SAP Certified
Integration

Unified View of the Enterprise

How can I view manufacturing data in conjunction with business data from SAP in the corporate SAP Portal?

VALUE NOW, VALUE OVER TIME

Pain Points

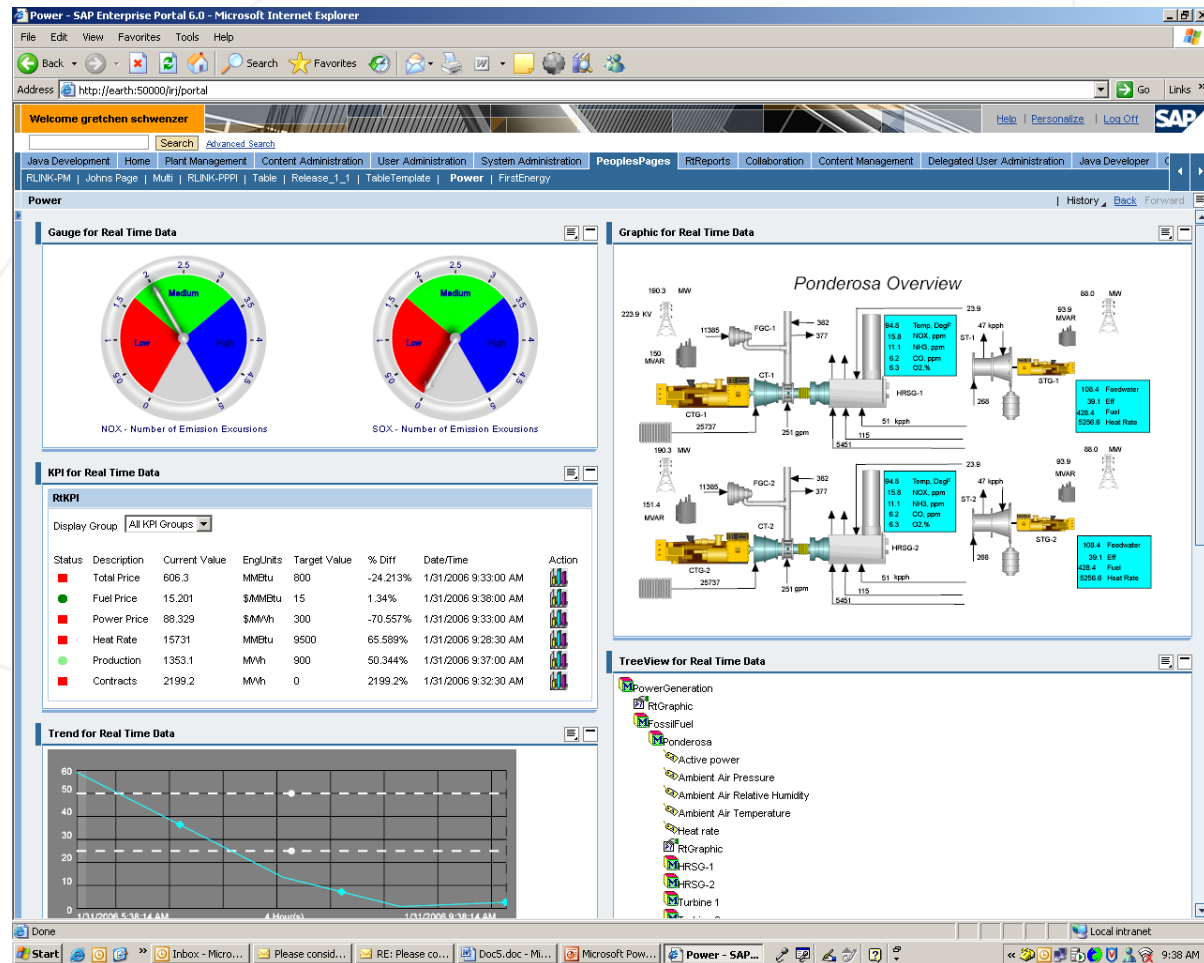

- How can I get process data on the SAP Portal with no programming
- How can I do ad-hoc analysis of manufacturing from the SAP Portal
- How can I integrate manufacturing data with enterprise data
- Global view of manufacturing operations

VALUE NOW, VALUE OVER TIME

RtPM Business Package for the SAP Portal

- Business Package
 - Combination of Roles, Pages and iViews for process data
 - Built upon SAP Portal 6 SP 11 and higher
 - End user configurable
 - Supports Multiple business functions
 - Customer incorporates into many applications including 3rd party
 - Complements SAP Offering

