AVEVA[™] Connect: Vision & Roadmap

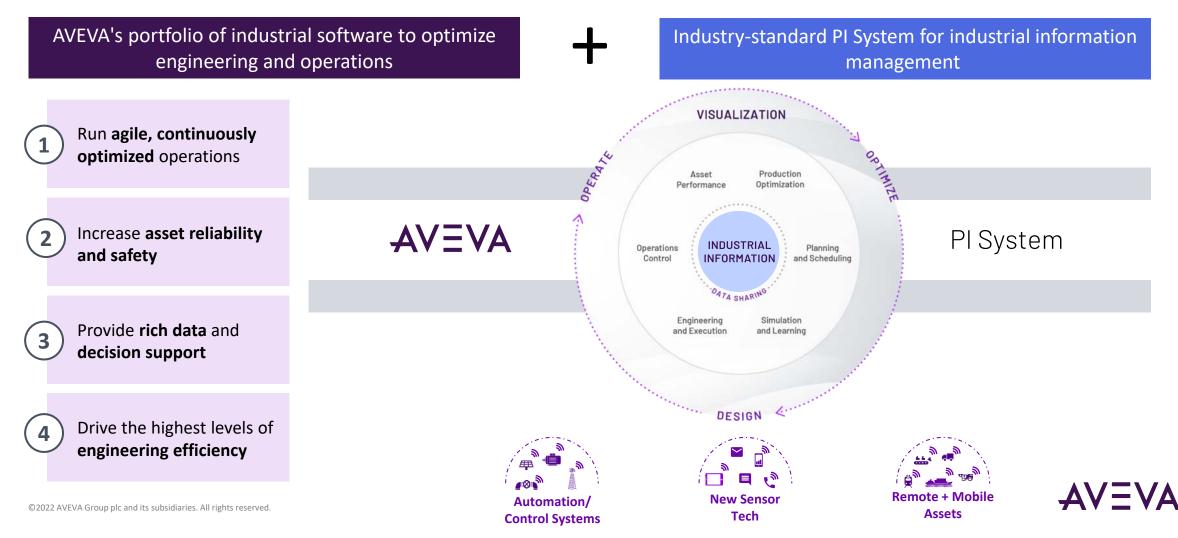

Gregg Le Blanc – SVP, Operations Information Management

© 2022 AVEVA Group plc and its subsidiaries. All rights reserved.

Harnessing the power of information, AI and human insight

Delivering world-class, end-to-end industrial software

Market driven customer priorities

Market trends

Business goals

and emissions

Improve sustainability,

reduce carbon intensity

() ESG

ESG regulations

Supply chain and service disruptions

Capital projects and supply chain agility and resilience

Consumer desire for green alternatives

Commodity price fluctuations

Labor shortages and remote work

New materials, processes, and facilities for circular economy

Operational efficiency, optimized planning and scheduling

Adaptive and autonomous operations, connected and empowered workforce

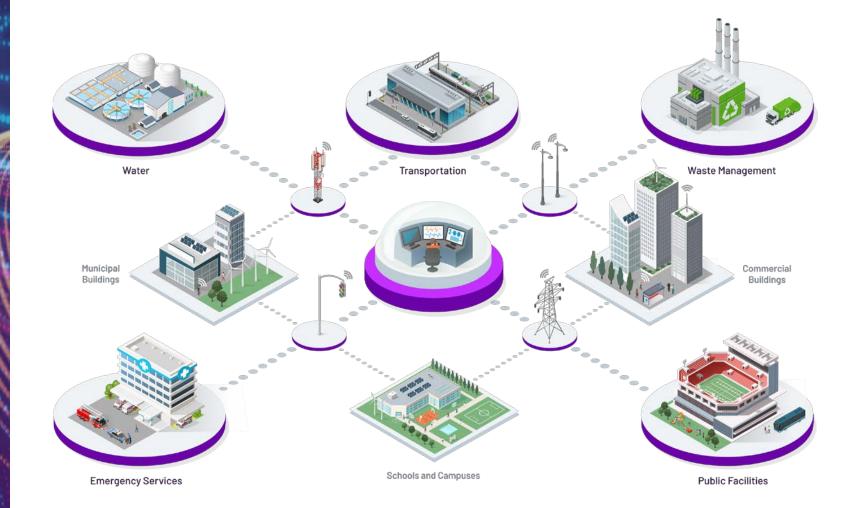

Power has an ecosystem...

Cities have an ecosystem...

