

# Catalyzing Collaboration with OSISOFT and Microsoft

Gregg Le Blanc  
Director of Product Marketing

Brian Bostwick  
Development Manager at Omicron Consulting

# Collaboration Over the Years

- OS/soft and Microsoft
  - Partners for 14+ years
  - DataLink
    - First Windows 3.1 Client
  - PI 3.x
    - First Server on NT
- As infrastructure improves, value improves

VALUE NOW, VALUE OVER TIME

# It Started with a Simple Idea

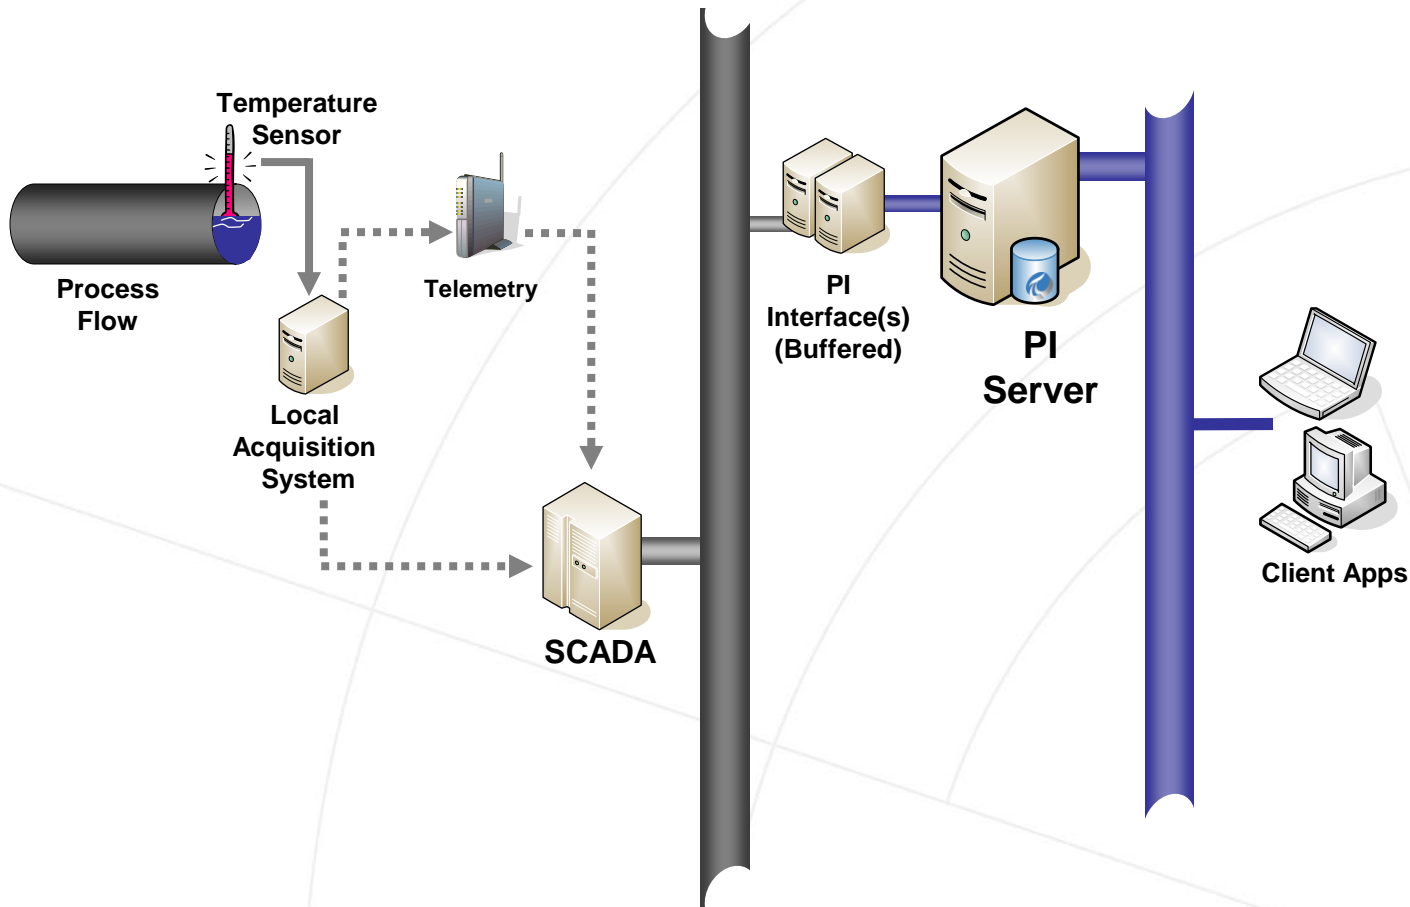

## Unlocking your Information Potential

Bring data to a flexible environment  
where users can creatively solve problems.

