

Improve efficiency by utilizing AI/ML in AVEVA™ E3D Design

Brett Parker

AVEVA

Goal

Why are you here?

- Machine Learning awareness
- Education
- Machine Learning in AVEVA E3D Design
- Exciting new features
- Inspiration
- Spread the word

Agenda

Introduction

Machine Learning concepts and terminology

What AVEVA E3D Design is doing

Take a look at what we have done

Future of AVEVA E3D Design

Take a look at what is coming

Q&A

Artificial Intelligence

AVEVA and AI

Artificial Intelligence

Artificial Intelligence is disrupting industrial markets and forcing enterprises to re-evaluate how traditional work is performed such as:

- Workforce training
- Engineering and design
- Maintenance and repair
- Operations forecasting and scheduling

AVEVA's industry leading cloud-based AI technologies mitigate business and operational risk, improve workforce safety and efficiency, and forge a more reliable and sustainable enterprise.

INTRODUCTION

Machine Learning

What is it? When do we want to use it?

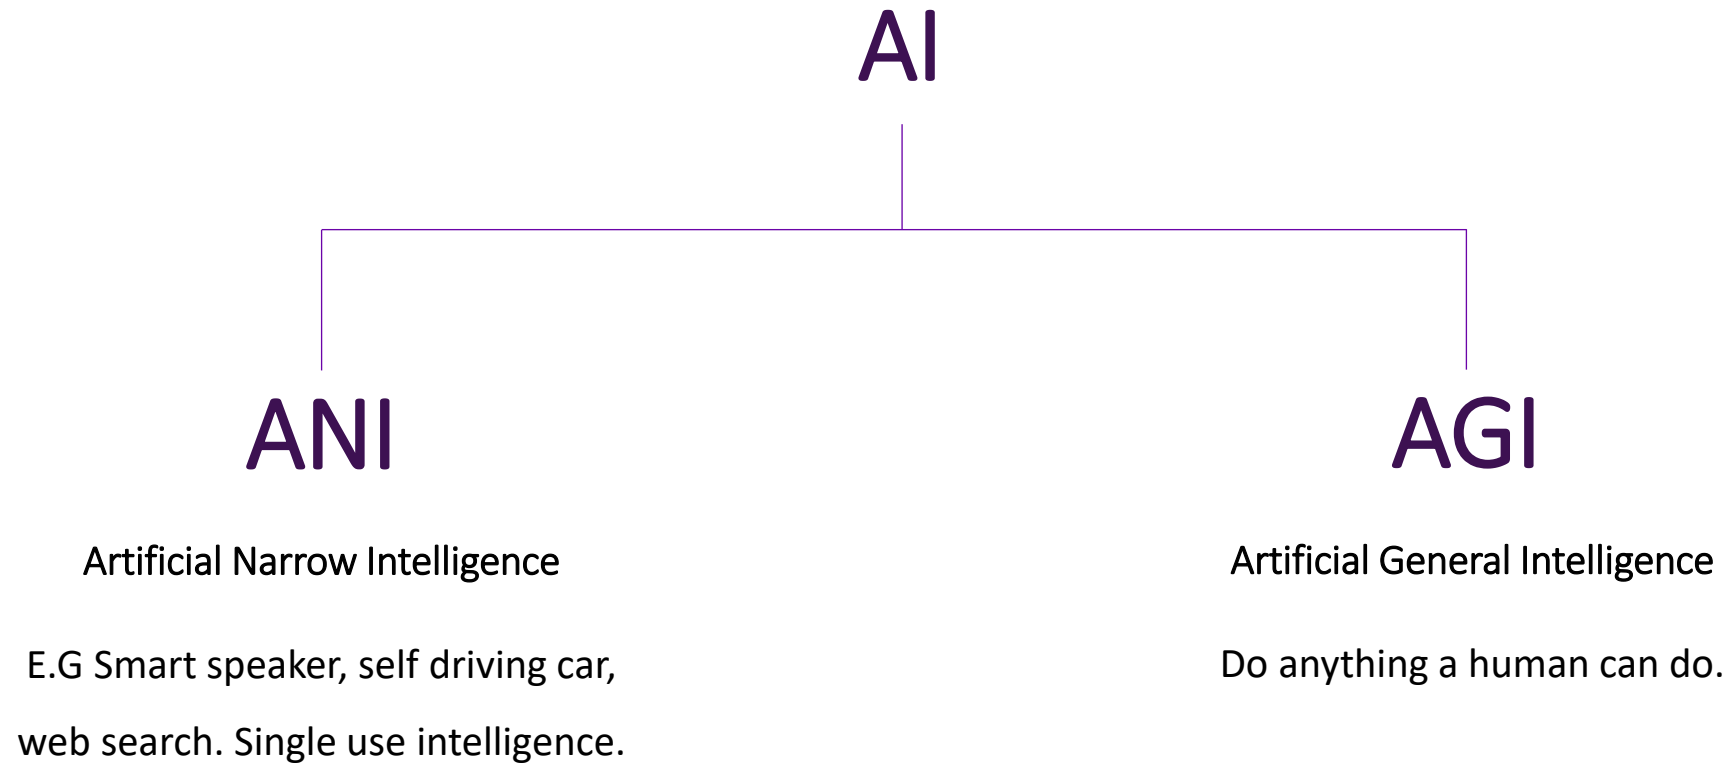

Machine Learning

Programming the unprogrammable

Demystifying AI

AI, ML and DL

Artificial intelligence, Machine Learning and Deep Learning

Machine Learning

Data

Training

Model

What is a model?

$$\underbrace{y}_{\text{Label}} = f(\underbrace{x_1, x_2 \dots x_n}_{\text{Features}})$$

TYPES

Machine Learning

Supervised Learning

Use of **Labels**, e.g. Regression, Binary Classification, Multi-class Classification

Unsupervised Learning

No Labels, e.g. Clustering, PCA, Anomaly Detection

Reinforcement Learning

Rewards and Penalties. Finding a balance between exploration and exploitation.

“Data Science produces Insights
Machine Learning produces Predictions
Artificial Intelligence produces Actions”