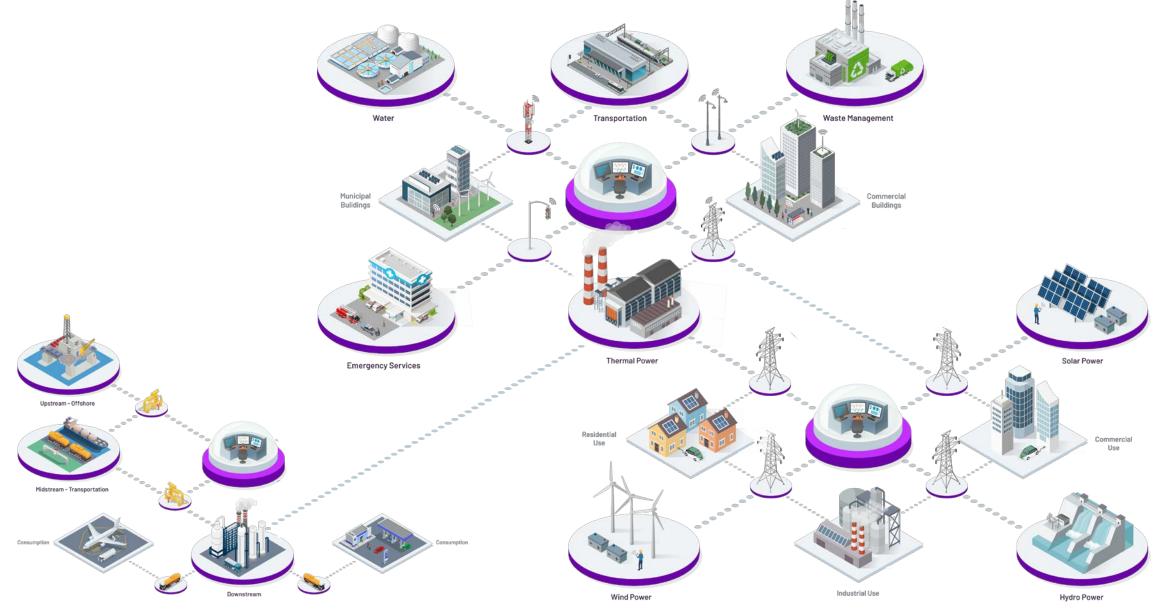

Energy has an ecosystem...