VALUE NOW, VALUE OVER TIME

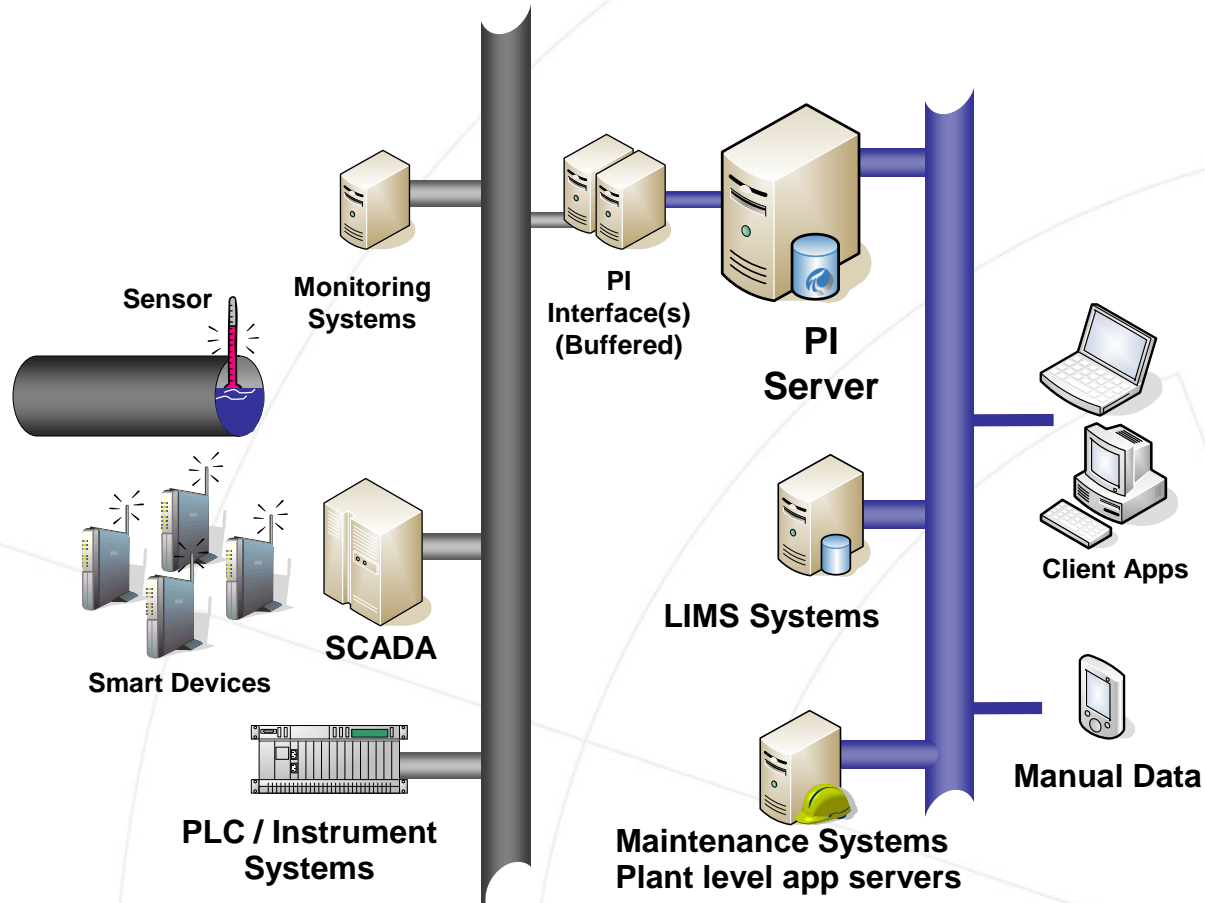

# Built on Available, Live Data

VALUE NOW, VALUE OVER TIME

# More Technology, More Data

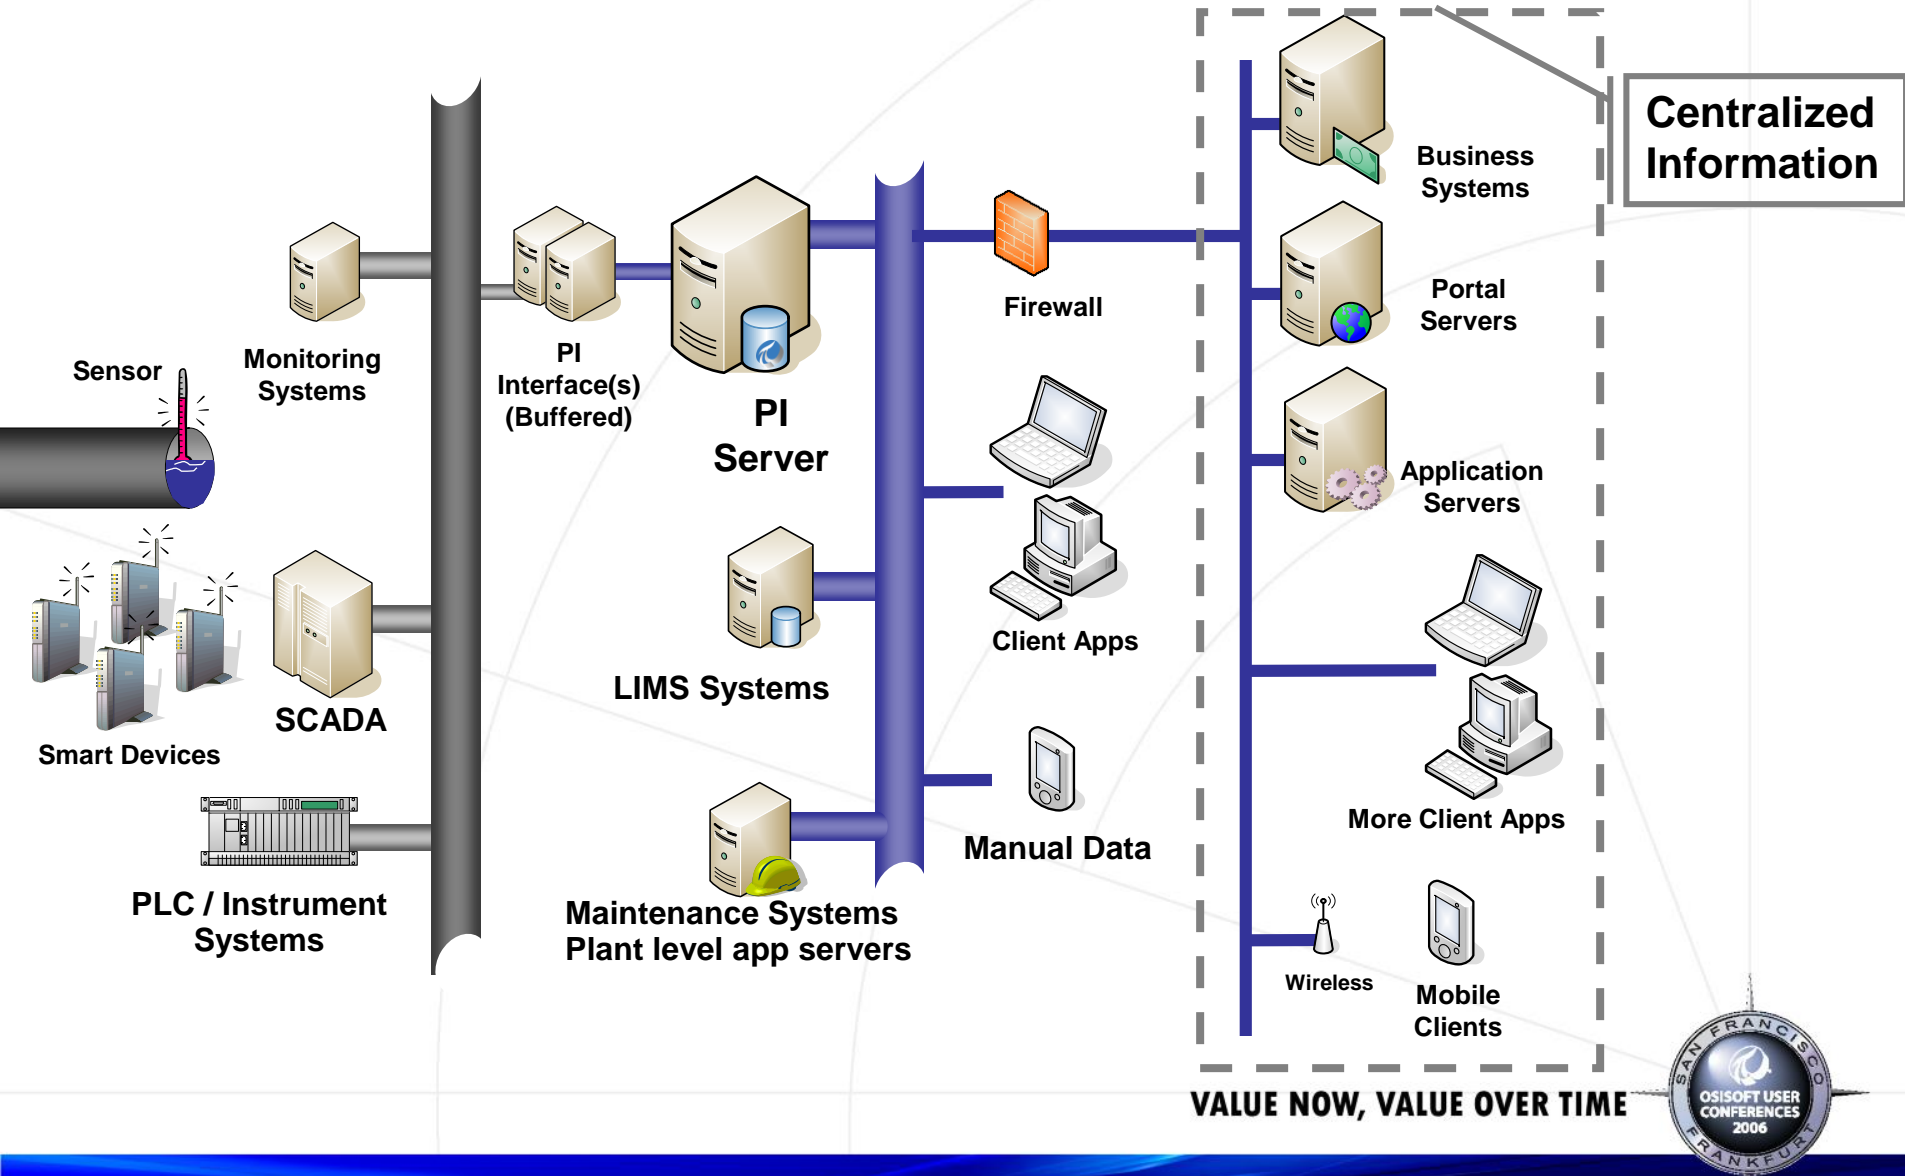

VALUE NOW, VALUE OVER TIME

# Operations Become Strategic

- Available information increases
- The speed of business increases
- Using the site infrastructure's capabilities
  - Strategic improvements are considered
  - On-site and off-site people need to access the data and work together
- Collaboration becomes more important