David Robinson, Chief Data Scientist at DataCamp

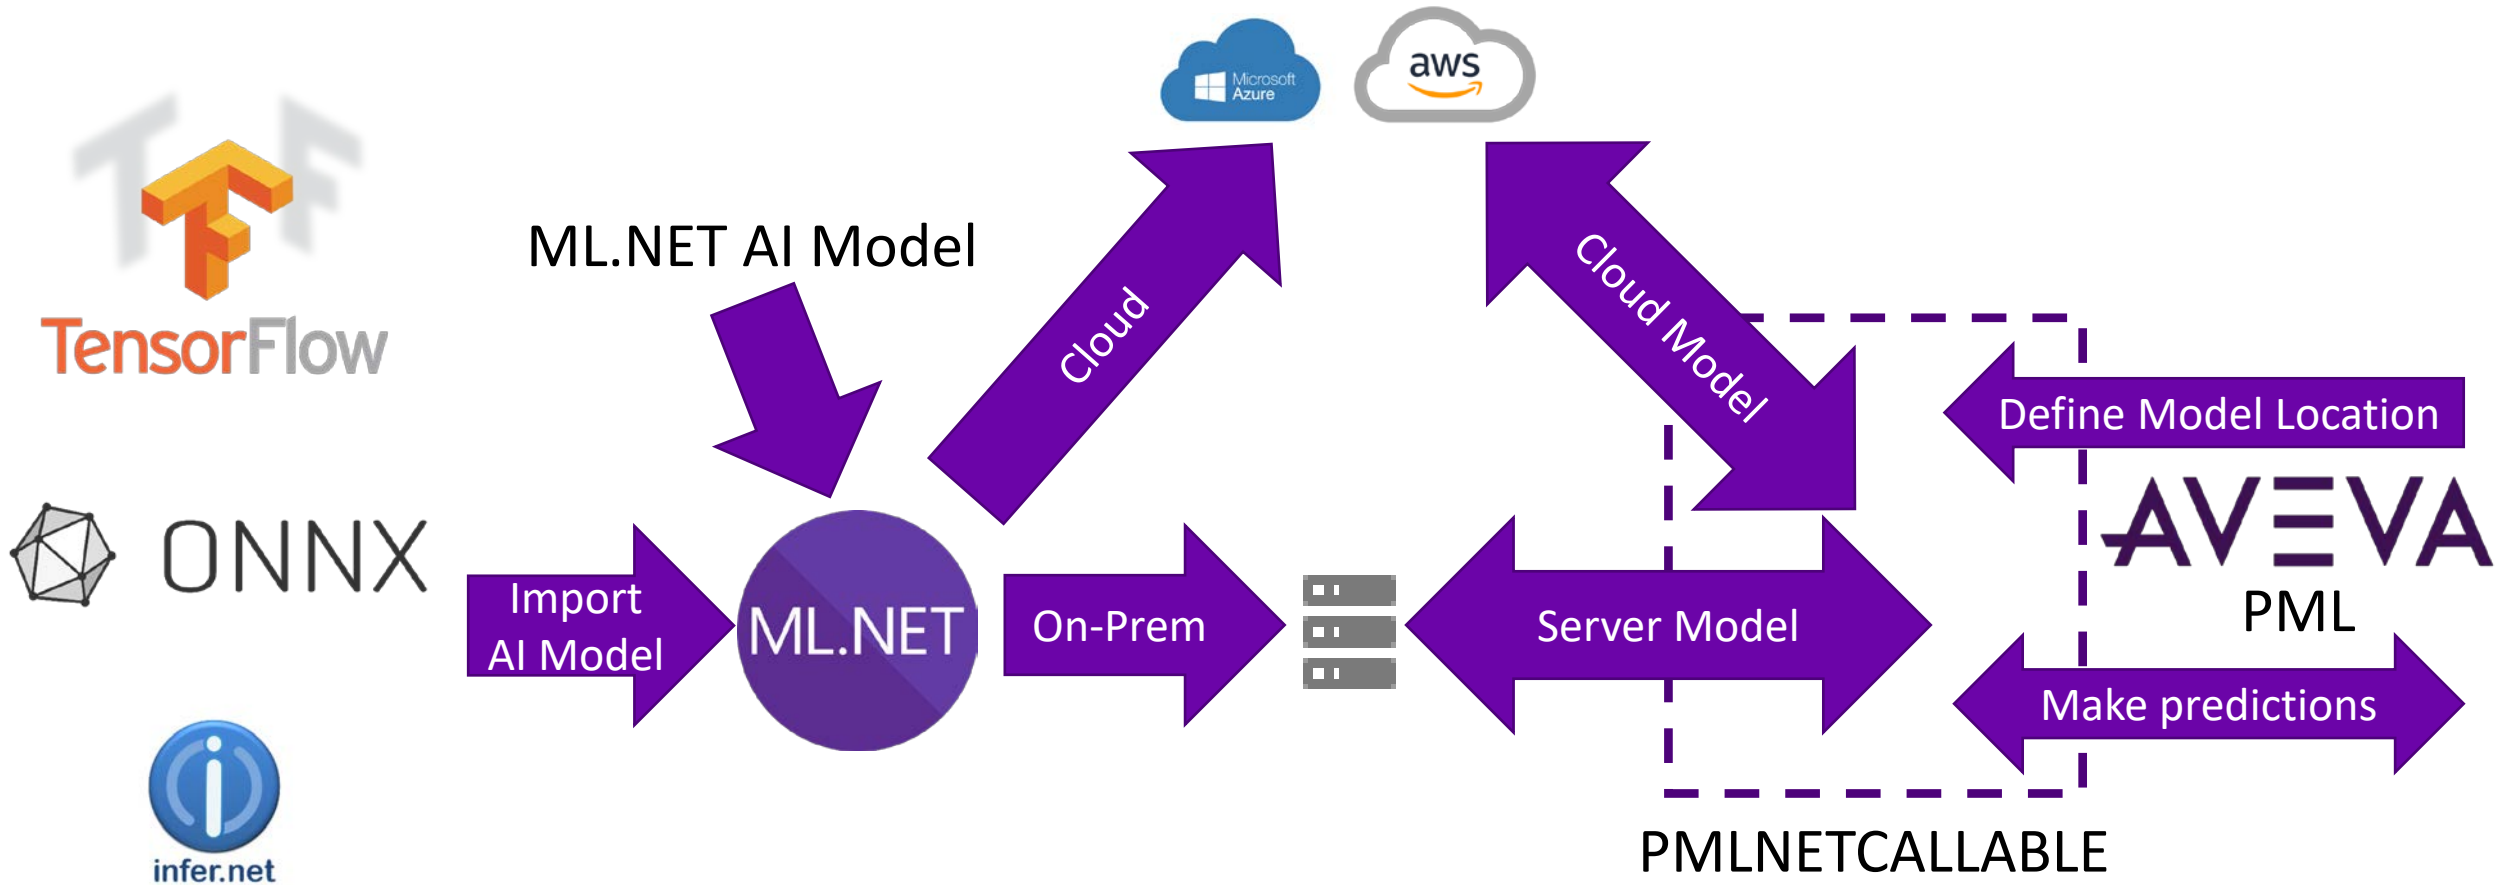

Bringing AI/ML to AVEVA E3D Design

What is AVEVA E3D Design?