And they're connected

The same is true for our teams

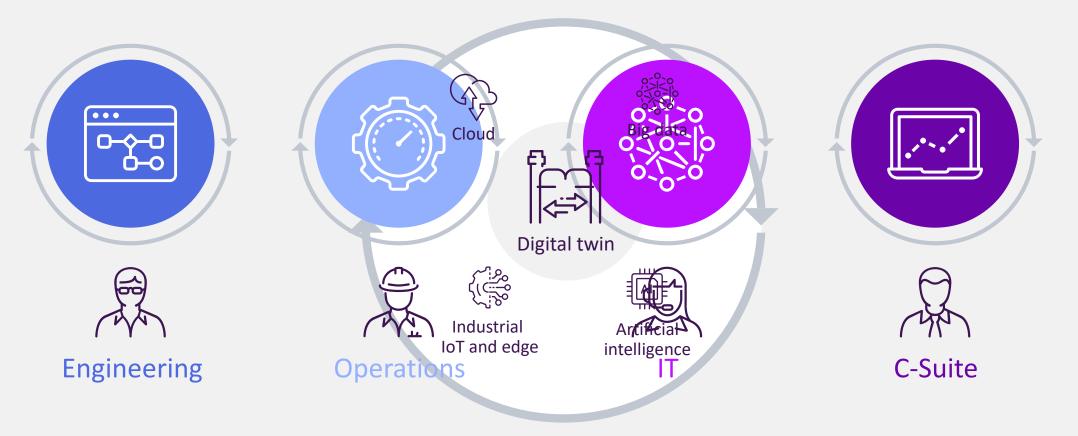

From siloed **functional islands...**

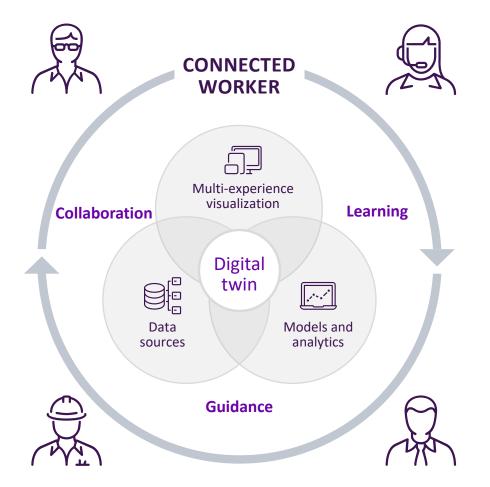

...to collaborative innovation

Enabled by **digital technology**

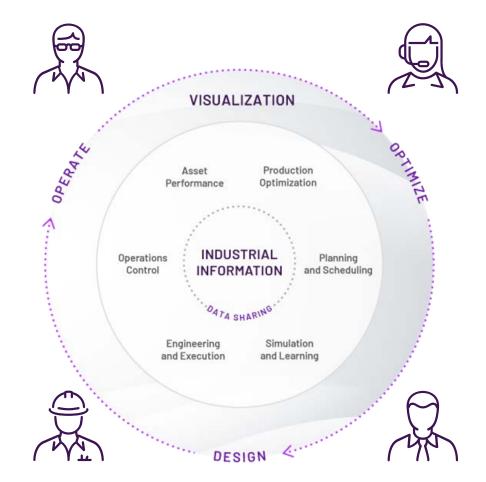

To empower the connected worker

With a comprehensive digital twin across engineering and operations

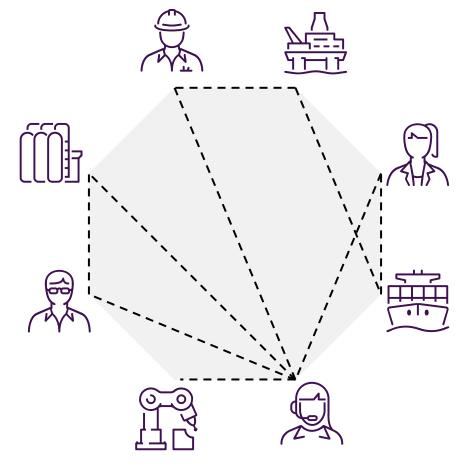

To empower the connected worker

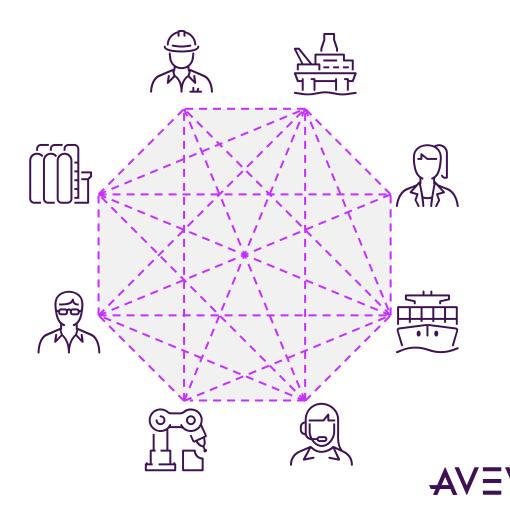

With a comprehensive digital twin across engineering and operations

Connecting people with industrial intelligence

Vision for global, holistic optimization across the entire industrial ecosystem

AVEVA Connect

Accelerate time to value and scale faster with AVEVA Connect industrial cloud platform

What is AVEVA Connect?

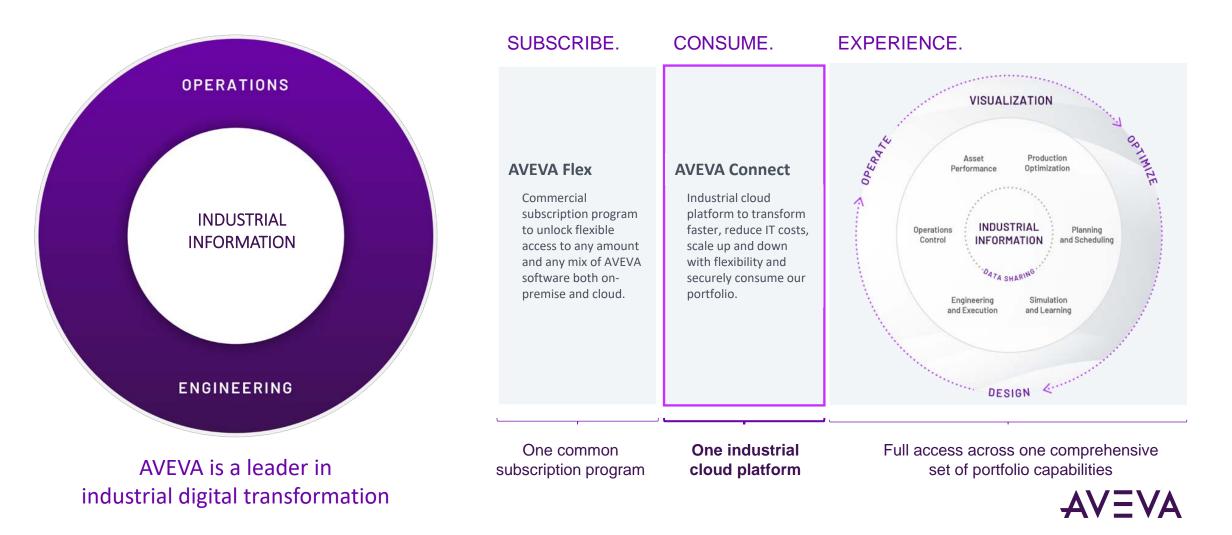

Our industrial cloud platform is your digital transformation hub

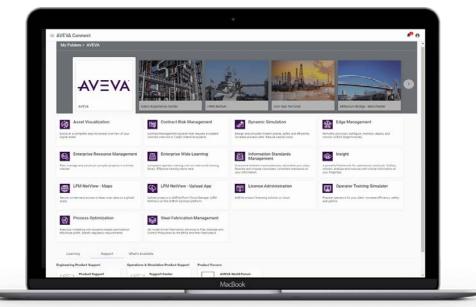

- Transform faster
- Enable new ways of work
- Connect and collaborate
- ✓ One single source of truth
- ✓ Move from CapEx to OpEx
- Lower dependency on IT
- Always the latest and greatest features
- Easily scale up and down
- Built with security, resiliency, highavailability

An Industrial Cloud Platform

AVEVA's comprehensive portfolio, on AVEVA Connect

Why AVEVA Connect ?