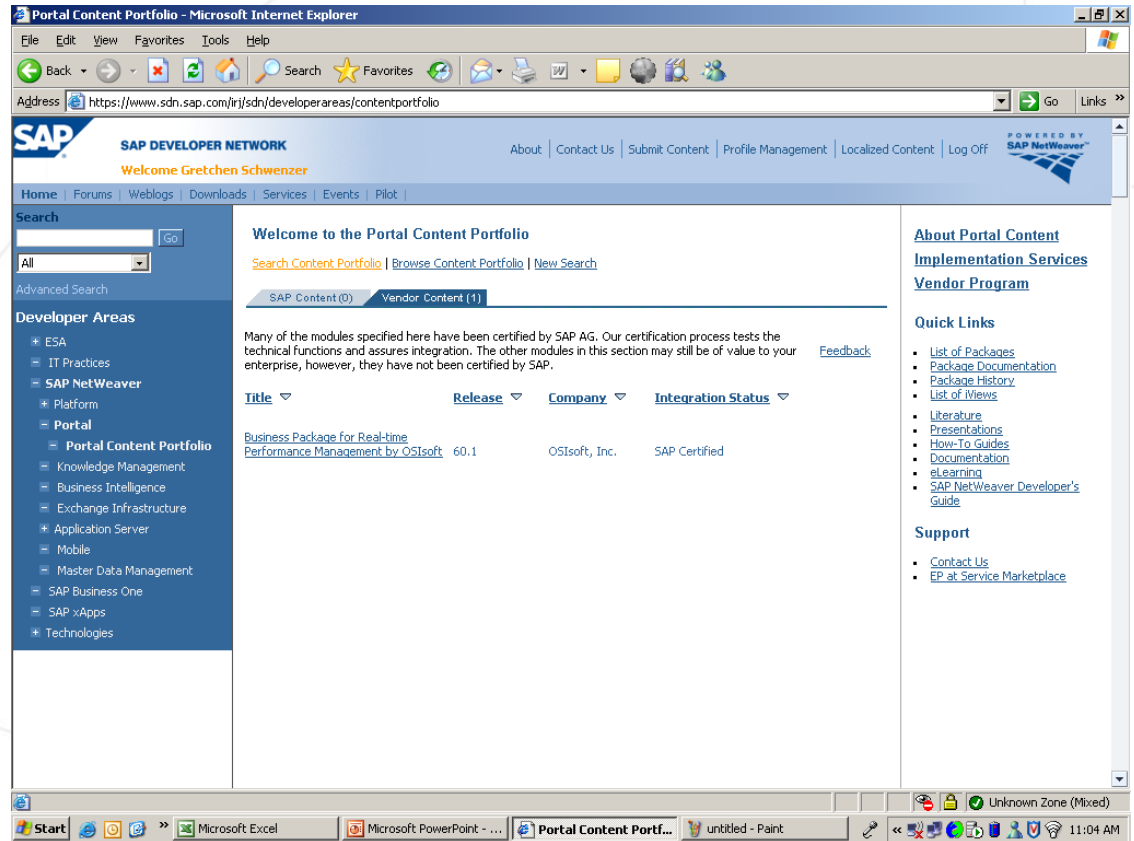

VALUE NOW, VALUE OVER TIME

Certified Business Package

- Certified by SAP Interface Software for SAP NetWeaver TM Advertised on SAP SDN website
- Namespace com.osisoft.pct.RtPM
- Support Branding, and Single Sign-on and personalization
- Eventing between iViews
 - Composite application development
- Supports any platform the SAP Portal runs on

