## Business/Operation Intelligence

# Information to intelligence: Insights to drive decisions

Transform

Transform

To **transform** information into operational & business intelligence...

**Context:** Data without context is limited

Real-time **Visualization:** Make information more consumable and actionable in real-time

- **Investigation:** People must be able to **ask** and **determine how** and **why**
- **Integration:** Information must be able to span across **physical** and **technological** bounds

# How does the PI System enable **transforming** information into intelligence?

## Capabilities

- PI Datalink
- PI Event Frames
- Future data (New)
- PI Integrator for Business Analytics (Coming)\*
- PI Integrator for SAP® HANA® (Coming)\*

# Enabling Investigation

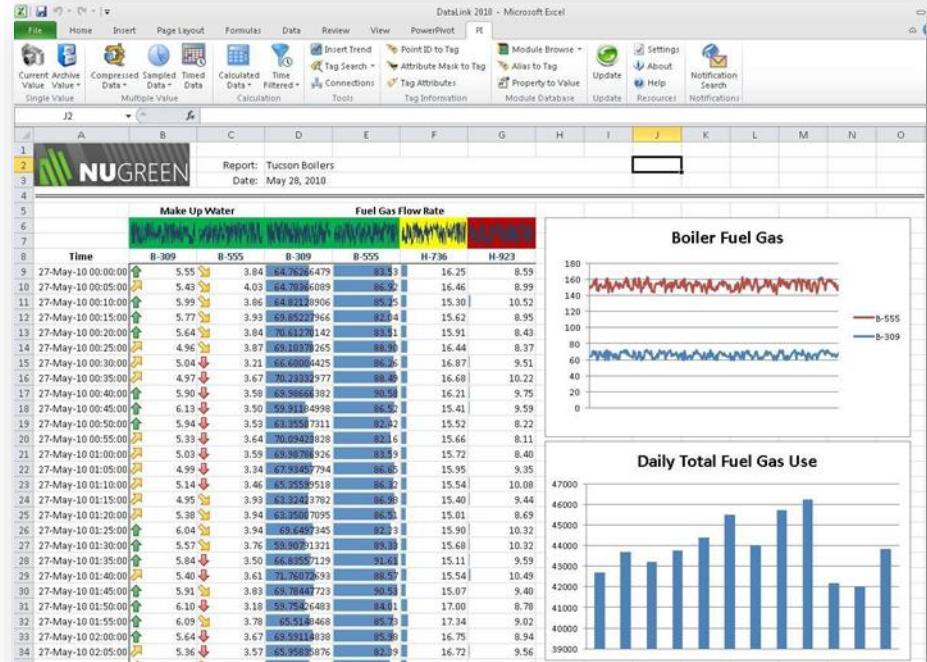

# Asking **How** & **Why**: PI DataLink provides seamless PI System access within Microsoft Excel

**Create novel insights**

**Perform rapid investigation**

*Add-in to Microsoft Excel*

- Create Reports
- Apply Calculations
- Retrieve data

# Asking **How** & **Why**: PI Event Frames easily identifies events for deeper root cause investigation

- The most powerful way to automatically bookmark PI time-series data
  - Allows engineers and business users to derive meaning from their data
  - Simplifies searching, analyzing, and reporting

**Downtime  
Excursion  
Batch**

**Related Data**

Event Attribute	Value
Name	Ex 20141215-0002
Start	15-Dec-2014 10:35:02
End	15-Dec-2014 10:47:26
Duration	12 min, 24 sec
Asset	Boiler-352
Excursion Type	High Violation
Fuel Gas Flow Avg	37.12 k sft3/h
Fuel Start	823.48 k sft3/ton
myPIKPI Max	47.19 bbl/d

# Asking **How** & **Why**: PI Event Frames are integrated across the PI System

Event detection  
Root cause event  
identification

## Event Generation

Hierarchical & batch  
event generation

A scalable event  
Infrastructure

## Event Database

Event storage  
Related data  
Calculations  
Event auditing

Exploring & comparing  
events in Excel  
Ad-hoc reporting

## Event Visualization

Event trending  
Root cause trending  
Hierarchical trending  
Event attribute visualizing  
Event comparing

Reporting &  
BI integration  
3<sup>rd</sup> party integration

## Event Integration

SOAP access  
Mobile app  
compatibility  
Programmatic access

## Integrating Information to Drive Insights

# Integration: What could you do if you knew the future of your...

## PRODUCTION

Are we on track to hit our production targets?

Do the fiscal projections justify deviating from standard operation?

## DEMAND

How much power will our customers need in the next 24 hours?

How much material are we obligated to deliver?

## ENVIRONMENT

Are there enough units online to handle the storm?

Is there an abnormal heat wave that will compromise the grid?

