Solution

Real Time Information – Currency of the New Decade

Teknisk nett – plassering – hvor er det?!
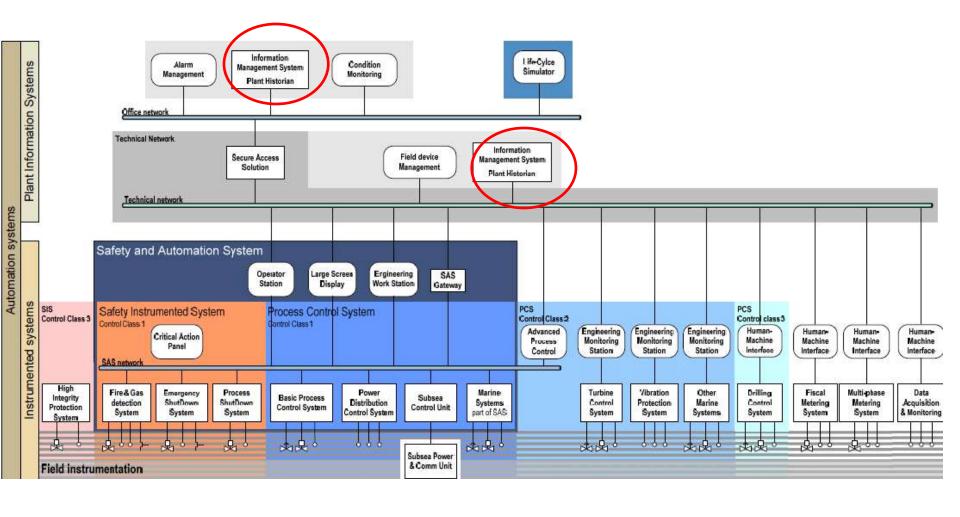

Real Time Information – Currency of the New Decade

Real Time Information – Currency of the New Decade

Real Time Information – Currency of the New Decade
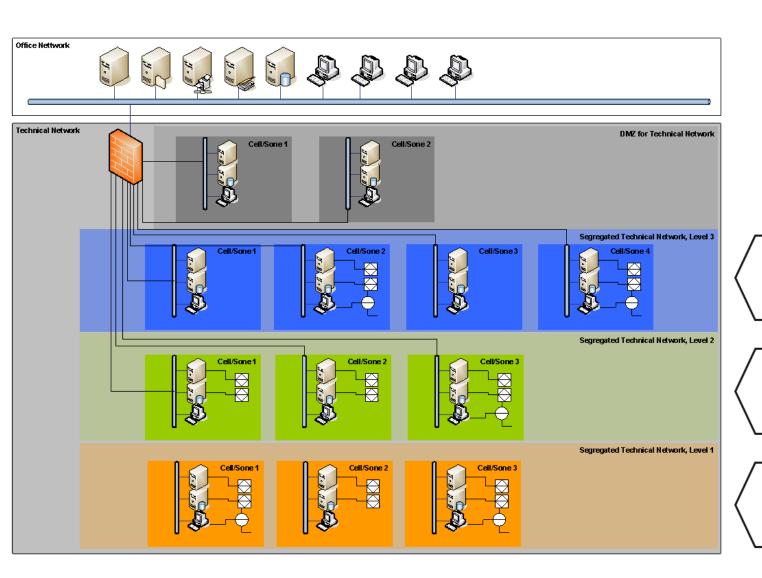

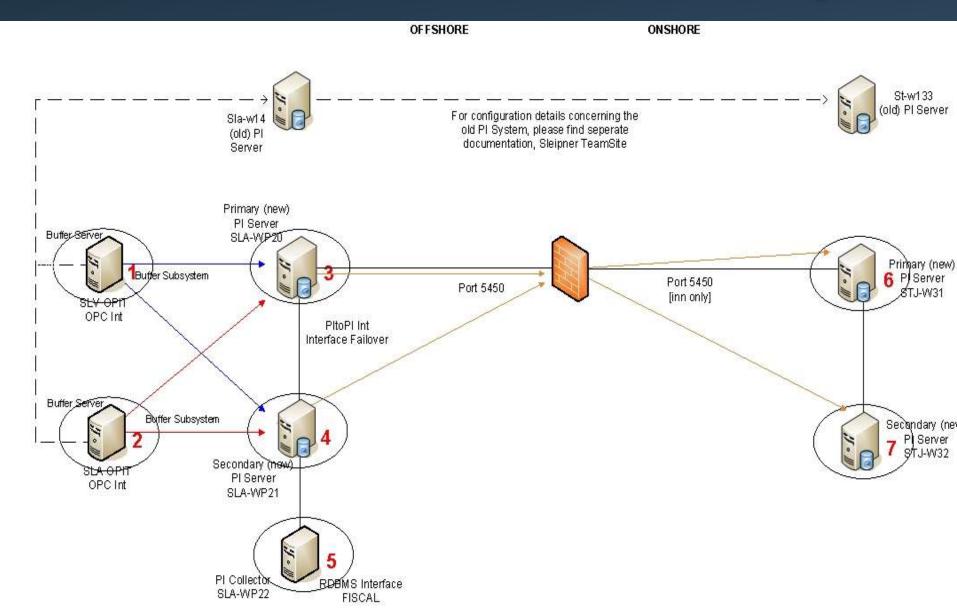

- Upgrade/enhancement project of PI started in 2010
- 2 PI server collectives
  - Offshore
  - Onshore
- I/F level fail-over. PI-to-PI
- 60 PI Processbook / PI Datalink
- PI Web Parts
- Interfaces:
  - OPC
  - RDBMS
  - Modbus (planned). Roxar

Real Time Information – Currency of the New Decade

Demo / Results

Real Time Information – Currency of the New Decade

Results

- Availability
  - HA fail-over. Unplanned test
- Ability to create displays with data from multiple vendors a "hit" with engineers. Visibility
  - "ABB data" in same screen as e.g CM data
- PTEK, troubleshooting. Increased productivity
  - Production optimalization
- Scalability
  - Increase in usage
  - New fields. Volve came online later, others to come
- …and more…
