Why do it - whats it all about?

- Process Data is a Huge Untapped Asset
- The only definitive record of Plant Performance
- Trending is not enough - we are only human!
- Key issues surround the **combination** of plant variables.

The Visa logo is displayed in its characteristic blue, italicized, sans-serif typeface.The Walmart logo features the words "WAL★MART" in a blue, bold, sans-serif font, with a small star between the words. Below this, the tagline "ALWAYS LOW PRICES." is written in a smaller, blue, sans-serif font. A red, handwritten-style script "Always." is positioned below the tagline.The Amazon.com logo consists of the text "amazon.com" in a grey, sans-serif font, with a yellow curved arrow underneath the text pointing from the 'a' to the 'z'.

**Companies that invest in the
value that data provides
will prosper.**

The Nalco logo features a stylized blue graphic of two overlapping triangles forming a larger triangle, with the word "NALCO" in a blue, sans-serif font below it.The AEP logo consists of the letters "AEP" in a white, bold, sans-serif font, set against a red, rectangular background with a slight gradient. A registered trademark symbol (®) is located to the right of the logo.

Description

In the Information Age, there is an unprecedented amount of data being collected and stored — by banks, supermarkets, internet retailers, security services, etc. So, now that we have all this data, what do we with it?

The discipline of data mining and analysis provides crunchers with the tools and framework to discover meaningful patterns in data sets of any size and scale. It allows us to turn all this data into valuable, actionable information. In this course, learn how to explore, analyze, and leverage data.

Topics Include

- Decision trees
- Neural networks
- Association rules
- Clustering
- Case-based methods
- Data visualization