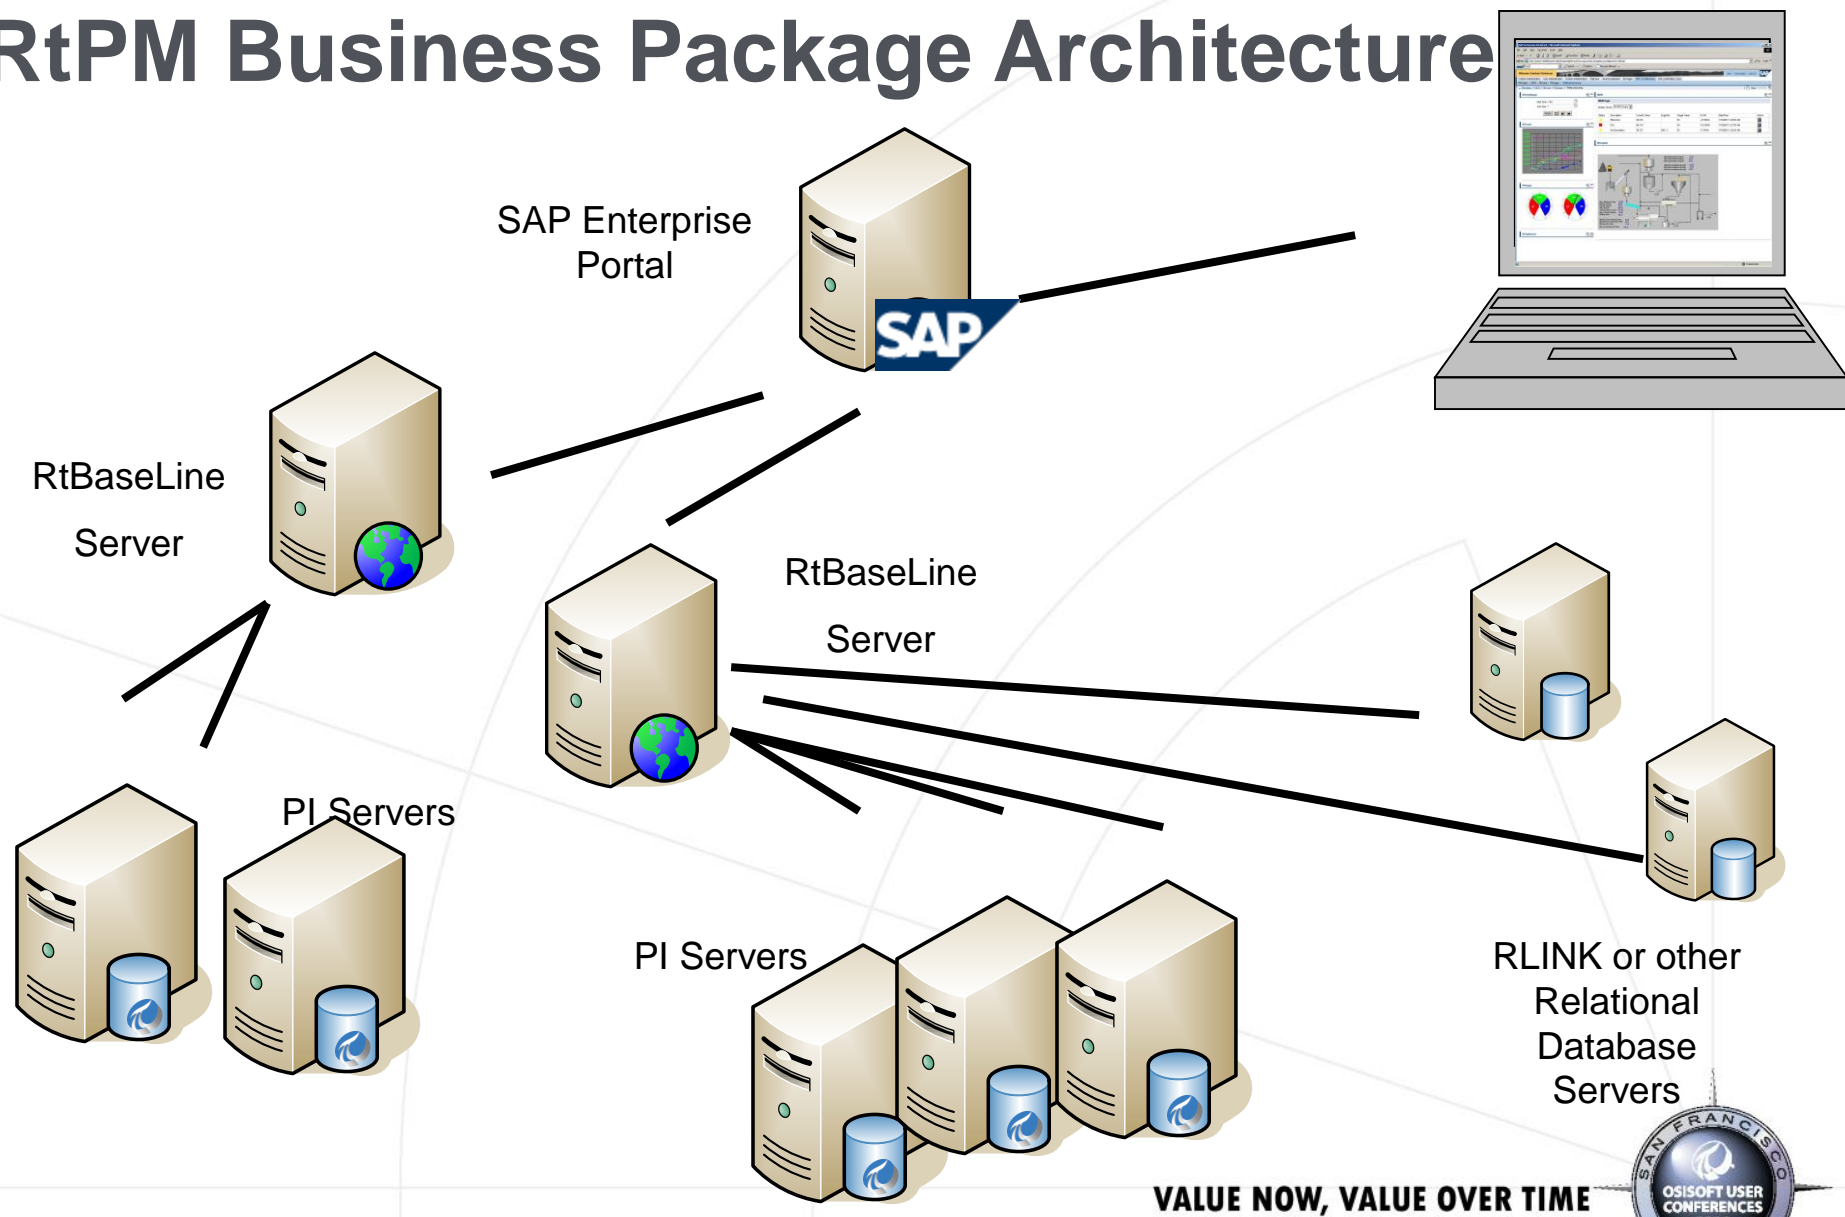

SAP® Certified Integration

VALUE NOW, VALUE OVER TIME

RtPM Business Package Architecture

VALUE NOW, VALUE OVER TIME

Requirements

- RtBaseLine Server
 - Windows Server 2003
 - Windows SharePoint Services
 - MSDE 2000 (can be on separate box)
 - Write access to a PI System
 - RtBaseline Services
 - Machine Sizing
 - Sized as a function of the number of users
 - E.g., 200 users
 - Dual P4, 2GB Ram, 2 GB Disk space (NTFS only)
- Client Side
 - Requires compatible SVG Viewer (currently Adobe SVG Viewer)
 - Internet Explorer 6.0 SP1
 - No ActiveX downloads
 - Machine Sizing
 - Windows 2000 or XP
 - Pentium III or higher
 - 256 to 512MB of RAM recommended
- SAP Portal
 - 6.0 SP11>
 - NetWeaver 4.0
 - Any NetWeaver operating system

RtGauge

RtGauge

- Personalization
 - User Defined
 - Fixed Standard Page

User Definable Gauge

Vertical or Horizontal orientation

Multiple zones completely customizable

Events to other iViews and subscribes to events

The screenshot shows the SAP Enterprise Portal 6.0 - Microsoft Internet Explorer interface. The main window displays the RtGauge configuration interface, which is divided into several sections:

