A photograph of three men in business casual attire smiling and standing at a trade show booth. The man on the left is wearing a light blue button-down shirt. The man in the center is wearing a dark blazer over a blue shirt and has his arms crossed. The man on the right is wearing a blue shirt and a dark vest, also with his arms crossed. In the background, there is a whiteboard titled "PI System Calculation Engine" with a bulleted list: "• Replace PIACE with established product", "• Run custom code using PI data", "• Visual Studio not required", and "• View calculation metrics". Another sign in the background says "Management".

# JOIN US FOR OUR EXPO DINNER EVENT TONIGHT!

5:00 – 7:30 PM

# VISIT OUR EXPO BOOTHS

LAST CHANCE TO BRING YOUR PASSPORT, GET STAMPS  
AND ENTER TO WIN A FREE TRIP TO AVEVA WORLD 2023

## EXPO HOURS

WEDNESDAY: 10:15 AM - 5:00 PM

THURSDAY: 10:30 AM - 3:30 PM

# Sustainability impact study

## Join us on this journey

AVEVA and Capgemini are partnering with customers to validate the digital solutions sustainability impact on plant operations.

If your company is interested in a free evaluation of sustainability KPI improvements, go to the expo and **ask about the sustainability study**.

### Expo Booth

- Energy transition & circular economy
- Capgemini (Partner Expo)

### Use cases

- Accelerate low carbon transition with process simulation
- Process and utility optimization
- Increase reliability and efficiency with predictive analytics
- Reduce waste and energy consumption with information and production management

