

OSIsoft®

USERS 2011 CONFERENCE

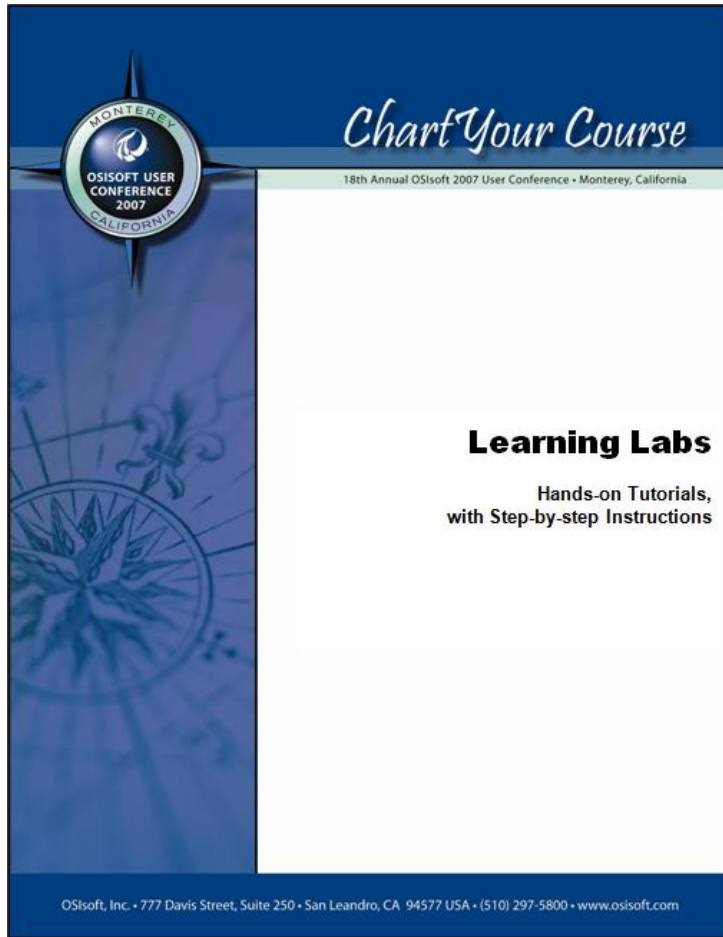

Turning **insight** into **action**.

Learning - When You Want It, Where You Want It

Presented by **Nick D'Orazio**, E-Learning Manager, OSIsoft
Pablo Benvenuto, Instructional Technologist, OSIsoft

