

Assessing Your Data Infrastructure Maturity, and Moving it Forward

Francois P. Bouchard, Systems Engineer
October 4th, 2016

There's so much to accomplish with your DATA...

...where to begin?

Empowerment begins with a plan

Keys to a Successful Data Infrastructure Program

People

- ✓ Business Sponsor
- ✓ Program Manager
- ✓ SME(s)
- ✓ Champion

Processes

- ✓ Rollout/Installs
- ✓ System Administration
- ✓ Regular Meetings
- ✓ Development

Technology

- ✓ Interfaces
- ✓ Historian
- ✓ Applications
- ✓ Analyses

Getting Alignment

Key Point: Get the stakeholders talking

How many spreadsheets do you use?

Are reports static?

How do you get data in the field?

What's your security segmentation?

How much lead time do you have before a failure?

Tips:

- *Remember IT*
- *Consider other sites*

How do you agree on the elephant in the room?

Business Issue:

Different departments perceive different obstacles. No alignment.

Problem:

with managers
^

Hard to get a unified understanding, align priorities and share resources.

Solution:

Honest assessment of current state.
Shared agreement on focus areas.

Gaps in 1 or more core areas are often linked to the elephant

360° Infrastructure Assessment

- Surfaces **gaps**
- Leads to a **roadmap**
- Provides a **common language** across groups

9 core areas support your data vision

Facilitate a 360° view with a maturity assessment

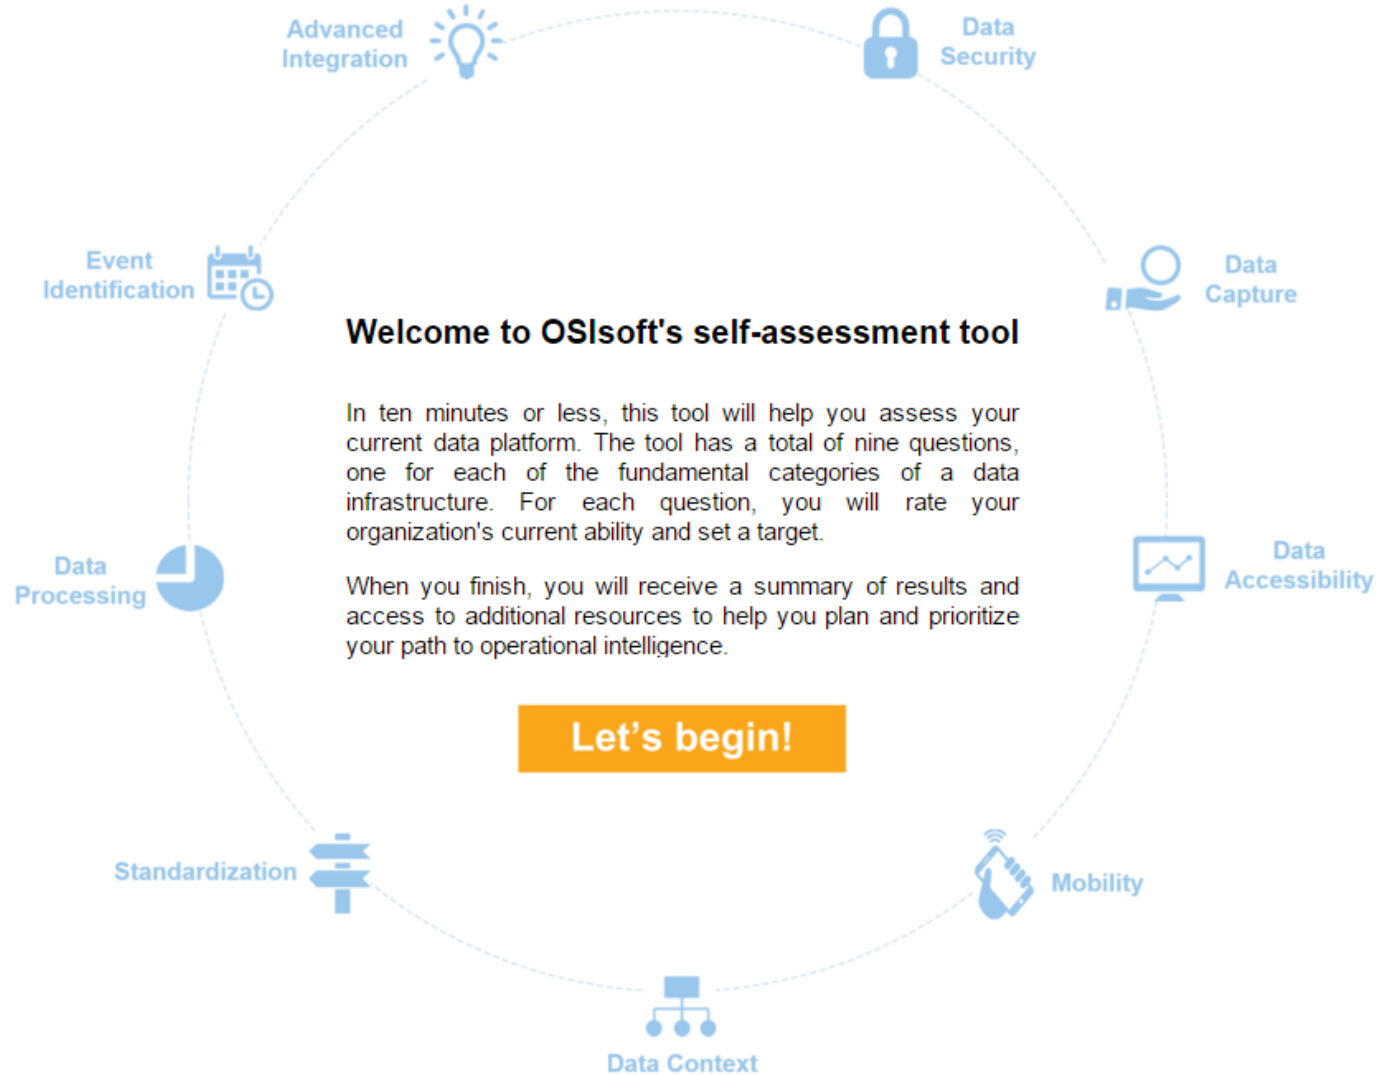

Set your path to operational intelligence

OSIsoft can help with a facilitated workshop which uses a tool designed to help your organization compare your data platform to a mature data infrastructure; an infrastructure that supports not only today's data challenges and needs but also what the organization envisions for staying competitive in the future.

The workshops sets the ground for transforming your operations in your organization. Helping you to start planning and prioritizing your path to operational intelligence.
