

OCTOBER 24, 2023

---

# Welcome, Track Introduction & AVEVA O&G Vision

Oil, Gas & Energy Industry Track

Craig Harclerode, Stan Devries  
Oil and Gas Industry Principals, AVEVA

**AVEVA**

# Welcome!

# Thank you for attending!

150+ Oil and Gas Companies

600+ Oil and Gas Attendees

50+ Countries Represented

# THANK YOU TO OUR SPONSORS

PLATINUM SPONSOR

STRATEGIC SPONSOR

GOLD SPONSORS

# Your Hosts: The O&G Industry Principal Team

**Michele Cacciari**  
Global Oil and Gas  
Segment Lead

**Cindy Crow**  
Industry Principal  
Upstream

**Craig Harclerode**  
Industry Principal  
Midstream/LNG

**Stan Devries**  
Industry Principal  
Downstream

## The Role of the O&G Industry Principals

- **Providing “art of the possible”** value and use case visioning to enlighten and enable
- **Positioning the AVEVA O&G digital framework** to help provide context for discussions and use cases
- **Assisting in the realization of synergy value** across the AVEVA portfolio
- **Providing ‘industry voice’** to AVEVA product roadmaps to address key gaps in capabilities
- **Engage in strategic business and digital transformation discussions**

### Not in Attendance

**Russell Herbert**  
Industry Principal  
Upstream

**Joachim Boese**  
Industry Principal  
Downstream

**Abdullah Almontasheri**  
Industry Principal  
Downstream

**Stuart Parker**  
Industry Principal  
Midstream/LNG

**Cormac Ryan**  
Industry Principal  
EPC

**Roy Calder**  
Industry Principal  
New Energies

---

# Housekeeping

- Presentations are being recorded – these will be made available on-demand on the AVEVA World website
- Please be back in your seats >5 minutes before the start times
- Use the opportunity to network and visit the exhibit areas
- Consider presenting at future AVEVA World conferences
- If you need help, please reach out to members of the AVEVA staff – we are here to make your conference experience better!

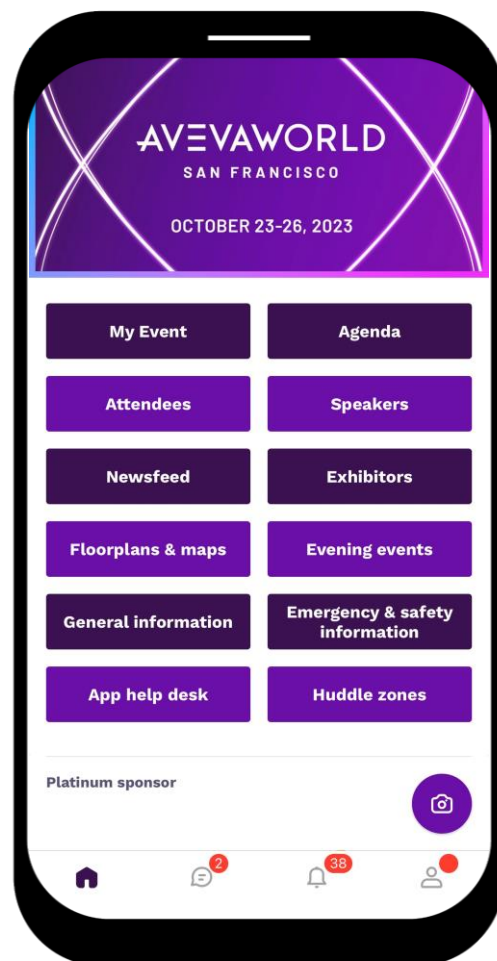

# Event Mobile App

Leverage the event app to get the most out of AVEVA World

swapcard

1. Download mobile app (swapcard)
2. Log in with the same email/PW used to register for AWC2023

- Easily browse and navigate sessions
- Build a **personalized agenda**
- **Connect and network** with peers and presenters
- **Set up meetings** in dedicated meeting areas
- **Fill out surveys for each presentation** to help us drive continuous improvement
- Quickly access maps, logistics, FAQs and reach out for emergencies – our team is ready to help

---

# Oil, Gas & Energy Track At-A-Glance

Craig Harclerode

**AVEVA**

# Oil, Gas and Energy Track Overview

Use the event app to explore session information and build your personalized agenda