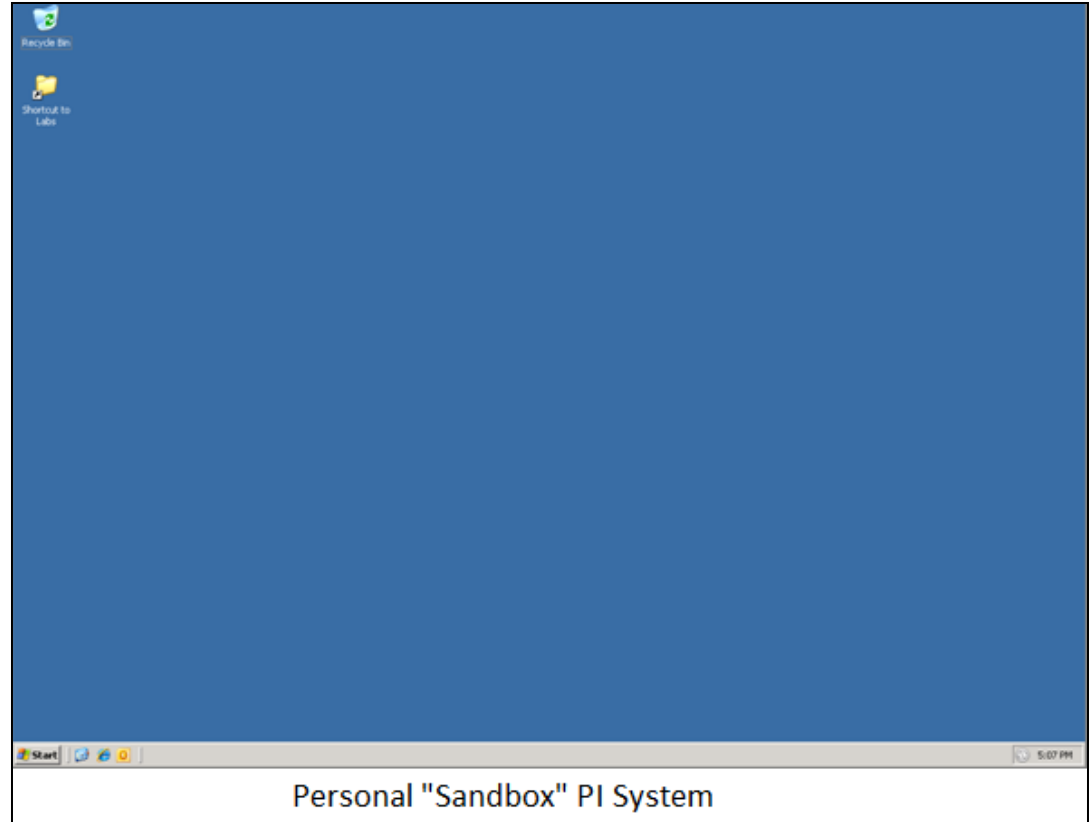

Origin

- Customer request after the Learning Labs at the OS/soft Users Conference 2007.

The Virtual Environment

- Cue the demo.

Learning in 2011

- Tight budgets mean less travel to training centers.
- “Just in time” training is easier than ever.
- Social media is a powerful two-way medium for vendors and customers.

Emerging Models Use Social Media Tools

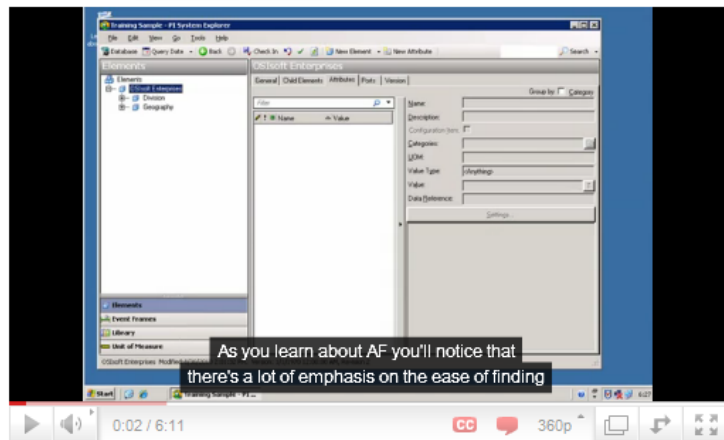

- Khan Academy has proven the social media model of training.
 - Other early adopters:
 - National Geographic Society
 - Stanford University
 - PBS
 - US Government Agencies

OSIsoft Training: What is AF? 1

Uploader Comments ([OSIsoftTraining](#))

At 3:55 you mention "vendor specific interfaces." What's an interface?
blau111 1 week ago

[@blau111](#) An interface is the software application that collects data in real-time from the data source (DCS, PLC, paper machine, SCADA system etc.). In some

The OSIsoft Learning Channel

- We are putting our 1,700 videos on YouTube.
- Cue the Demo.

Virtual Learning Lab Subscription

- \$99 Monthly
- \$549 Yearly
- Enterprise Agreement customers and vCampus members have access.

Existing Customers with CBTs

- Everyone who bought a CBT in the last year will get a 1 year subscription for each copy.
- We will double the subscription of the current On-Demand Library subscribers.
- We are working on a transition plan for the existing CD/DVD based CBTs.

Thank you