# Site Data Becomes More Interesting

**Centralized Information**

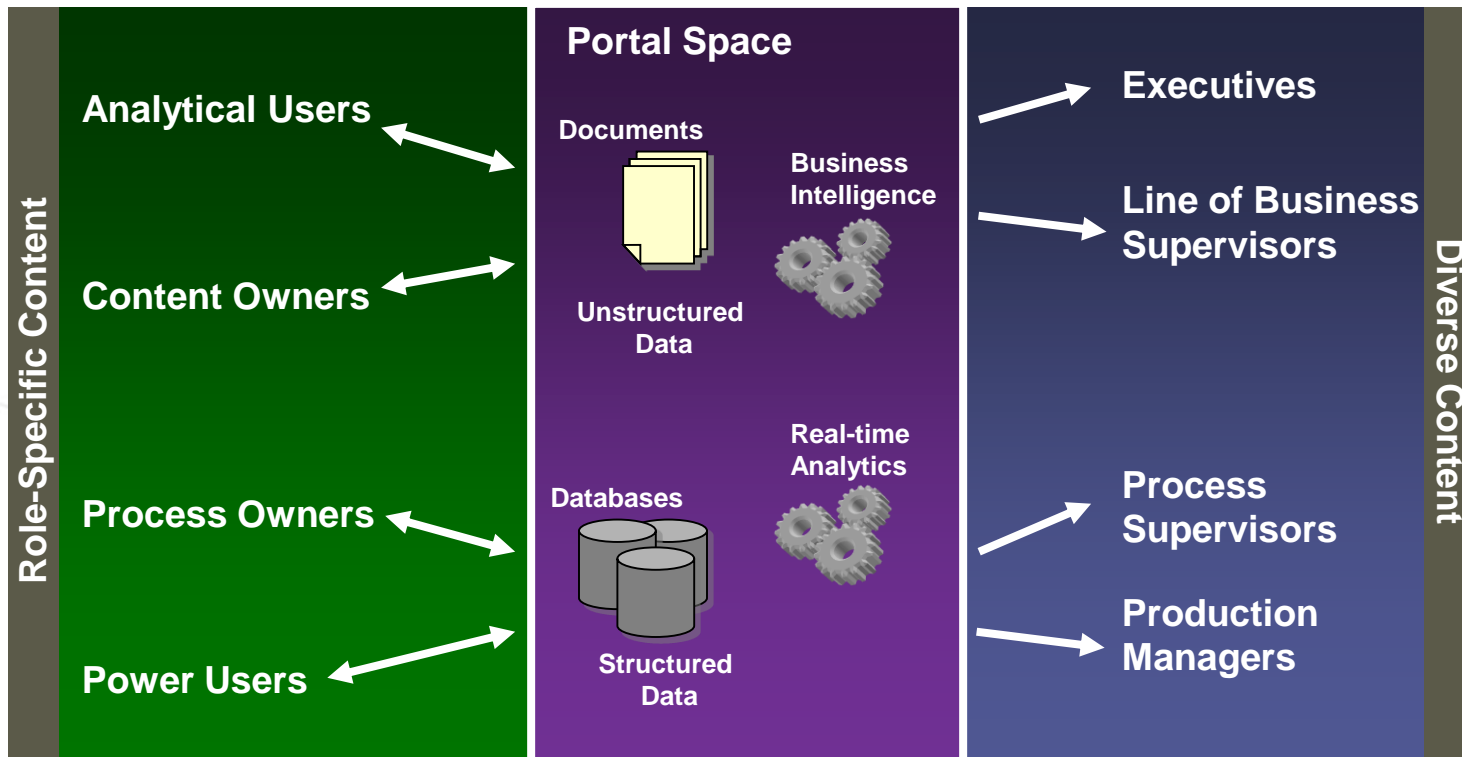

# Greater Information Exposure Required

Discovery

Consumers

Building

**Portals Extend the Reach of Information**

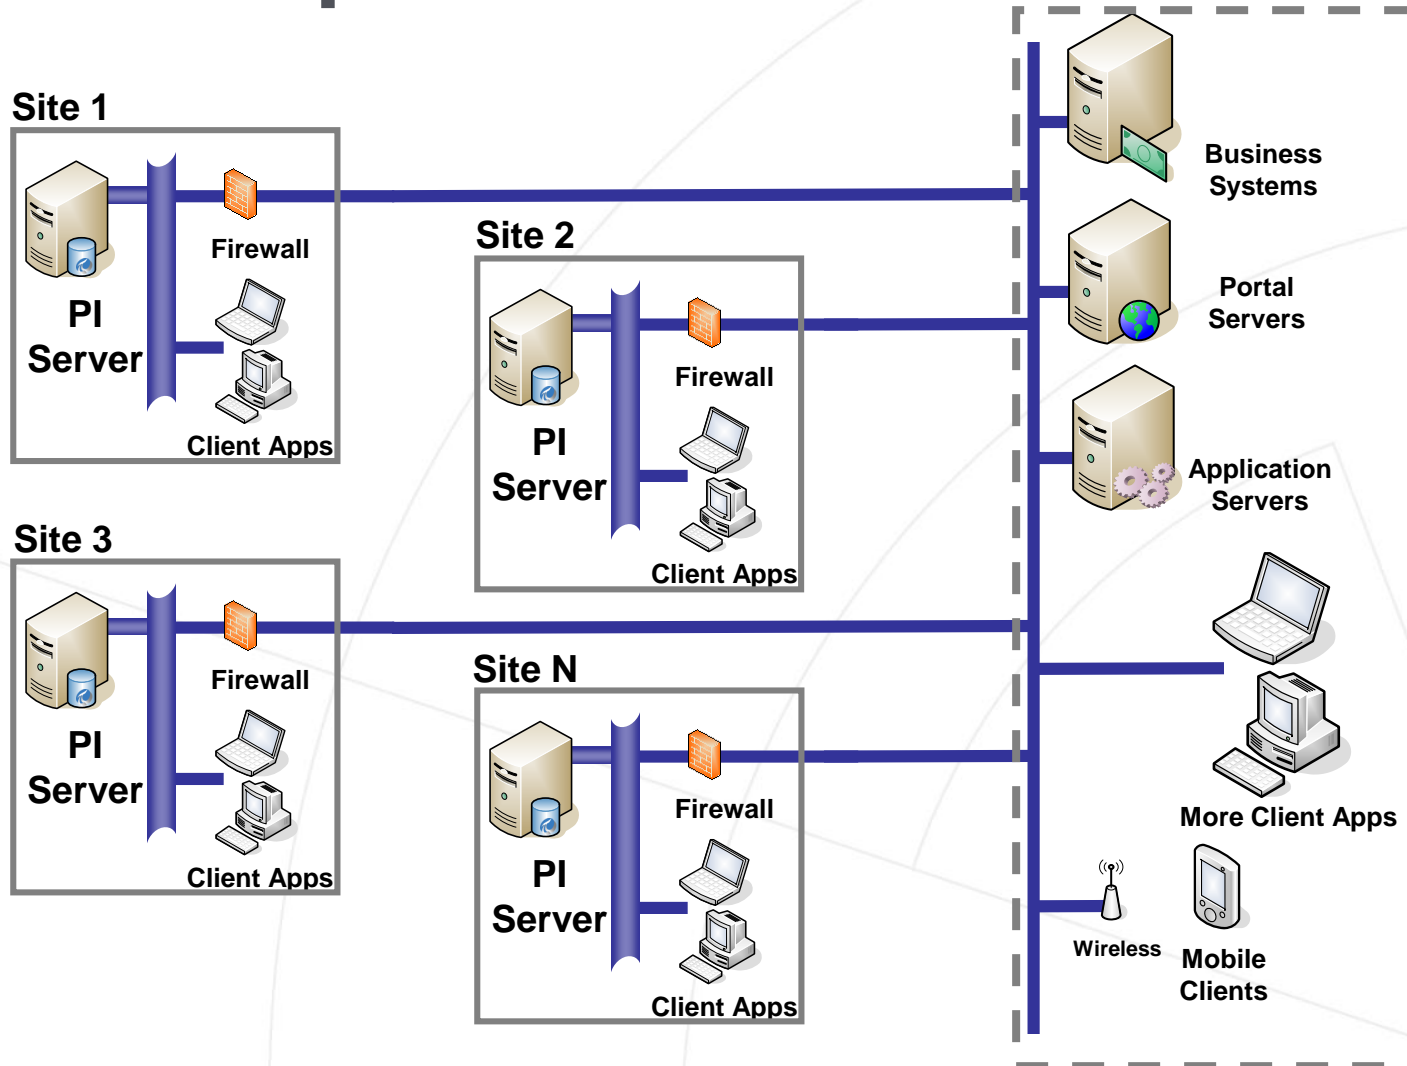

Viewing

VALUE NOW, VALUE OVER TIME

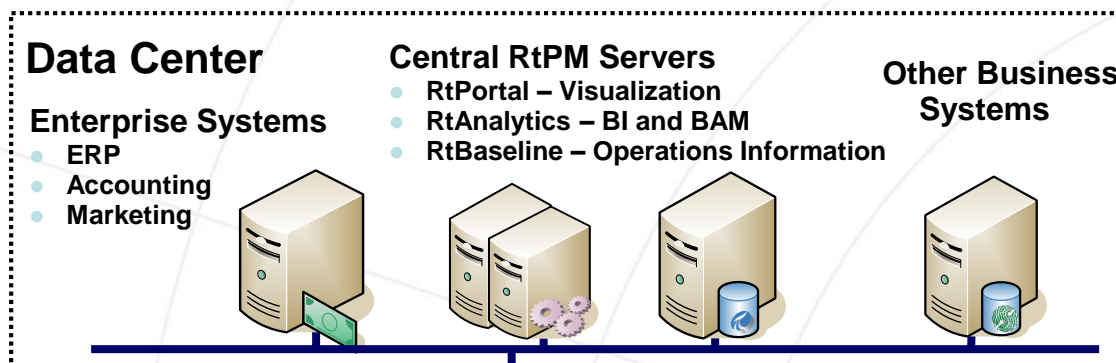

# More People Become More Interested

# Goal: Real-time Data Fabric

- Operations Data Fuels Organizational Capability
- Build analyses, reports, and displays for everyone

Real-time Data Fabric spans locations

VALUE NOW, VALUE OVER TIME