Collaborative

Remove organizational silos and enable transparent, realtime collaboration in a shared environment to allow unmatched levels of workforce efficiency.

Fast

Fast deployment and easy access to contextualized information and rich Artificial Intelligence, to make agile decisions and ensure sustainable growth.

Flexible

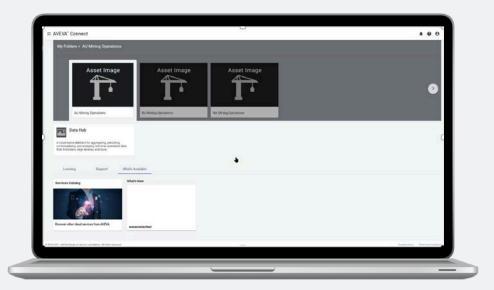

Lower total cost of ownership (TCO) and flexible consumption based on need. Scale up, or down, with the right tools at the right time.

Secure

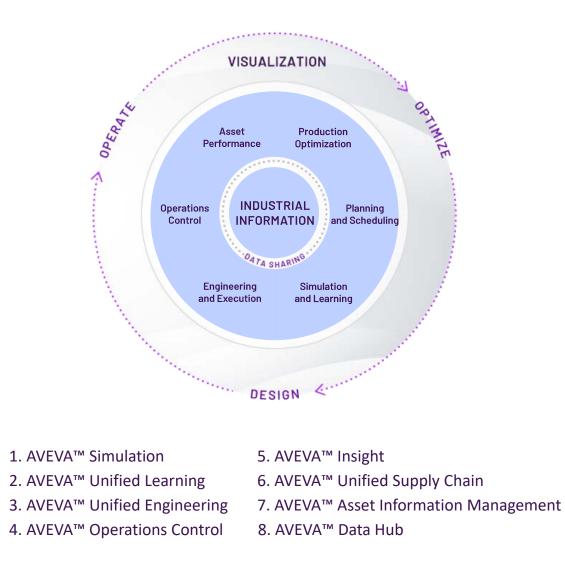

Access the latest digital services built for data security and high availability (>99% uptime), with centralized user management and single signon.

AVEVA software in the cloud drives sustainable growth

Transform faster, reduce costs and easily scale to engineer smarter, operate better

Roadmap: Launch of AVEVA Data Hub, visualization across engineering and operations, OEM & partner integration, extend on-prem integration, hybrid cloud

Increasing AVEVA Connect's capabilities

The platform journey

Delivering a complete digital thread, purpose-built for industry

Accelerate time to value with flexible, scalable, and trusted industrial hybrid SaaS solutions

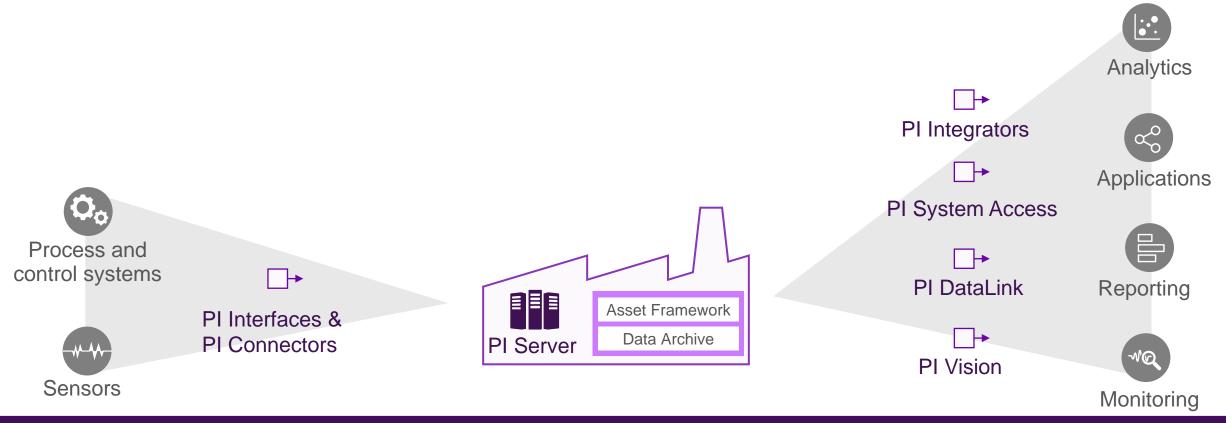

Multi-experience engineering and operations visualization across the enterprise					3 rd party visualization	
Simulation Pr and Garming operator training, enterprise learning	3D design,	Operations Edge , ଦେନୁହେବା sory, enterprise control	Asset Rerformance, asset analytics, maintenance execution	Production Ope Optimization ion, process optimization, production management	Planning Fee and Schedslying ent, supply chain planning and scheduling	3 rd party apps and analytics
Engineering: Engineering data collection, aggregation, storage and contextualization Aggregation aggregation, storage and contextualization Aggregation aggregatio					3 rd party data sources, systems and databases	