Historical

0 1

Real-Time

Future Data

# Integration: Integrate forecasts directly into your PI System

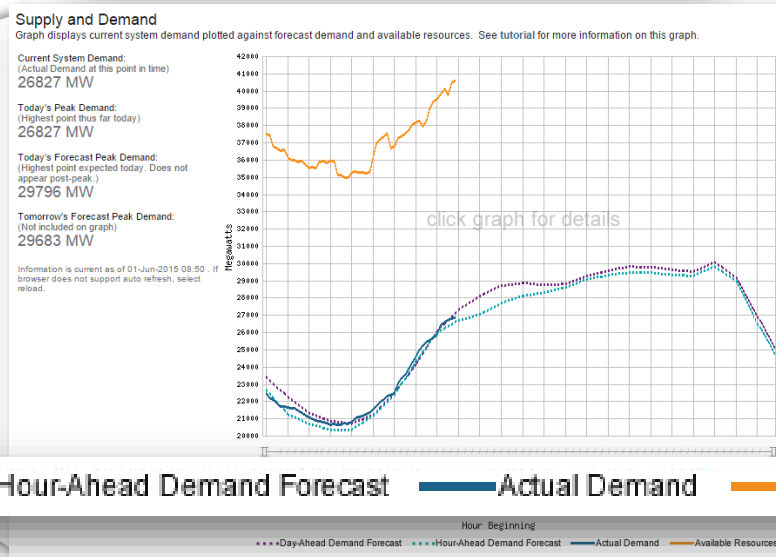

The screenshot shows the California ISO website. At the top, there's a navigation bar with links like 'Calendar', 'Today's Outlook', 'Recent Documents', 'News', 'Careers', and 'Contact Us'. Below this is a search bar and a main menu with categories: 'ABOUT US', 'PARTICIPATE', 'STAY INFORMED', 'PLANNING', 'MARKET & OPERATIONS', and 'RULES'. A large banner image of a city skyline is visible. On the left, there are three buttons: 'Joining us' (with a plug icon), 'Going green' (with a leaf icon), and 'Looking ahead' (with a chevron icon). The main content area features a 'Today's Outlook' section for Monday, June 1, 2015, at 08:54:06. It displays 'Current Demand: 26,827 MW' and 'Forecast Peak: 29,796 MW' with a 'Click for more' link. Below this is a 'Calendar' section showing events for Monday, Tuesday, and Wednesday. At the bottom, there are sections for 'QUICK LINKS', 'STAY INFORMED', 'RELATED WEBSITES', and 'STAY CONNECTED'.

**Today's Outlook** Mon Jun 1 08:54:06 2015

**Current Demand:** 26,827 MW

**Forecast Peak:** 29,796 MW

# Integration: Overcome the challenges to discovering insights

Increasing systems  
**complexity**

**Scarcity of domain &  
industry expertise**

Cost and resource  
**constraints**

Not everyone has direct access to information, leaving many potentially **impactful** insights **undiscovered**

# Noble Energy presents on the value of integrating data

## Our Approach Data as a Strategic Asset

### Gain New Insights Into Production Dynamics

- Across a wide variety of disparate data sources and variables such as well information systems, SCADA data, sensors, and unstructured data

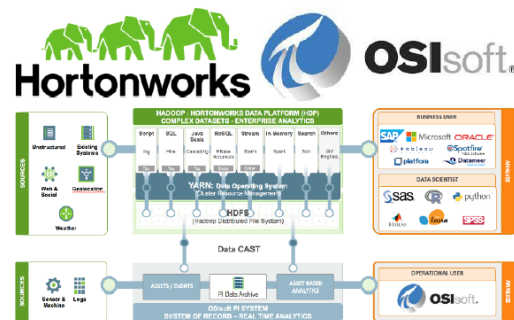

### Build Executive Consensus and Business Sponsorship

- Start with a single business unit – prove the value
- Recognition that data provides sustainable competitive advantage
- Widespread, systemic value creation because data is managed as professionally as capital or labor

### Rely on Trusted Partners to Assist

- Combination of Noble team members along with Hortonworks (Hadoop) and OSIsoft (PI / CAST)
- High performing operational and data science team (Python)

<http://www.osisoft.com/Templates/item-abstract.aspx?id=12337>

# Devon presents on data integration

## What do we gain?

- BI tools become more responsive (Spotfire)
- Users can build queries ad hoc (SQL)
- Scheduled and ad-hoc reporting (SSRS)
- Historical data available to existing BI tools
- Real-time data in Hadoop
- Align data for BI within a common time scheme
- Enable unique uses for real-time data