## Tuesday

**AVEVA**

**YINSON**  
Production

**Ovintiv**

**TotalEnergies**

**BR PETROBRAS**

## Wednesday

**ENBRIDGE**

**Schneider Electric**

**Petrabytes**  
ENERGY DATA INSIGHTS

**PERTAMINA**

**Cameron LNG**

**SoCalGas**  
ProcessInnovations  
ProcessPlugins

أرامكو السعودية  
saudi aramco

**PRefChem**

**PETRONAS**

## Thursday

**bpX energy**

**PETRONAS**

**radix**  
Engineering and Software

---

# Introduction and Context for the O&G Sessions

Stan Devries

**AVEVA**

# The Trilemma...

The Energy Industry is still facing a very complex market, and geopolitical situation with the need to balance all the dimensions of the trilemma...

## Security

## Affordability

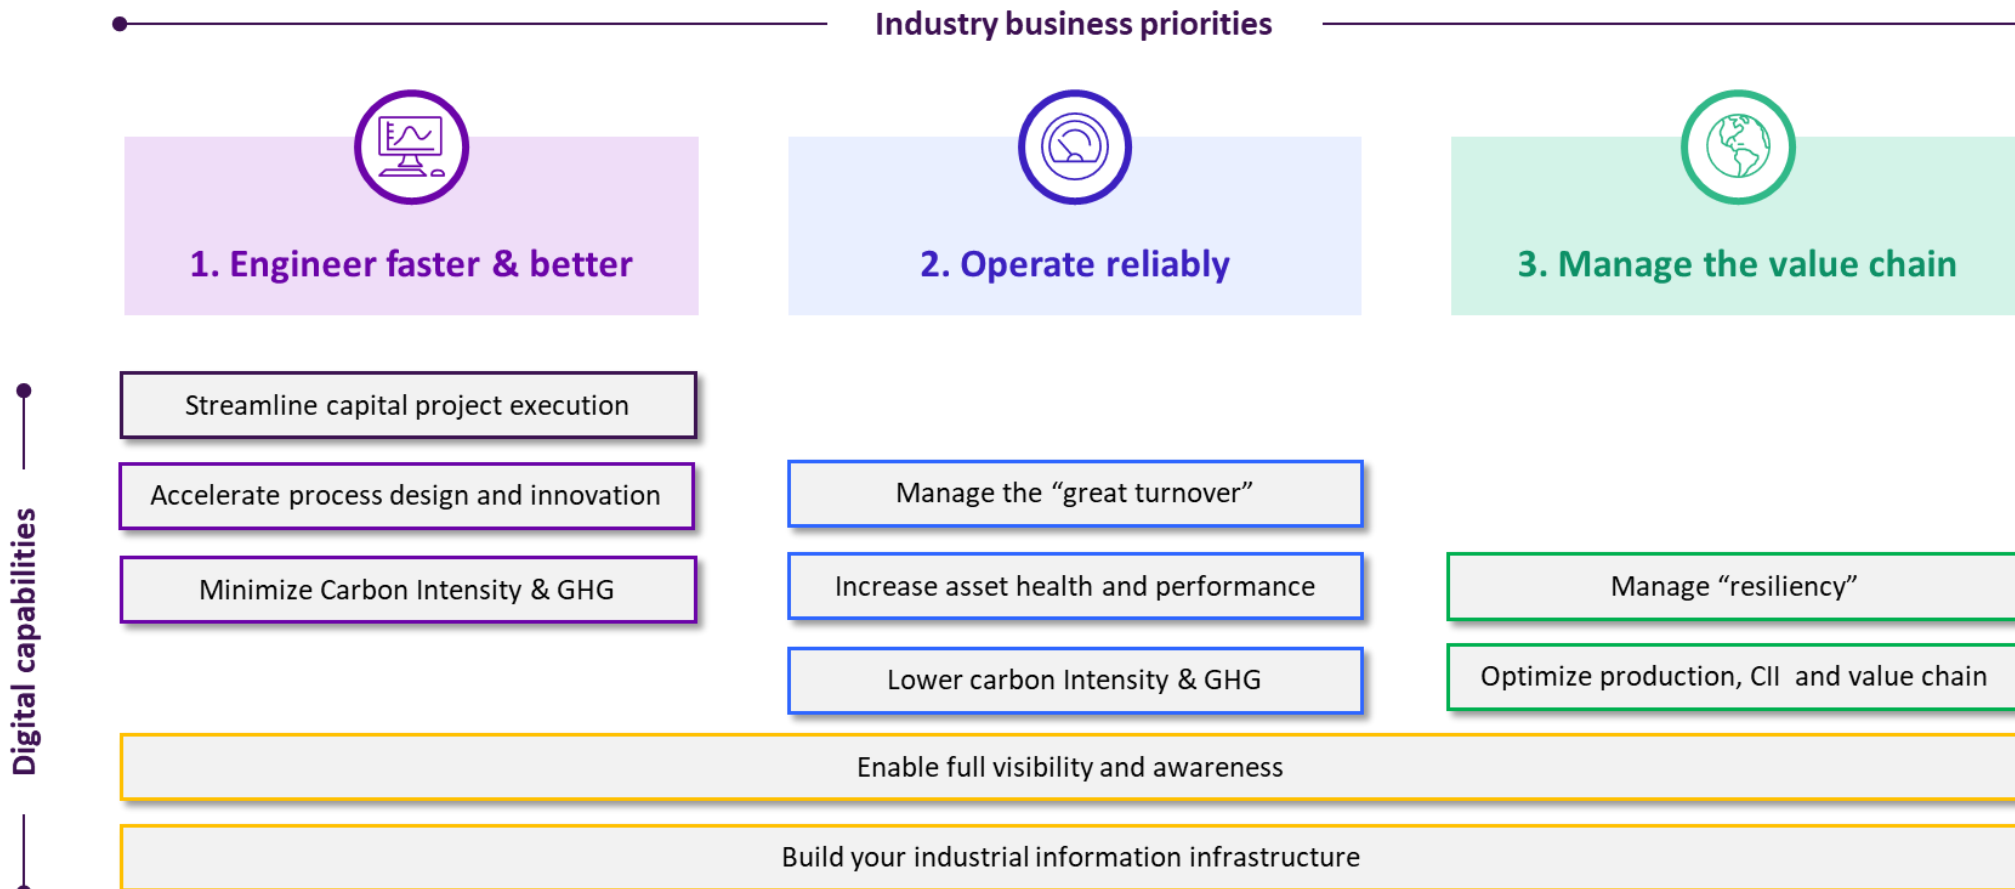

## Sustainability

# The Trilemma...

...digital technologies are key enablers to achieve the required industry & business transformation...

# The Trilemma...

...but vision & continued digital evolution are complex & multifaceted

Strategic, not tactical, use of digital technologies is key to addressing the energy trilemma