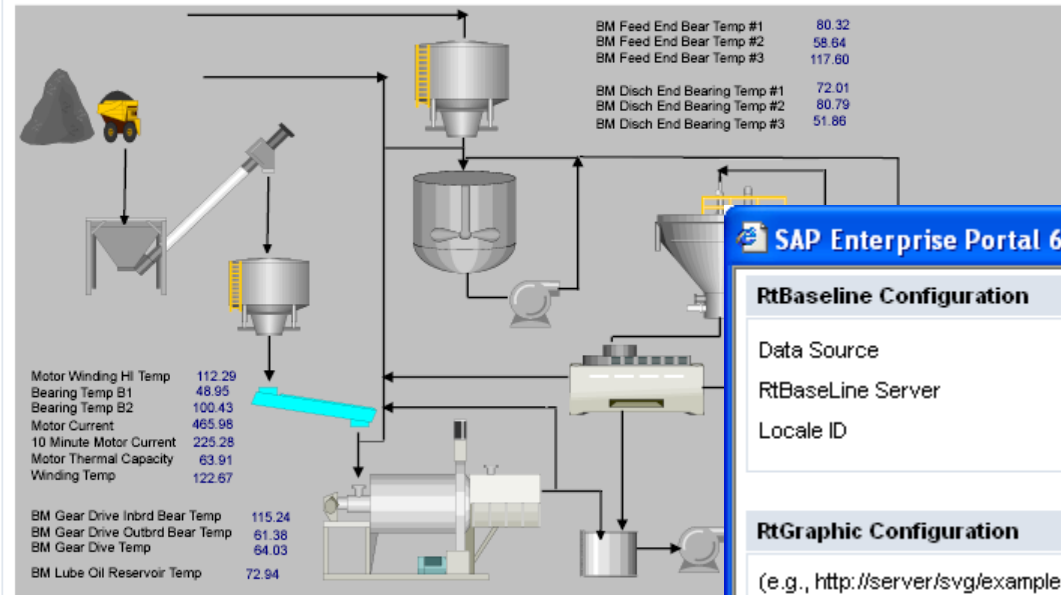

- RTBaseLine Configuration:** Data Source (OSIsoft_RTPM_1), RTBaseLine Server (ganymede), Locale ID (1033).
- Auto Update:** ☒ Auto Update, Update Interval (15) Seconds.
- Format:** Number Format (General), Bad Data Color (Red), Number of Zones (3), ☒ Blink, ☒ Percentage Zone Setting, Label (High), Color (Blue), Total Scale Percentage (40), Low Value (60), High Value (100), Dial Gauge Size (180).
- Gauge Tags Configuration:** (e.g., Wocalhost\sinusoid), Add Tag, Delete Tag, Multiple gauge orientation (Horizontal, ☒ Vertical).
- Legend:** ☒ Tag Name, ☐ Engineering Units, ☐ Description, ☐ Current Value.
- Scale:** Scaling Factor (1), Minimum Scale (Database, Custom), Maximum Scale (Database, Custom).
- Settings:** Base Angle (60), Text Color (DarkBlue), Face Color (LightGray), Background Color (LightGray), Save, Cancel.

VALUE NOW, VALUE OVER TIME

Kodak

- Goal
 - Monitor Energy Performance company wide
 - Only Portal in company is SAP Portal
- Implementation
 - Installed themselves
 - Webex training and support
 - Resolved https issues with their help
- Presenting at SF User Conference

