# Call to Action – Online

- Expand your vCampus experience
  - Technical Integration Topics - not just programming
  - Engage OSIssoft Product Managers & Developers on Forums & Blogs
  - Use Betas and Community Technology Previews (CTPs)
    - PI ACE
    - PI for StreamInsight
    - PI SDK

# Call to Action – Live!

- Influence
- Share
- Share
- Participate
- Help

The screenshot shows the OSISOFT VIRTUAL CAMPUS website. The header includes the OSISOFT logo and the text "VIRTUAL CAMPUS". Below the header is a navigation menu with links: Library, Discussion Hall, Auditorium, Bloggers Place (highlighted), Training Center, Download Center, Control Panel, and Live! There is also a search bar and a "Go" button. The main content area features a blog post titled "OSISOFT VCAMPUS LIVE! BLOG:" with the sub-heading "OSISOFT vCampus Live! 2010 is over... already! ★★★★★". The post text reads: "OSISOFT vCampus Live! 2010 was a big success, thanks to all the support and involvement from the community - vCampus members provided ideas on topics they'd like to see covered, and many of them even participated as speakers during the event. Congratulations and thanks to all of those who participated - directly or indirectly - in making this event such a great success, thanks go to all the speakers, presenters and attendees! Remember, OSISOFT vCampus Live! this is YOUR event... help us make it better! Simply give us feedback and write your suggestions, by starting a discussion thread or dropping us a note at [vcampus@osisoft.com](mailto:vcampus@osisoft.com). Got something you'd like to present at next year's event? Tell us have about it! We've already started thinking about 2011, so the sooner you let us know your suggestions, the better the better the event will be. And a big thank you to all who have already given us their comments, feedback and requests - keep it coming! One example of the changes we made based on your feedback, is the new 'Vox Pop' open sessions - these were a success and are a clear example of how much we value your suggestions and react on them! We are looking forward to getting the community even more involved for OSISOFT vCampus Live! 2011, scheduled to take place on the week of September 17th at the Palace Hotel in San Francisco. Mark your calendars now and join us!" Below the text is a photograph of a large conference room with many people seated at round tables, facing a stage with large screens. The right sidebar contains several sections: "THIS BLOG" with a link to Home; "COMMON TASKS" with links to Control Panel and Write a Blog Post; "SYNDICATION" with links for RSS for Posts, Atom, and RSS for Comments; "RECENT POSTS" with a list of recent blog entries; and "TAGS".