Delivering a complete digital thread, purpose-built for industry

Accelerate time to value with trusted industrial hybrid SaaS solutions

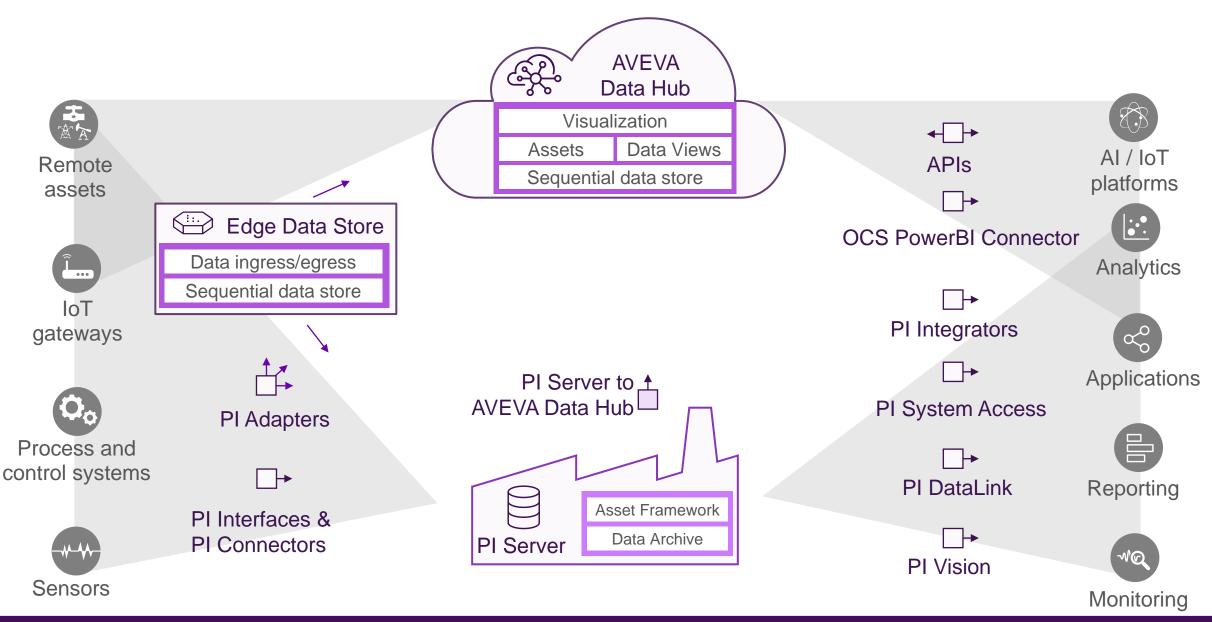

Visualization Multi-experience engineering and operations visualization across the enterprise					3 rd party visualization	
Simulation and Learning Process simulation, operator training, enterprise learning	Engineering and Execution Engineering, 3D design, project execution	Operations Control Edge, supervisory, enterprise control	Asset Performance Asset strategy, asset analytics, maintenance execution	Production Optimization Operations execution, process optimization, production management	Planning and Scheduling Feedstock management, supply chain planning and scheduling	3 rd party apps and analytics

2018: PI Server

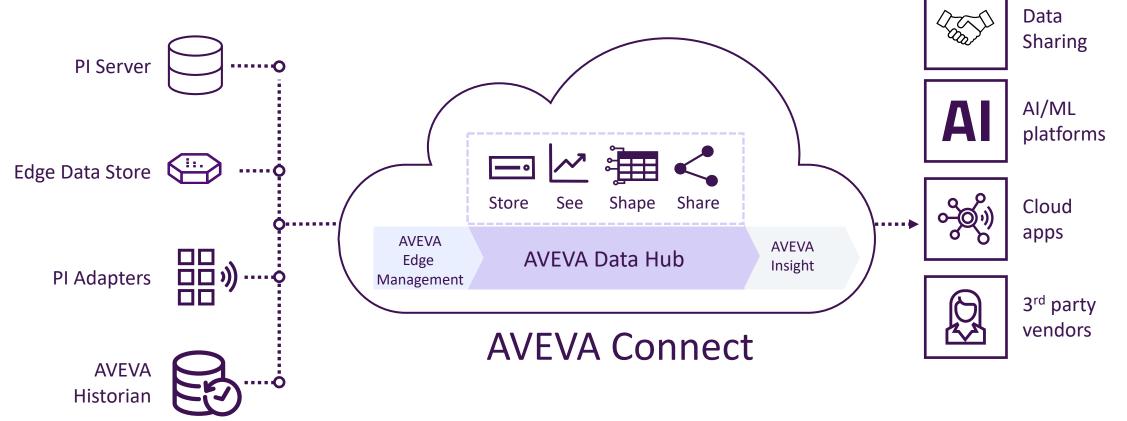

Focused on the asset and plant. Hardening the core for **critical operations**.