Hybrid Cloud  
w/Commercial  
flexibility

Value Chain  
Integration

Autonomous  
operations

Integrated agnostic  
Digital Framework

OPEX  
SME self-serve  
Knowledge Capture

Industrial & Service  
Community  
data sharing

Connected  
Worker & Mobility

Industrial  
Analytics/AI

Carbon Determination  
& Accounting

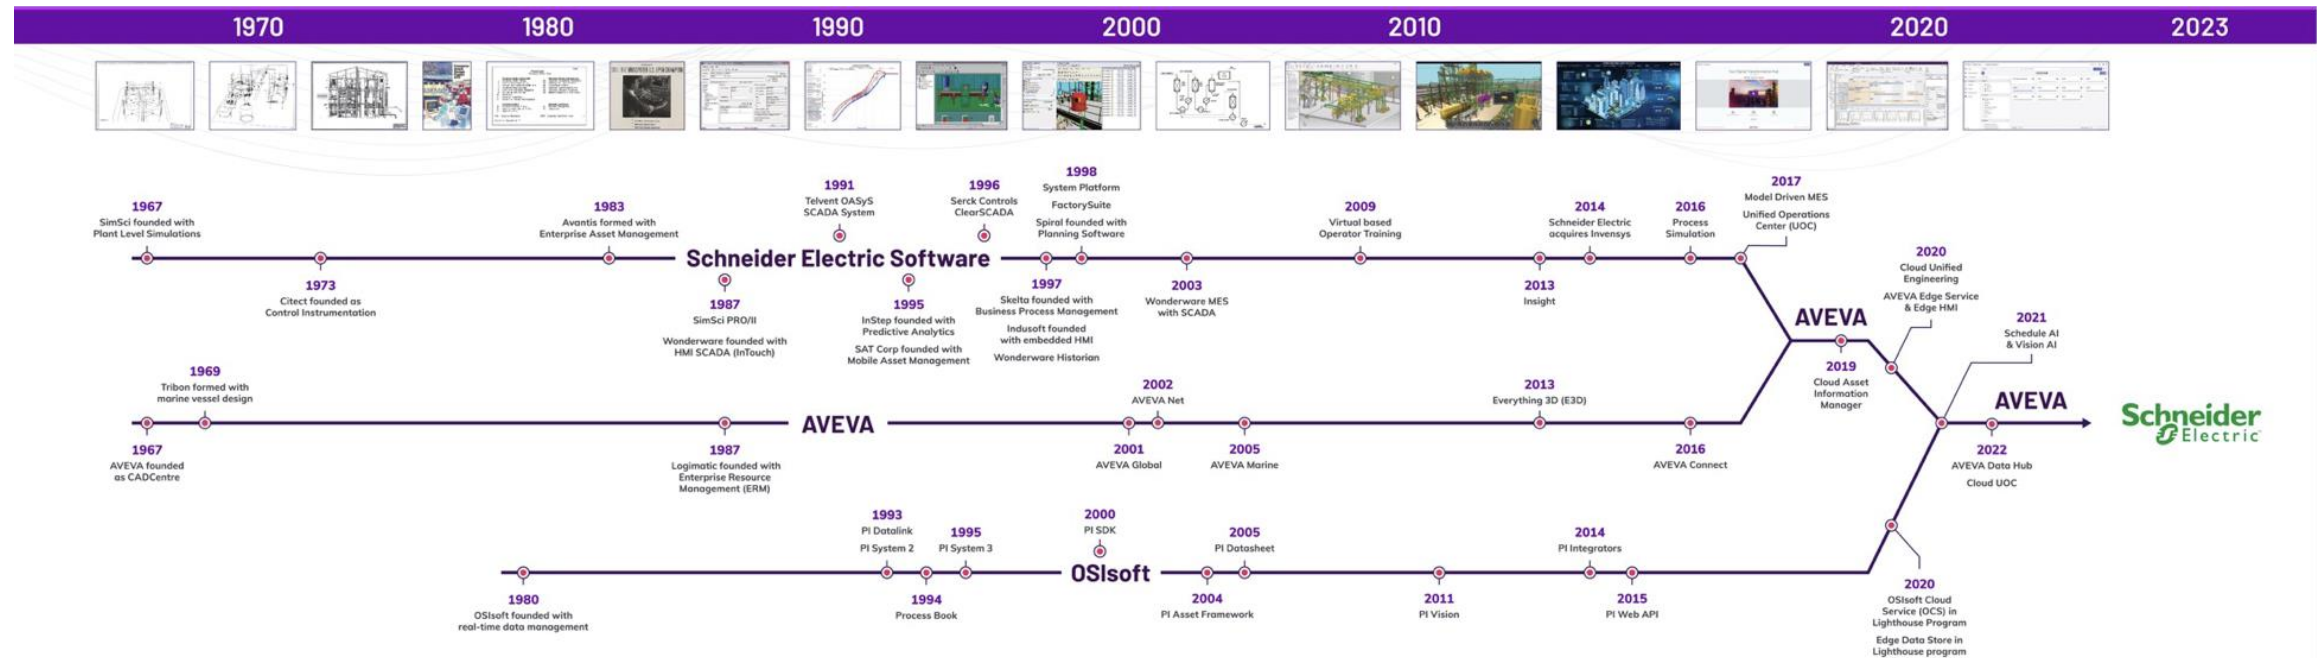

IIOT

# AVEVA Overview

AVEVA agnostic framework that simplifies and accelerates “digital”

