Announcing more great capabilities

- **SEAMLESS COLLABORATION:**
  - AVEVA Unified Engineering

- **DATA WITHOUT BOUNDARIES:**
  - AVEVA PI Data Infrastructure

- **EXPANSIVE HMI / SCADA:**
  - AVEVA Operations Control R2

- **ANALYZE EVENT DATA IN THE CLOUD:**
  - AVEVA Data Hub

And more from our partners
Unmatched collaboration with AVEVA Unified Engineering

**NEW**
- Centralized architecture
- Ease of community data sharing
- Work anywhere, see changes in real-time
- Persistent customization and 3rd party integrations

**IMPACT**
- Reduce time to set up and modify projects by 70%
- Lower administration overheads
Unified experience with AVEVA Operations Control 2023 R2

**NEW**
- OMI with a full web experience
- SVG import of industrial graphics for engineering efficiency
- Adding OPC UA methods for flexibility and operations efficiency

**LEARN MORE**
- Operations control geek track
- Expo
  - Operations control edge and supervisory
  - Enterprise visibility
Flexibility you need with AVEVA PI Data Infrastructure

NEW

• Hybrid offer from edge and plant to cloud and community
• Modern authentication via SSO reduces IT burden
• Deploy PI Server hybrid or core branches to support your data needs

Seamless visualization across 1D, 2D, 3D engineering and operations data
Adding more data, more visualization, more capabilities to enable new use cases

**Standalone applications**
- Production event data
- Engineering, 1D, 2D, 3D
- Time-series data

**Integrated NEUTRAL industrial platform**
- Applications, models, application-enablement services
- Combined IT/OT/ET visualization, self-service
- Pre-defined and immersive
- Linked data, customer, partner etc.
- Engineering, 1D, 2D, 3D
- Production event data
- Remote monitoring
- Utilization analysis
- Holistic digital twin
- Project transparency
- Data science
- Advanced OEE
- Operator training
- Benchmarking

**Developer tools: New developer package**
- Industrial generative AI
- Applications, models, application-enablement services