AVEVA PMLNETCALLABLE – Microsoft ML.NET

Microsoft ML.NET Creation

What you can do today

ARTIFICIAL INTELLIGENCE

Machine Learning in AVEVA E3D Design

The future

AVEVA E3D Design – Artificial Intelligence Methodology

Workflow enhancement

What we have

How does it work today?

Users

What do our users have to do?

Benefit

How can we make the workflow more streamline?

First Principles AI

Problem to solve

What are we trying to solve?

Challenge

How do we know this is true?

Benefit

How can we deliver an innovative auto generative design solution?

Potential Feature

AVEVA E3D Design - Structural size prediction

Workflow enhancement

What we have

Defaults tab requires manual structural size selection

Users

Multiple button clicks

Benefit

Workflow and repetitive tasks reduced

First Principles AI

Problem to solve

Consistency, accuracy, cost effective, sustainable steelwork

Benefit

Automatically create full structural frames and racks

Potential Feature

AVEVA E3D Design – Pipe Support prediction

Workflow enhancement

What we have

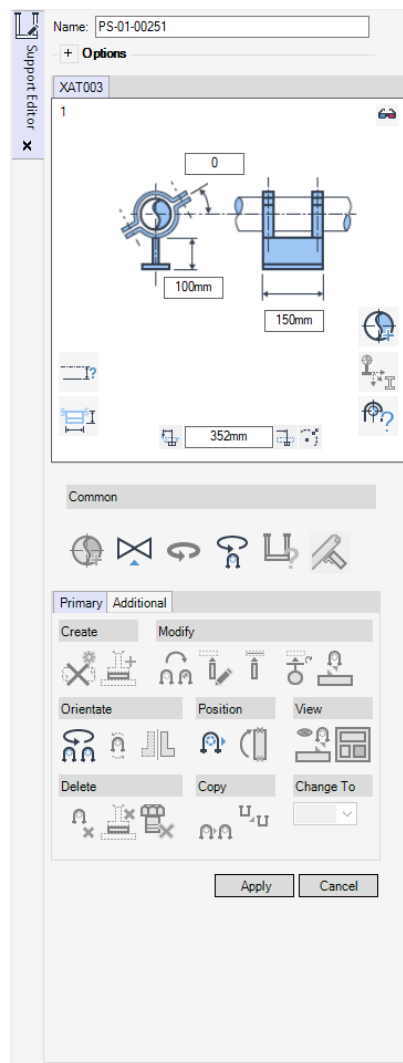

Support form with several buttons

Users

Multiple button clicks

Benefit

Workflow and repetitive tasks reduced

First Principles AI

Problem to solve

Consistency, accuracy, cost effective, sustainable supports

Benefit

Automatically create pipe support elements without any user input

Potential Feature

AVEVA E3D Design – Solar panel prediction

Workflow enhancement

What we have

Manual creation

Users

Multiple workflows, multiple button clicks

Benefit

Workflow and repetitive tasks reduced

First Principles AI

Problem to solve

Consistency, accuracy & sustainability during detail design

Benefit

Automatically predict and determine the correct number of solar panels required for the problem

Artificial Intelligence

Artificial Intelligence is disrupting industrial markets and forcing enterprises to re-evaluate how traditional work is performed such as:

- Workforce training
- Engineering and design
- Maintenance and repair
- Operations forecasting and scheduling

AVEVA's industry leading cloud-based AI technologies mitigate business and operational risk, improve workforce safety and efficiency, and forge a more reliable and sustainable enterprise.

THE FUTURE

Artificial Intelligence

Embrace AI and all that it brings

AVEVA

“Robots are not going to replace humans, they are going to make their jobs much more humane. Difficult, demeaning, demanding, dangerous, dull – these are the jobs robots will be taking.”

Sabine Hauert, Co-founder of Robohub.org

Brett Parker

R&D Manager, Plant3D

ABOUT AVEVA

AVEVA is a global leader in industrial software, driving digital transformation and sustainability. By connecting the power of information and artificial intelligence with human insight, AVEVA enables teams to use their data to unlock new value. We call this Performance Intelligence. AVEVA's comprehensive portfolio enables more than 20,000 industrial enterprises to engineer smarter, operate better and drive sustainable efficiency. AVEVA supports customers through a trusted ecosystem that includes 5,500 partners and 5,700 certified developers around the world. The company is headquartered in Cambridge, UK, with over 6,500 employees and 90 offices in over 40 countries.
