- Full graphical views  
See the same views as you would on a desktop
- Context switching  
Re-use the same displays to view similar assets
  - Specify user-specific search roots
- Event Frame integration  
View event comparisons or event details
  - View and add comments

# A Full-Featured Phone Experience

- **Full graphical views**  
See the same views as you would on a desktop
- **Compact asset views**  
Quickly view reformatted, phone-optimized displays
- **Manipulate time settings**  
Pinch and swipe to change the time range
- **Share data via email**  
Use one-touch email integration to share displays

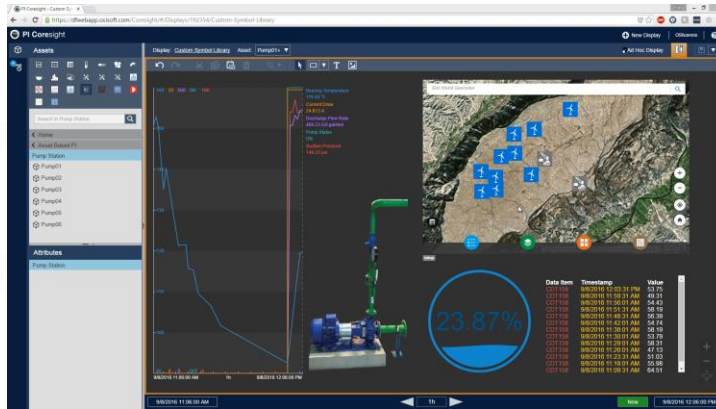

# Demo 2

- Collaboration
- Mobile Experience
- Event Investigation

# Extensibility Framework (CTP: Community Technology Preview)

- Use custom symbols just like any other symbol
- Leverage secure, built-in data access functions, and automatic undo/redo
- Persist changes and settings between displays
- Create custom configuration options for each symbol

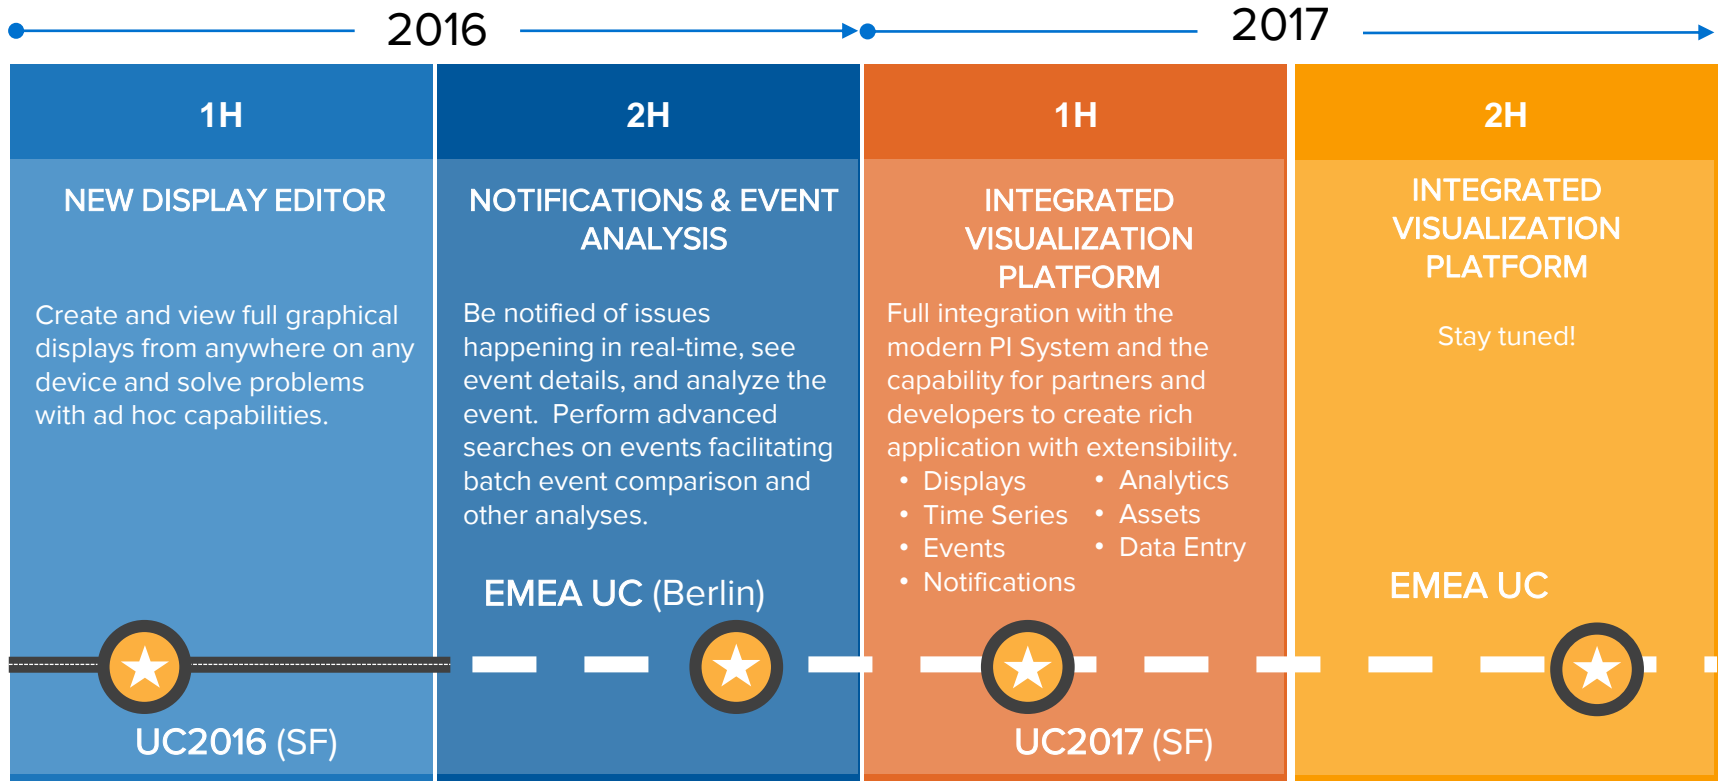

# Demo 3

- Custom symbols
- Extensibility

# PI Coresight Roadmap

# PI Coresight 2016: PI Coresight Like Never Before

PI Coresight 2016 puts power and flexibility into your hands

- **Mobile** data access
- **Easy** display creation
- **Rapid** deployment
- **Collaboration** platform for critical events