VALUE NOW, VALUE OVER TIME

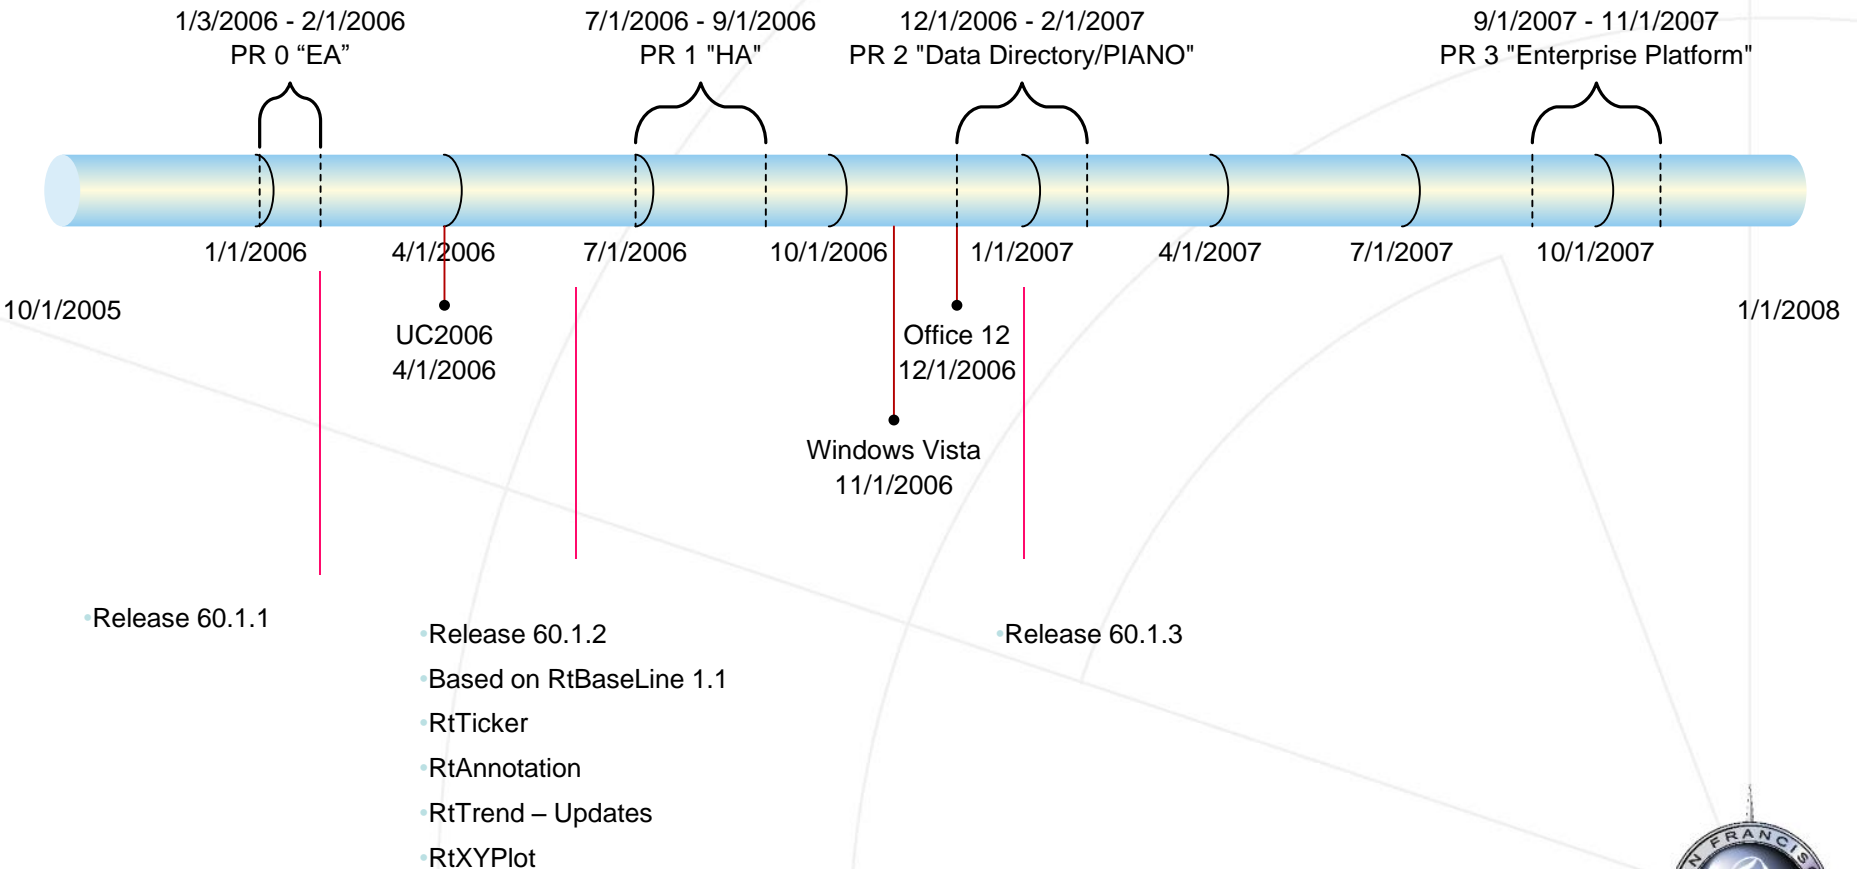

Key Differentiators

- Operates in real time (seconds) ie. Displays continuously update
- Performance and security of operational systems maintained
- Events published and subscribed to
 - EPCM.raiseEvent("com.osisoft.pct.RtPM","AdhocSymbol",
symbolname)
 - EPCM.subscribeEvent("com.osisoft.pct.RtPM","AdhocTags",
adhocTags)
 - 3rd parties are integrating with OSIsoft iViews and namespace events
- Authoring tool for Displays - ProcessBook
- Configurable Application
- Displays can have fixed content or they can be dynamic
- Real-time web services and Real-time composites to enable an enterprise wide business platform

VALUE NOW, VALUE OVER TIME

Platform Release Timeline

VALUE NOW, VALUE OVER TIME

Summary

- Installed and operational in < 3 hours
- Unified view of the enterprise – business and multi site manufacturing facilities in single view
- Demo pod
- Learning Lab

VALUE NOW, VALUE OVER TIME

SEA: RtPM Business Package

Simple

- Easily installed
- End user configurable and designed

- **Enterprise Aware**

- Across enterprise visualization integrated with other Enterprise data

- **Highly Available**

- Information whenever, wherever, and however