### Metrics

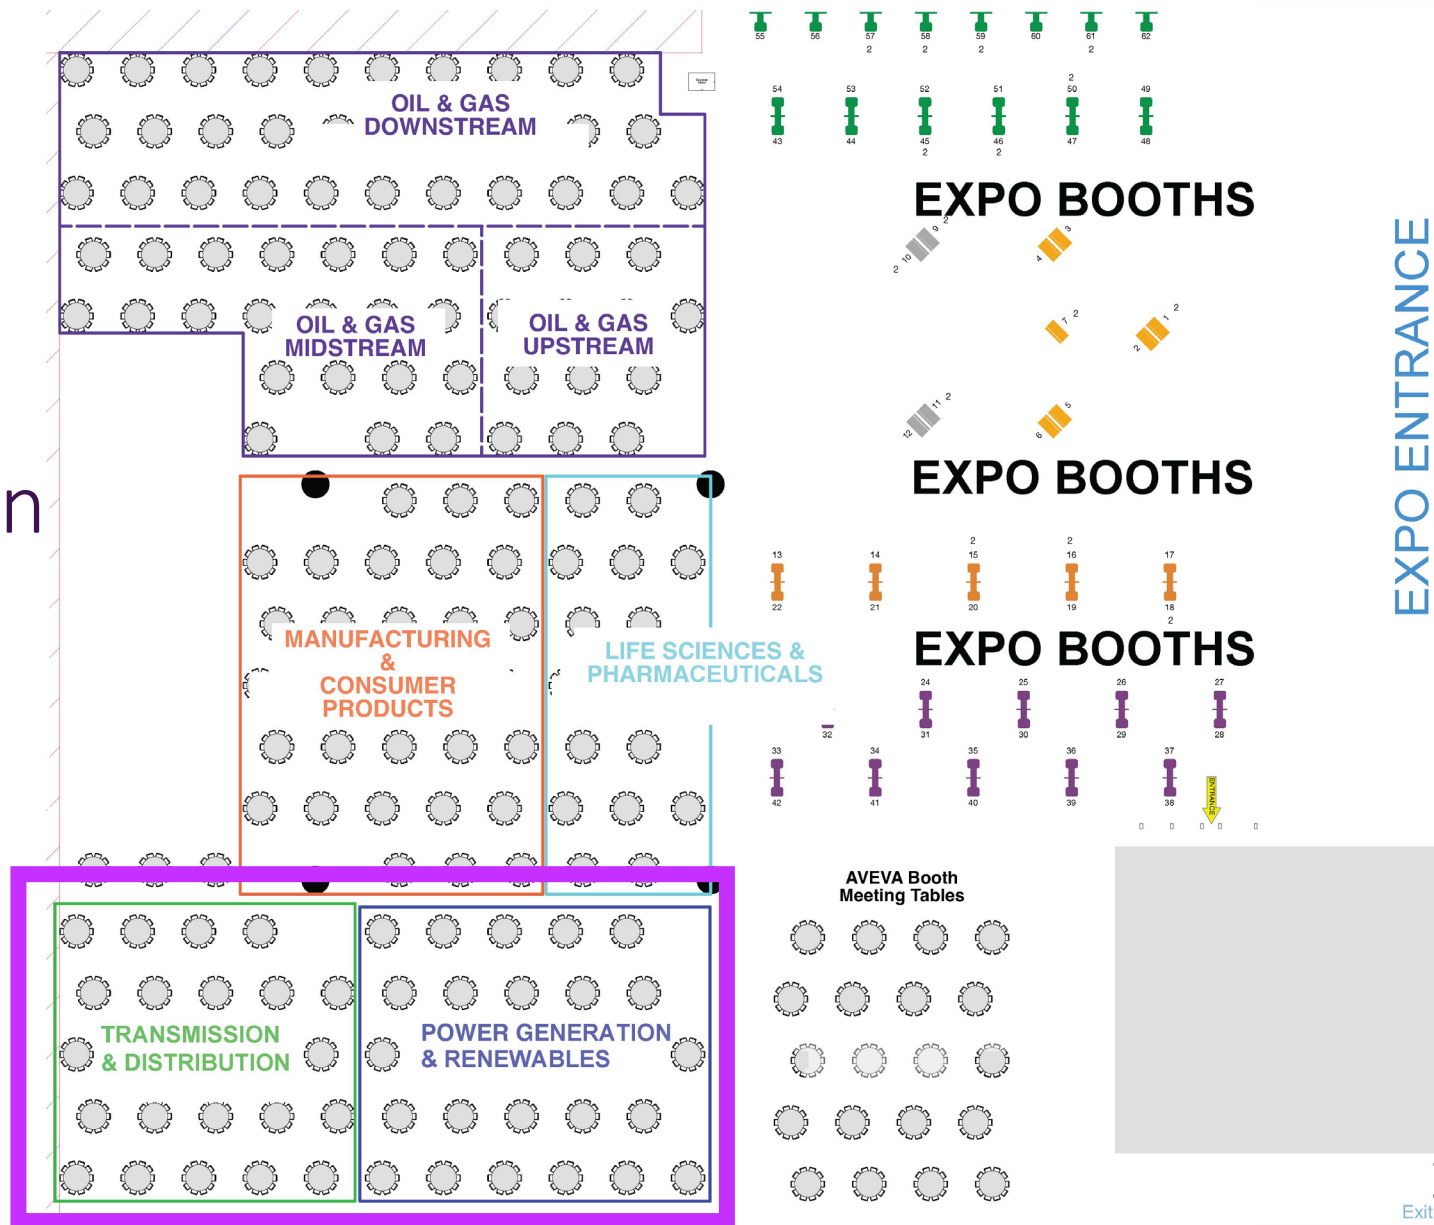

- GHG emissions
- Materials waste
- Energy consumption
- Water consumption

# Questions?

Please wait for the microphone.  
State your name and company.

# Please remember to...

Navigate to this session in the mobile app to complete the survey.

