# *OPC At OSIsoft*

*Ayana Craven*

*Brian Young*

*Butch Payne*

# *Ongoing OPC growth*

---

- Over 1000 sites using OPC Interface
- Compliance tests
- Interoperability Conferences
- DA 3.0 – Complex Data
- Plug and Play

OPC at OSI

**2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# *New Tools and Functionality*

---

- *ICU (Interface Configuration Utility)*
- *Tag Configurator*
- *APS (Auto Point Sync)*
- *Interface Failover flexibility*
- *OPC server for PI*

OPC at OSI

**2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# **Coming Attractions**

---

- *Alarms and Events Interface*
- *OPC COM Connector*
- *History recovery for OPC Interface*

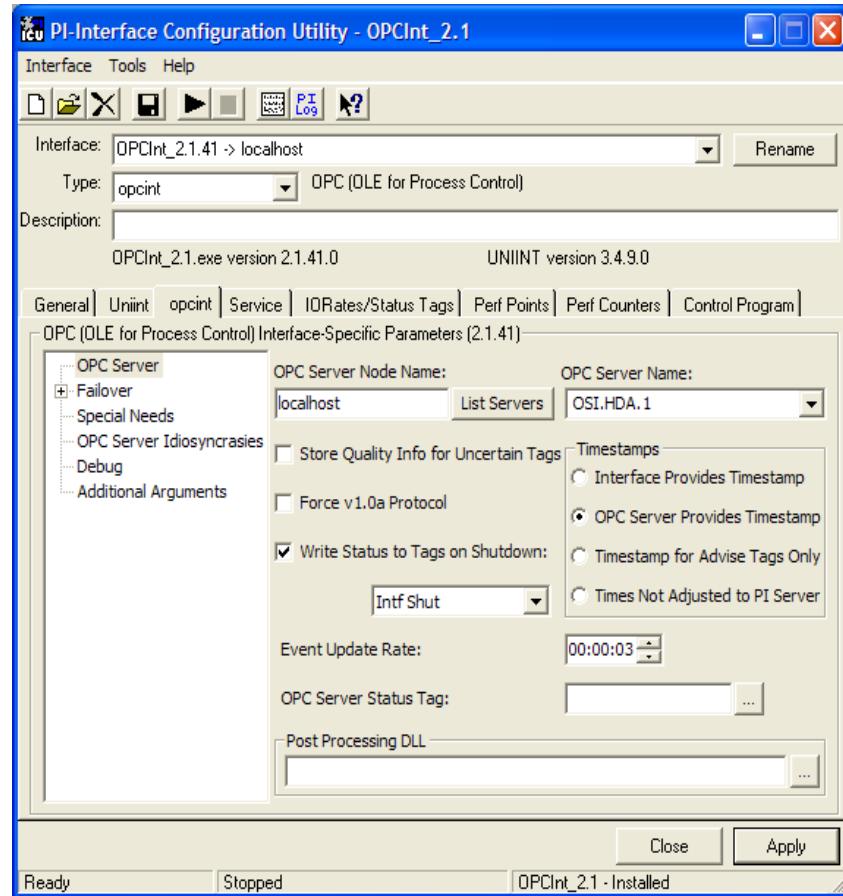

OPC at OSI

**2003 OSISoft USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# PI-OPC Interface ICU

- *GUI Configuration Tool*
- *Easy to Configure*

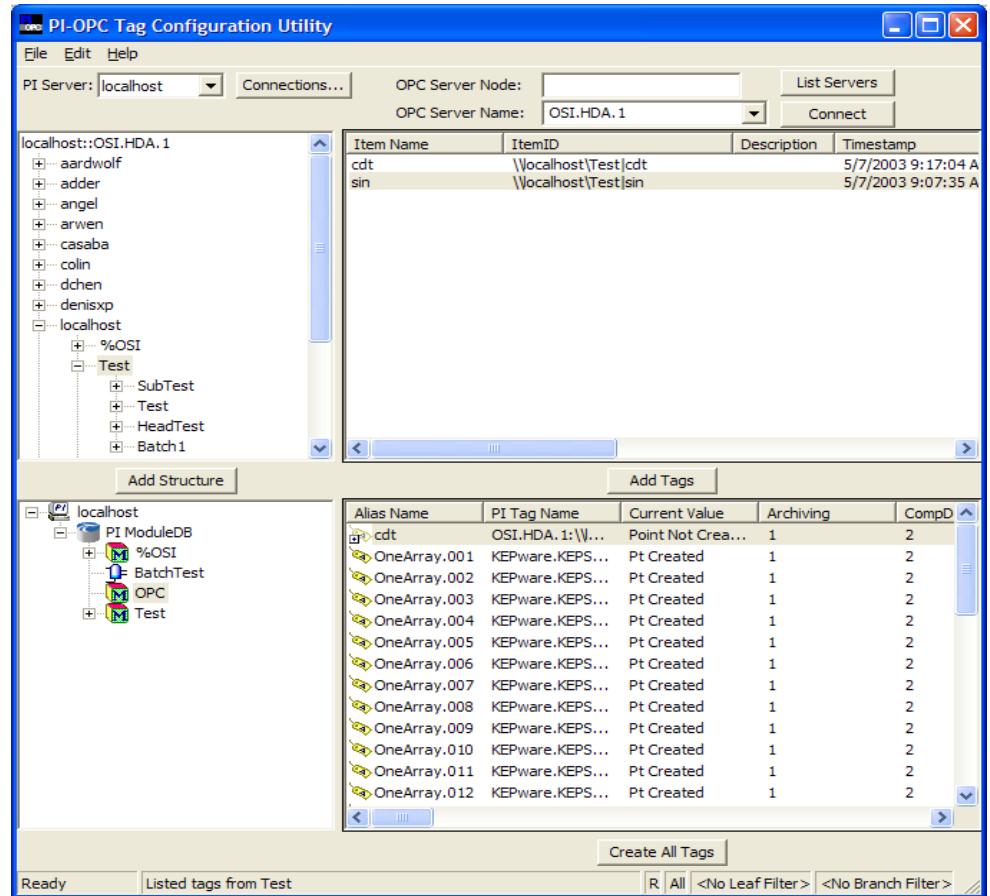

OPC at OSI

2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA

# PI-OPC Tag Configuration Utility

- Create existing OPC points in PI
- Adds OPC structure to Module DB and Creates Aliases
- Does not update PI points

OPC at OSI

2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA

# *PI-OPC Interface APS (Auto Point Sync) Connector*

---

- *Create existing OPC points in PI*
- *Update existing PI Points with current OPC settings*
- *Automatically scan for new OPC points as they are created on the OPC server*

OPC at OSI

**2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# *Interface Failover*

---

- *Expanded Cluster configurations*
- *Multiple Watchdog configurations*
- *Some server-specific failover triggers*
- *Coming soon – History Recovery*

*Beta date Sept 15*

OPC at OSI

**2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# **HDA COM Connector**

---

- Access any *Historical Data Access* or *Data Access Item* as *PI tag*
- *Beta Release Aug 15*

OPC at OSI

**2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# *OPC Server for PI*

---

- *Data Access and Historical Data Access Server*
- *PI-MDB properties and aliases are OPC Items*
- *DA 1.0a and 2.05a, HDA 1.2 standards*
- *PI\_HDATool joins PI\_OPCTool for diagnostic and ad-hoc use*

OPC at OSI

**2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# **PI-OPC Alarm and Events**

---

- *OPC Foundation Alarm and Events Specification*
- *Goals of the PI-OPC AE Interface*
- *Interface Configuration*
- *Interface Output*
- *Summary*
- *Announcements*