# Integration: PI Integrator Roadmap - Q3 2015

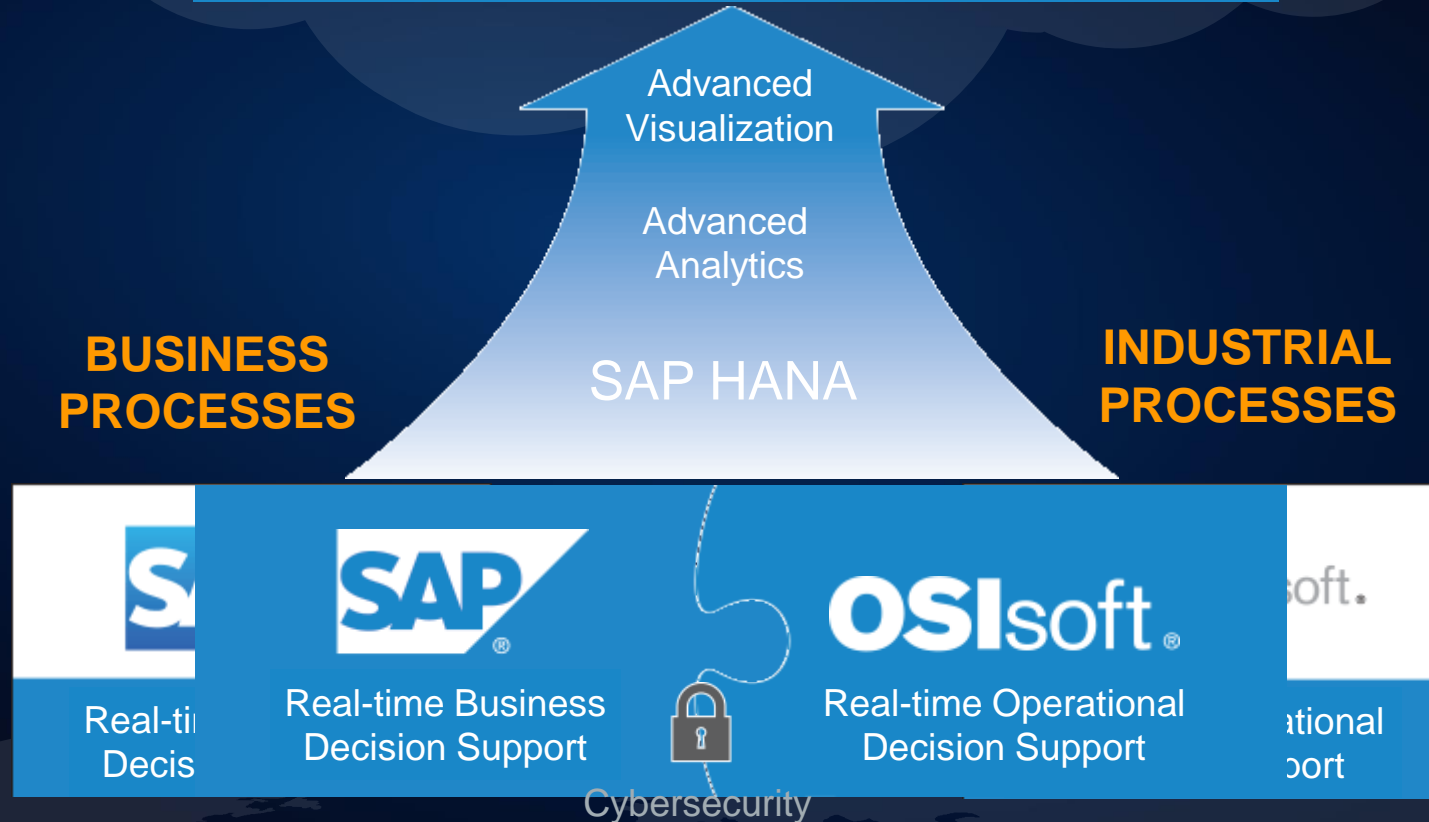

## **PI Integrator for Business Analytics: BI Edition**

- Create PI Views
- Access decision ready data via ODBC
  - First class support for Tableau, Tibco Spotfire, and Microsoft BI
  - Works with any software with an ODBC data source connection

## **PI Integrator for SAP® HANA®**

- Automatically creates Virtual Tables via Smart Data Access
- Native integration with SAP HANA
  - Linux and SAP HANA Cloud Platform
- Available through SAP

# Novel and Actionable Insights

The slide features several decorative elements: a large blue circle with a white three-leaf logo in the top left; a large blue circle with a white three-leaf logo in the top right; a medium blue circle with a white three-leaf logo in the bottom right; a small blue circle with a white three-leaf logo in the bottom right; and a solid blue circle in the bottom left. The text is centered in the middle of the slide.

We believe **People** with **Data** can **Transform** their world