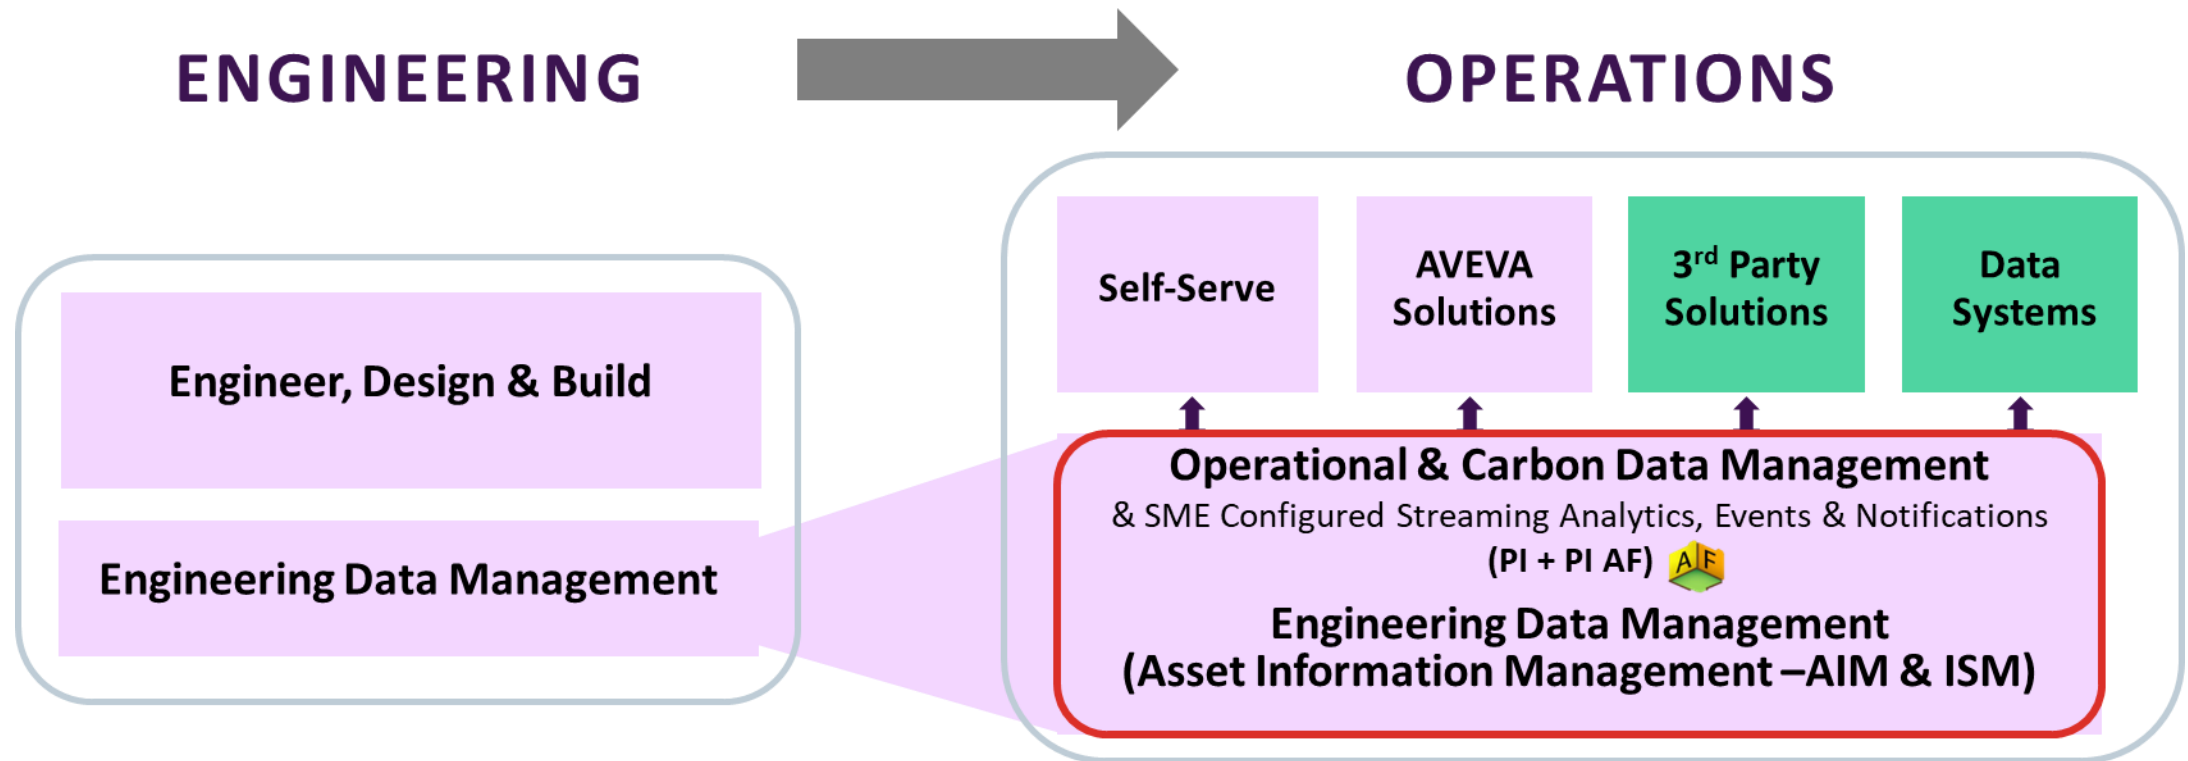

Built from 40+ years of strategic acquisition, integration and digital evolution

