New Offerings at OSIsoft

The New OSIsoft Users Community

Continue the Conversations...

<http://community.osisoft.com>

...that you started at our seminars and conferences

- It is a **Forum** where:
 - Customers, partners, and employees share ideas and opinions;
 - You can talk directly to our designers and decision makers.
- It is an **Open Community**:
 - No login required for viewing content;
 - To post, register directly or
 - Use Facebook, Twitter, Windows Live, or Google accounts

OSIsoft Partner Solution Showcase

- A website where you can find software solutions from OSIsoft partners with specific industry and domain expertise

<http://partners.osisoft.com>

pss@osisoft.com

A screenshot of the OSIsoft Partner Solution Showcase website. The left sidebar shows a "Refine Search" section with filters for "Implementation Time", "Industry", "Region", and "Solution Area". The "Solution Area" filter is expanded, showing a list of categories like "AMI and Related (2)", "Asset Management (8)", etc. The main content area displays "23 Results" and "Page 1 of 3". It lists three featured solutions: "Visual KPI" by Transpara, "TopView" by EXELE Information Systems, Inc., and "EXELE PI DAS CEMS Reporting" by EXELE Information Systems, Inc. Each solution includes a brief description, a rating (stars), and a date (March 27, 2012). The "EXELE PI DAS CEMS Reporting" solution also includes a description of its functionality. The "RtDuet" solution is partially visible at the bottom.