# *OPC Alarms and Events*

---

- *Version 1.10 October 2002*
- *Types of OPC AE servers supported*

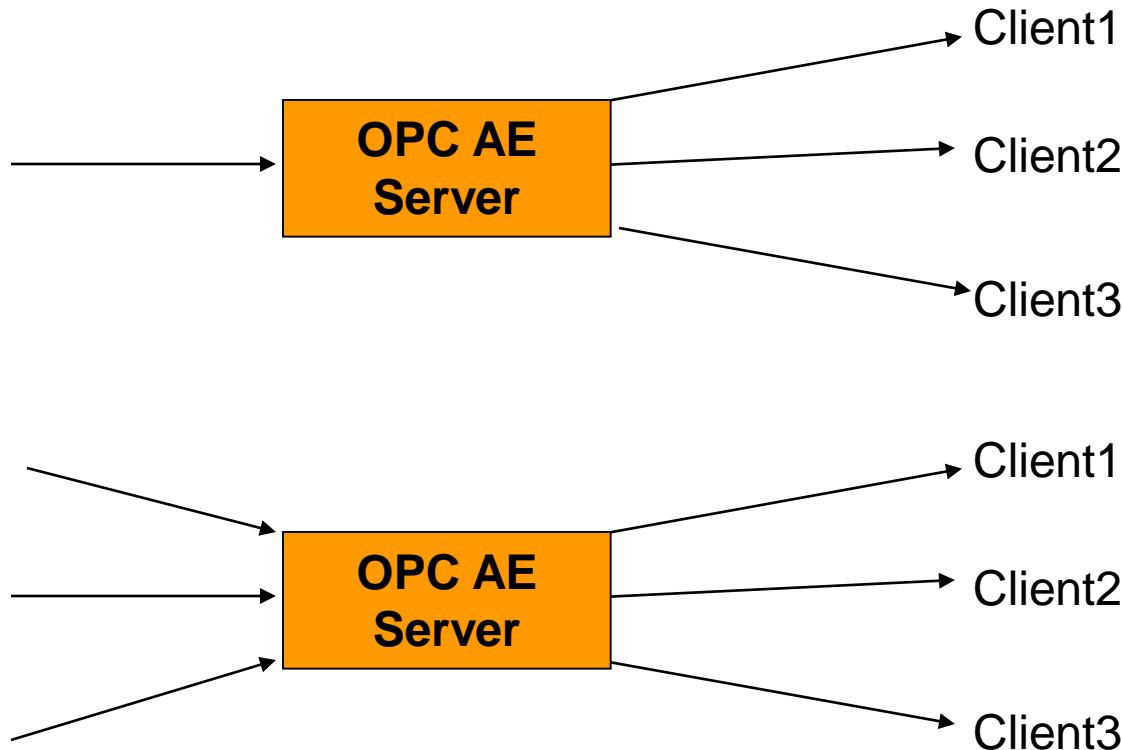

OPC at OSI

**2003 OSISoft USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# *Server Models*

---

OPC at OSI

**2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# ***3 Types of Events***

---

- *Condition-related*
- *Tracking -related*
- *Simple*

OPC at OSI

**2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# **Condition-related**

---

- *Represent transitions into or out of the states represented by the conditions and sub-conditions.*

## Example

Tag FIC1001 transitioning into LevelAlarm condition and HighAlarm sub-condition.

OPC at OSI

**2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# *Tracking-related*

---

- *Represent occurrences which involve the interaction by a client with a object on the OPC AE server.*

Example

A control change by the user of the setpoint of tag FIC1001

OPC at OSI

**2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# **Simple**

---

- *Events that don't fit into the preceding event categories*

Example:

Notification of a component failure within the system/device represented by the OPC AE server

OPC at OSI

**2003 OSISoft USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# **Goals of PI-OPC AE Interface**

---

- *Allow PI access to OPC alarm and events data through OPC compliant AE servers.*
- *Set standard for future alarm/events interfaces.*

OPC at OSI

**2003 OSISoft USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# *Requirements of AE Interface*

---

- *Windows OS (NT, 2K, XP)*
- *PI-UDS version 3.4 or higher*
- *PI-SDK version 1.3.1 or higher*

OPC at OSI

**2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# **Interface attributes**

---

- *ExDesc* – *Specify the optional parameters for Severity and Quality.*  
SY QY
- *Instrument Tag* – *Specifies the OPC AE server source.* FIC1001
- *Location2* - *Specifies whether the optional vendor specific attributes are to be archived.*

# *Interface attributes cont'd*

---

- *Locations3* -specify the event-type.
  - *Simple* - 0
  - *Tracking-related* - 1
  - *Condition-related* – 2
- *Userint1* – Specifies the size of the vendor specific attribute array

OPC at OSI

**2003 OSISoft USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# Interface Output

---

- *Condition-related*
  - Sub-Conditions – stored in a digital state set. (See Digital States)
  - Message – stored in the annotation
  - ActorID – stored in the annotation
  - Vendor specific (optional) – (VS(1);...VS( $n$ );) – annotation
  - Quality – PI tag
  - Severity – PI tag

OPC at OSI

**2003 OSISoft USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# *Interface Output*

---

- *Tracking-related*
  - *EventCategory*
  - *Severity*
  - *Message*
  - *OperatorID*

OPC at OSI

**2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# *Interface Output*

---

- *Simple*
  - *EventCategory*
  - *Severity*
  - *Message*
  - *Vendor specific (optional) – VS(1); ...VS(n);*

OPC at OSI

**2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# **Summary**

---

- *OPCFoundation Version 1.10*
  - *Types – Condition-related, Tracking-related and Simple.*
- *Goals of the PI-OPC AE Interface*
  - *Allow PI access to OPC alarm and events data through OPC compliant AE servers.*
  - *Set the standard for all future alarm and events interfaces.*

OPC at OSI

**2003 OSISoft USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# **Summary cont'd**

---

- *Interface Configuration*
  - *ExDesc, InstrumentTag, Location2, Location3, Userint1*
- *Interface Output*
  - *Simple - Stored in string*
  - *Tracking-related – Stored in string*
  - *Condition-related – Sub-condition stored in digital tag - Attributes stored in tag annotation*

OPC at OSI

**2003 OSISOFT USERS CONFERENCE SAN FRANCISCO CALIFORNIA USA**

# Announcements

---

- *Beta - June 2003*
- *Release - October 2003*

**2003**  
OSISOFT USERS CONFERENCE