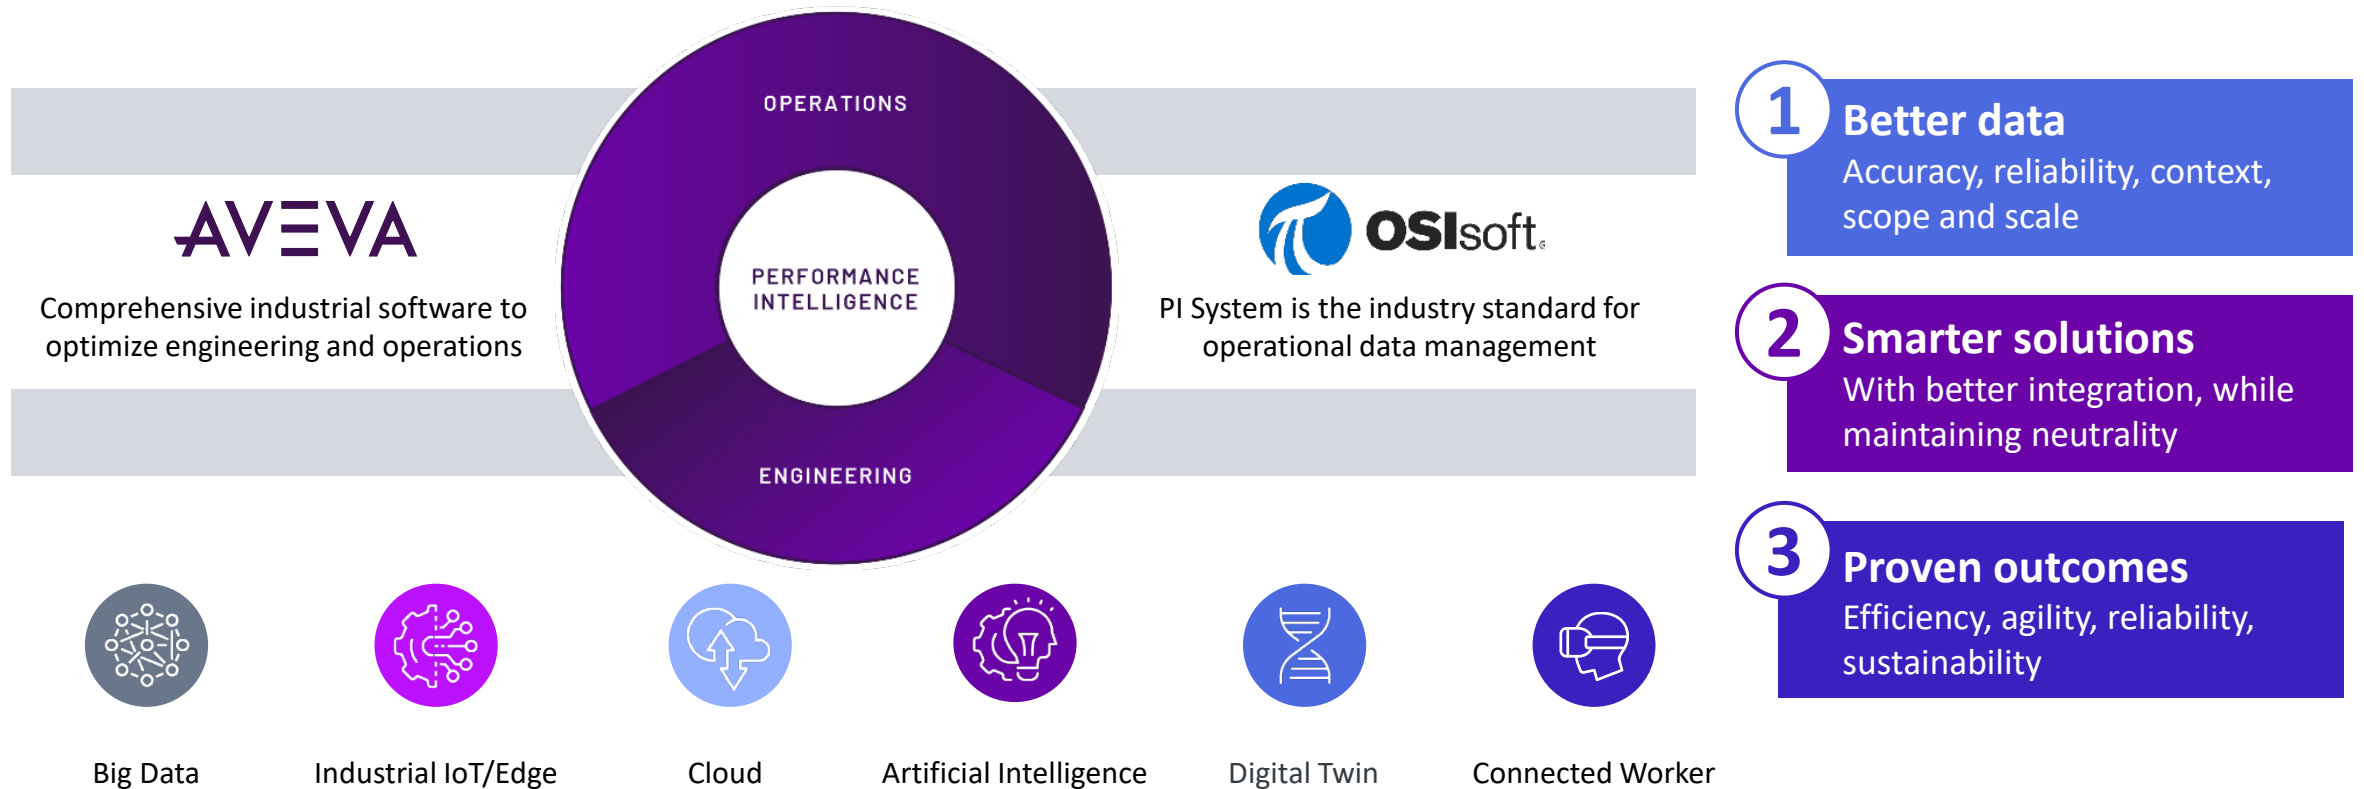

# Thank you!

*“EVERYTHING START WITH DATA.”*

# Bringing together two trusted, world-class software experts

Delivering end-to-end customer value with best-of-breed industrial software

# An Industry in Transition

## Structural Transformation

### Prosumer

- New consumer technologies are changing the physics of the electric distribution grid (Solar, wind, electric vehicles, energy storage)

### Regulatory Compliance

- State renewable Mandates,
- FERC Order 2222,
- US Infrastructure Bill,
- DNO to DSO in Europe/Global

### Global/Societal Trends

- Decarbonization & Electrification,
- Net-Zero Targets for 2050

## Digital Transformation

### Streaming “big data”

- 1M Meters with 7 tags, read at 15-minute intervals = 1B measurement reads/day
- Joined with disparate OT and IT data sources

### Data Management

- Alignment, normalization, asset relationships, etc..

### Data Governance

- Versioning, role-based security, traceability, etc.

### Real-time Actionable Information

- Enterprise-wide *single source of truth* containing the *best available data* with *configurable business analytics* to support *in-game* operational decisions

# TODAY'S AGENDA

SPARKYOURINGENUITY

Session	Time
Fire Safety Outage Management at Chelan County using Risk Mitigation and Forecast Alerts	10:55 – 11:20
Archiving Energy Utility Transmission Synchrophasor Data in the PI System with custom AF at PG&E	11:30 – 11:55
Past, Present and Future of Power Grid – CAISO Moving to Community Data Sharing	12:05 – 12:30
DGA - Duval's Triangle as Custom Symbol in PI Vision at Tenaga Nasional Berhad	14:00 – 14:25
CFB Simulation Success Story at NRG Energy	14:35 – 15:00
AI-enabled Online Monitoring and Diagnostics of Enel's Geothermal Power Plants	15:10 – 15:35
Innergex leverages AVEVA Operations Control to expand operations and growth in green energy	16:00 – 16:25
Idaho Power Uses PI System Products to Optimize Water Utilization Along the Snake River	16:35 – 17:00