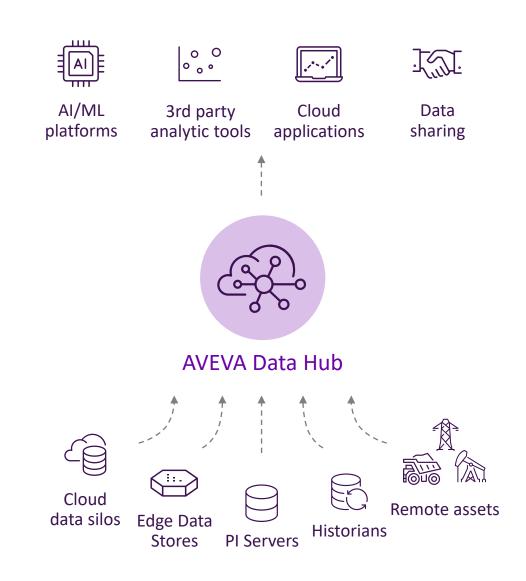

TODAY – Customers can build their seamless infrastructure Leverage ADH Assets, Asset Framework and Communities (preview) to keep data in **context** and **secure** so you can enable **new users** and **new use cases**.

AVEVA Data Hub, now part of AVEVA Connect industrial cloud platform

Your shared version of the truth

AVEVA

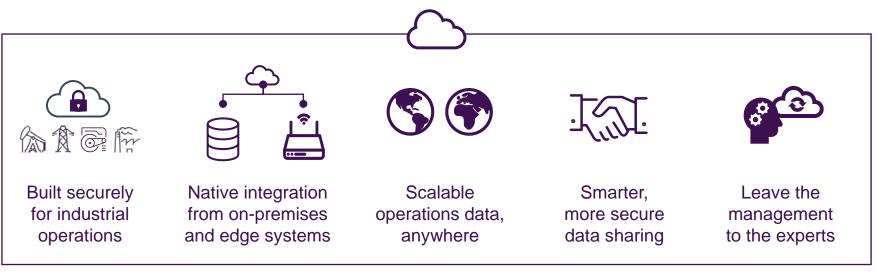

A cloud-native service for aggregating, storing, enriching, accessing, and analyzing real-time operations data from historians, edge devices, and more

- Managed, secure, multitenant platform
- Operated & maintained by AVEVA
- High speed, scalable, elastic, & resilient
- Modern, secure REST APIs
- Built & deployed on Microsoft Azure

AVEVA

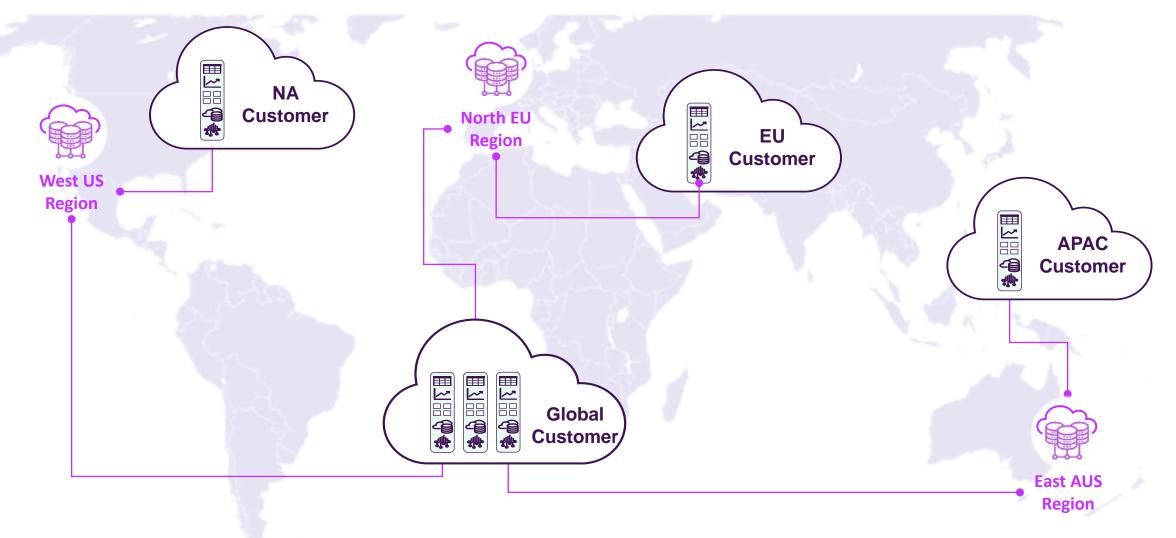

What sets AVEVA Data Hub apart?

