Unifying Operations

Unique 360° view of asset and operations life cycle

Create Context Driven Actionable Information

Intelligently detect inefficiencies and potential problems, automatically triggering remedial action to constantly optimize operations performance.

Automate Process Workflows

Feel confident every day that risks are minimized, costs (including energy efficiency) are mitigated, and workforce efficiency is at its optimum.

Increase Visibility to KPI Performance

Remove complexity by controlling all operations with a single-pane-ofglass, a system of systems, with connectors integrating all IT and OT systems.

AVEVA Data Hub

Including AVEVA Historian in the shared version of the truth

Includes

AVEVA System

Platform

AVEVA InTouch

- Send every stored value
- Tag meta data (units, description, etc.)
- Asset Framework model from "Model View"
- Based on OMF/Adapter Framework
- Familiar Historian workflow

File Action View Help

OCS customers will have a migration path to AVEVA Data Hub

AVEVA will contact OCS customers to discuss migration (commercial & technical)

Migration is designed to minimize downtime and customer involvement

All use of generally available features will be migrated

Migration will be available beginning in June

ABOUT AVEVA

AVEVA is a global leader in industrial software, driving digital transformation and sustainability. By connecting the power of information and artificial intelligence with human insight, AVEVA enables teams to use their data to unlock new value. We call this Performance Intelligence. AVEVA's comprehensive portfolio enables more than 20,000 industrial enterprises to engineer smarter, operate better and drive sustainable efficiency. AVEVA supports customers through a trusted ecosystem that includes 5,500 partners and 5,700 certified developers around the world. The company is headquartered in Cambridge, UK, with over 6,500 employees and 90 offices in over 40 countries.
