

Integrated Supply Chain Monitoring

Ales Soudek

Phosphate Supply Chain

Collect

Data Sources

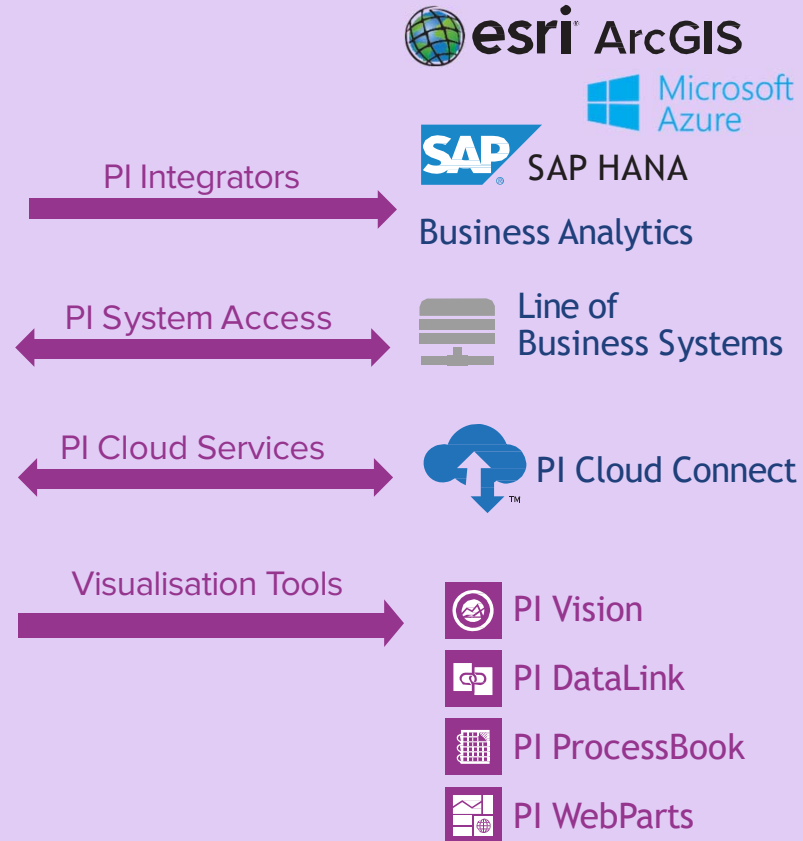

PI Interfaces
&
PI Connectors

Store & Enhance

Deliver

Phosphate Supply Chain

Challenge

Coordination of availability of assets and materials between the mining company, the rail company, and the shipping company.

Solution

Deployed the latest OSIsoft PI technology including PI AF, PI Cloud technologies, and PI Vision as an advanced foundation for Process Monitoring, Condition Based Maintenance & Advanced Analytics

Benefits

Third party expert surveillance of critical equipment. Seamless coordination between the mining, rail, and shipping companies resulting in increased production and operational efficiency