AVEVA Data Hub

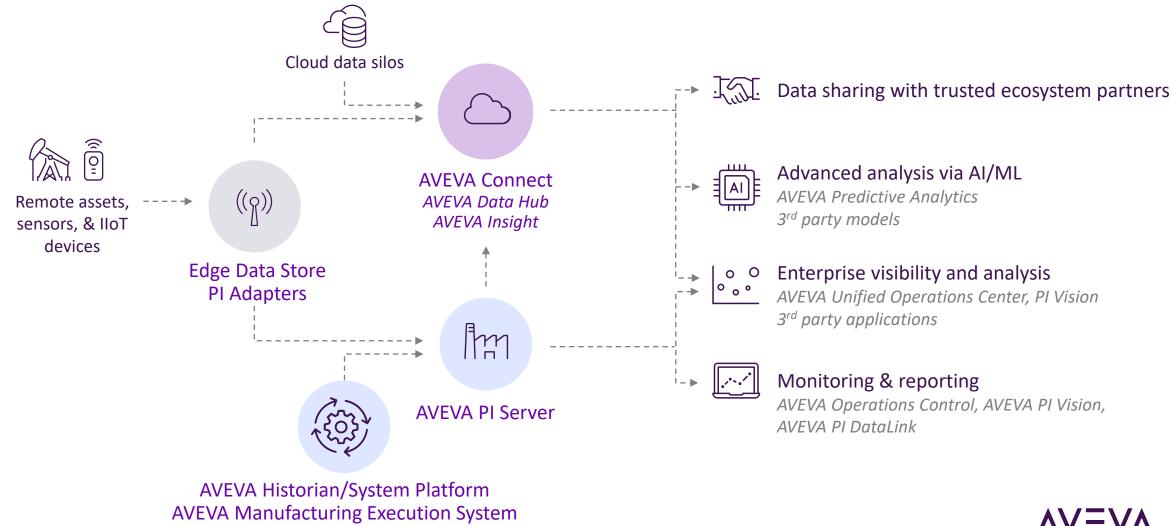

Enabling global accounts, supporting local data residency

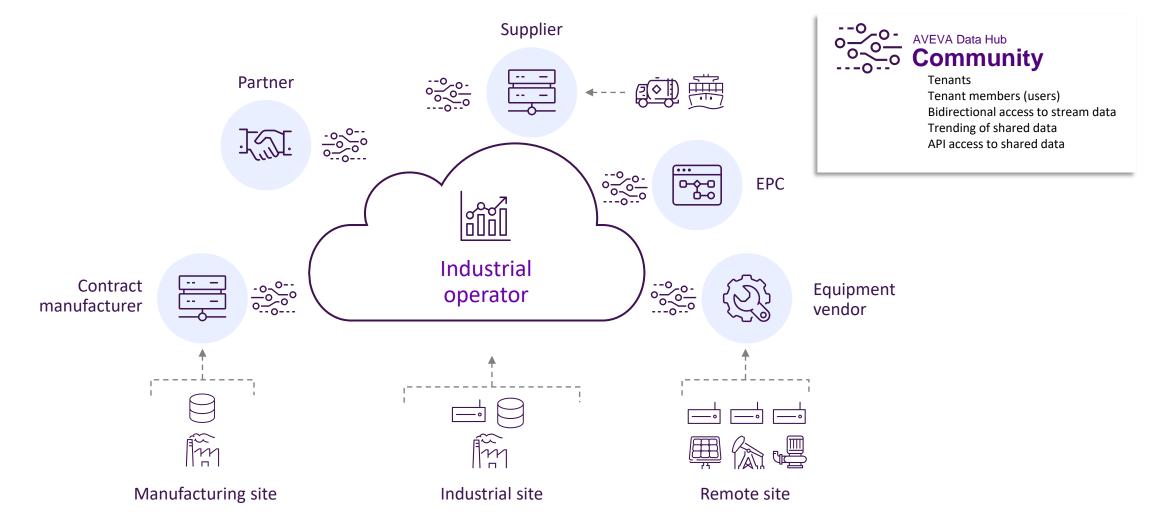

Bridging engineering, operations, and business domains

Data becomes the foundation of a connected community

Renewable Energy Group & Allied Reliability

Centrifuge manufacturer worked collaboratively with monitoring service partner to share real-time performance data securely, enabling proactive maintenance and reducing downtime. Made possible with AVEVA Data Hub.

> Established secure, bi-directional data highway between partners

Service provider easily able to access real-time and historical data for analysis, decreasing diagnostic time and improving accuracy

Supports shift to predictive maintenance, estimated to deliver a reduction in downtime by up to 90%

Mining operation captured near realtime data from fleet of trucks, to create a digital Knowledge Center, improving fleet management, reducing unplanned downtime and boosting productivity.

Significant savings expected per extra production day through smart maintenance.

Reduced risk of expensive asset failures through predictive maintenance. (Trucks can cost up to 5M USD)

Data sharing improved collaboration between mining truck operations, dam management and other departments.