# Operations Closely Aligned with Business Objectives

- OSIssoft's RtPM Platform becomes part of the critical infrastructure
- High-demand information must be provided On-demand
  - Inventories
  - Production capabilities
  - Product quality and specifications

# Better Infrastructure

- Microsoft's roadmap pushes better server-side capability
  - Windows Server 2003
  - Office SharePoint Portal Server 2003
- OS/soft's roadmap pushes better information access and usability
  - Enterprise deployment, replication, data directory
  - Client capabilities, reusability of analytics

**UC2006 OSISOFT USER CONFERENCE**

**VALUE NOW, VALUE OVER TIME**

**See it at Work!**

Demonstration

# Product Roadmap

- Simple
  - Familiar tools, enhanced functionality
- Enterprise Aware
  - Leverage the power of Excel safely
  - Create virtual teams to solve problems
- Highly Available
  - Will benefit from Microsoft and OSIsoft's work on availability and scalability
  - Real-time data fabric in PR 2 and beyond

VALUE NOW, VALUE OVER TIME

# Conclusion

- OS/soft and Microsoft
  - Keep you in context
  - Allow you to collaborate in new ways
  - Support your most dynamic business processes

VALUE NOW, VALUE OVER TIME

# Things to see this week

- DataLink Breakout by Jason King