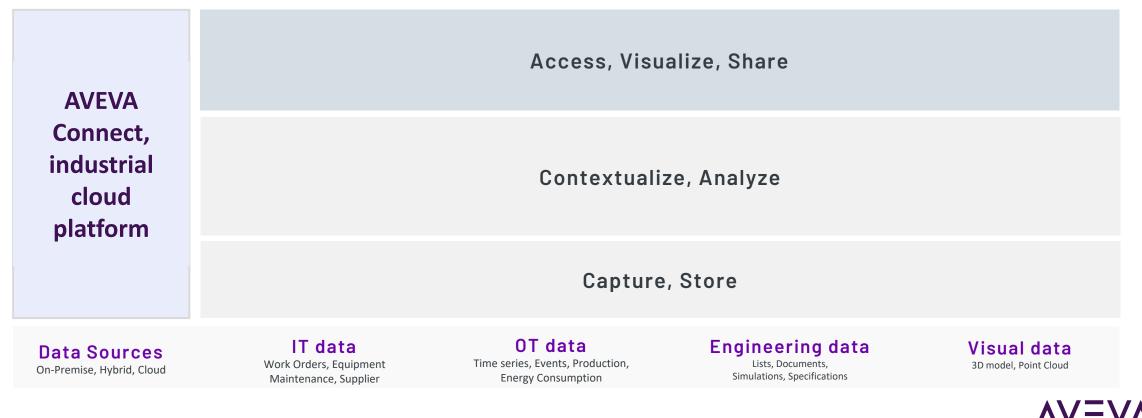

The future of AVEVA Connect

AVEVA Connect: Industrial Intelligence-as-a-Service

EXPANDING AVEVA CONNECT & DATA HUB VALUE

Increased data source aggregation & data science capabilities Leverage and extend your investments in AVEVA's applications

SUPPORTING FROM EDGE TO COMMUNITY

Make it easy to manage everything from edge devices to data sharing Close the loop for data operations between the edge and cloud

BRIDGE ENGINEERING & OPERATIONS DIGITAL TWIN

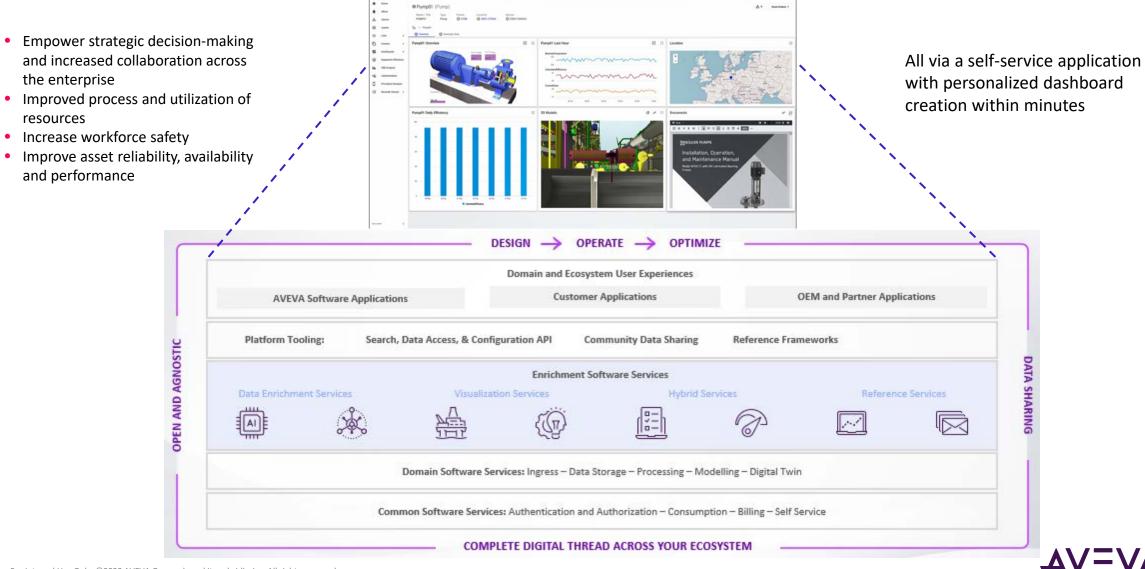

Increase storage, management, and alignment capabilities Represent engineering information in operational contexts

EXPANDING THE ECOSYSTEM

Open and neutral platform for engineering and operations information Supporting new digital business ventures and customer applications

Lighthouse Ready: Optimize the entire industrial ecosystem

ABOUT AVEVA

AVEVA is a global leader in industrial software, driving digital transformation and sustainability. By connecting the power of information and artificial intelligence with human insight, AVEVA enables teams to use their data to unlock new value. We call this Performance Intelligence. AVEVA's comprehensive portfolio enables more than 20,000 industrial enterprises to engineer smarter, operate better and drive sustainable efficiency. AVEVA supports customers through a trusted ecosystem that includes 5,500 partners and 5,700 certified developers around the world. The company is headquartered in Cambridge, UK, with over 6,500 employees and 90 offices in over 40 countries.