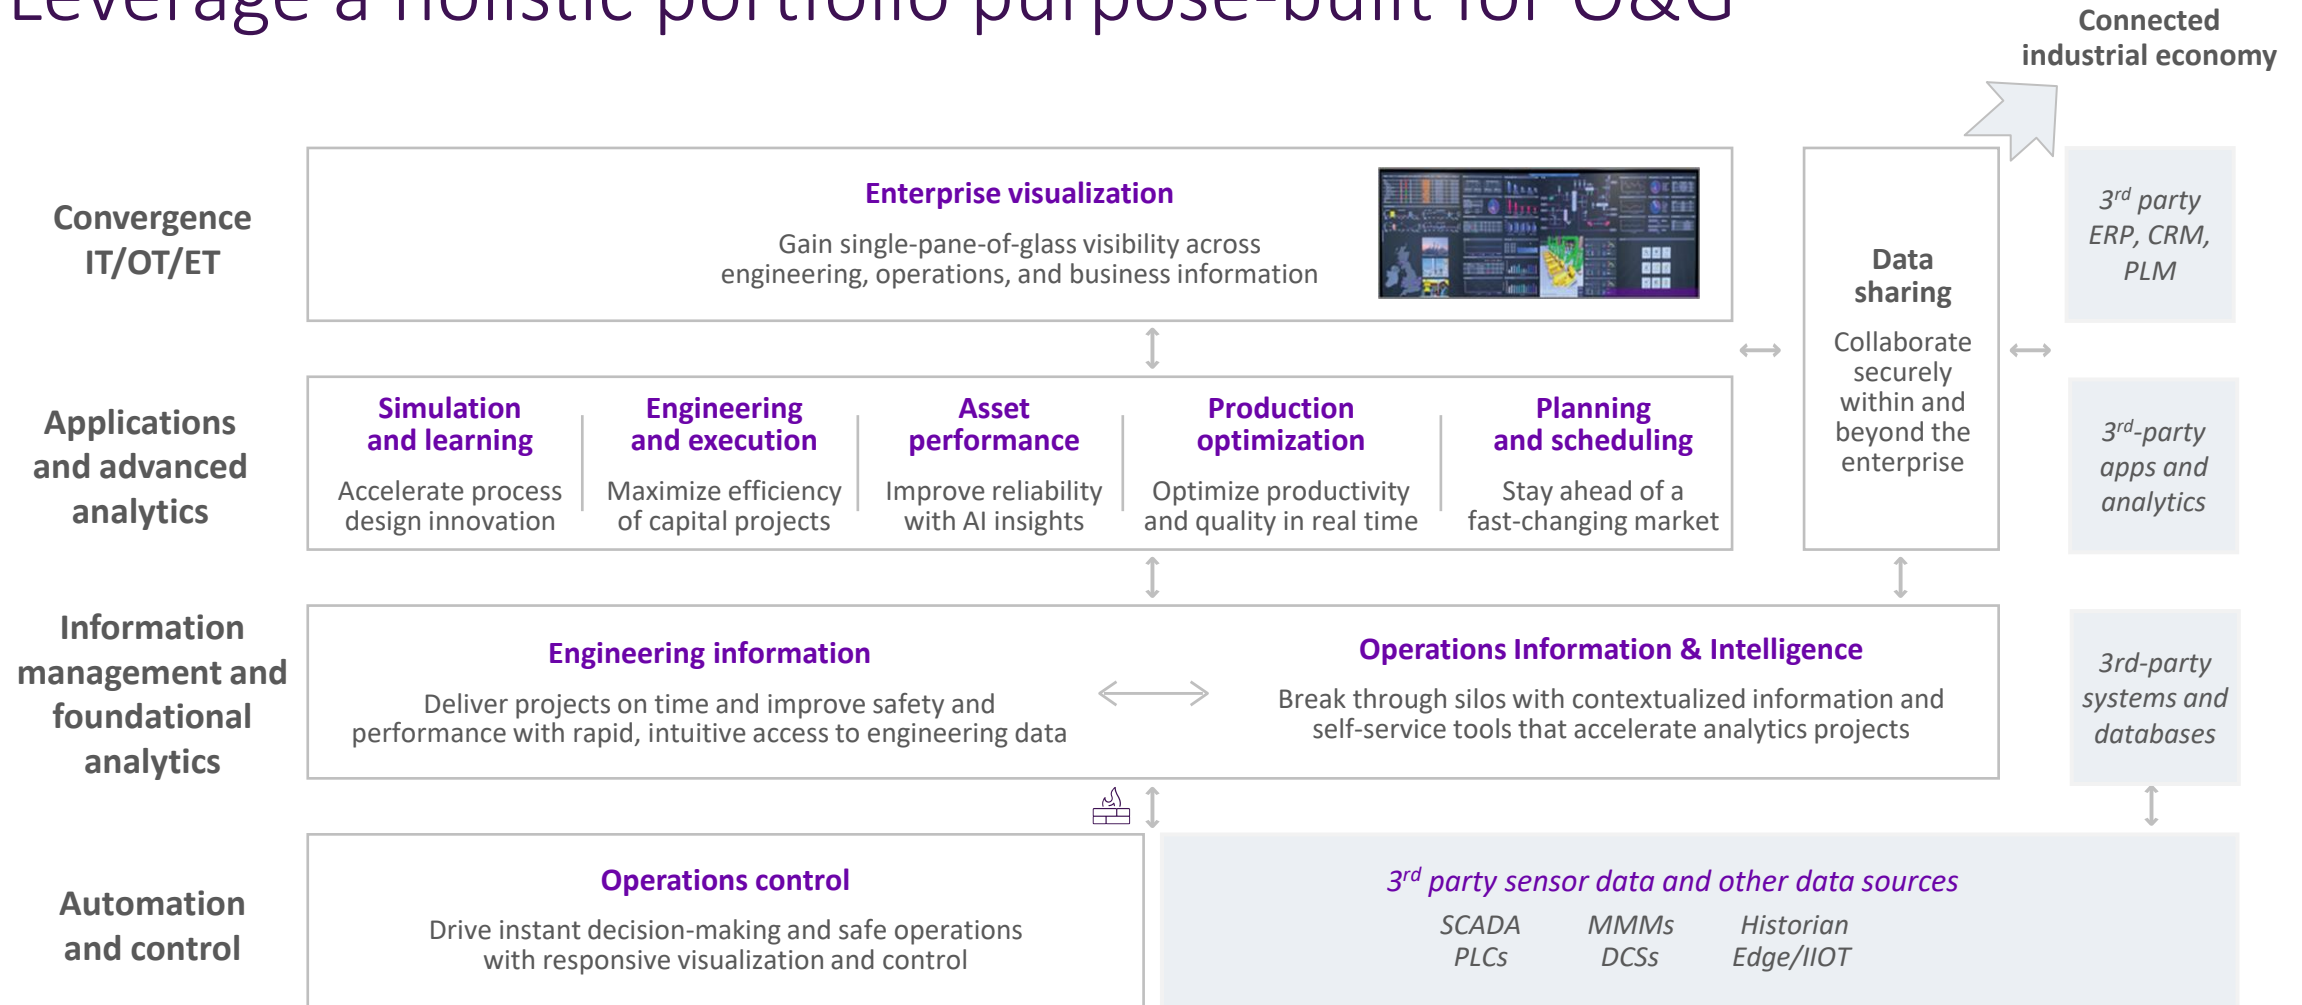

# The Trilemma...

...treats Information as a Strategic Asset and digital foundation

Digital thread across the engineer – operate – optimize life cycle

# Leverage a holistic portfolio purpose-built for O&G

---

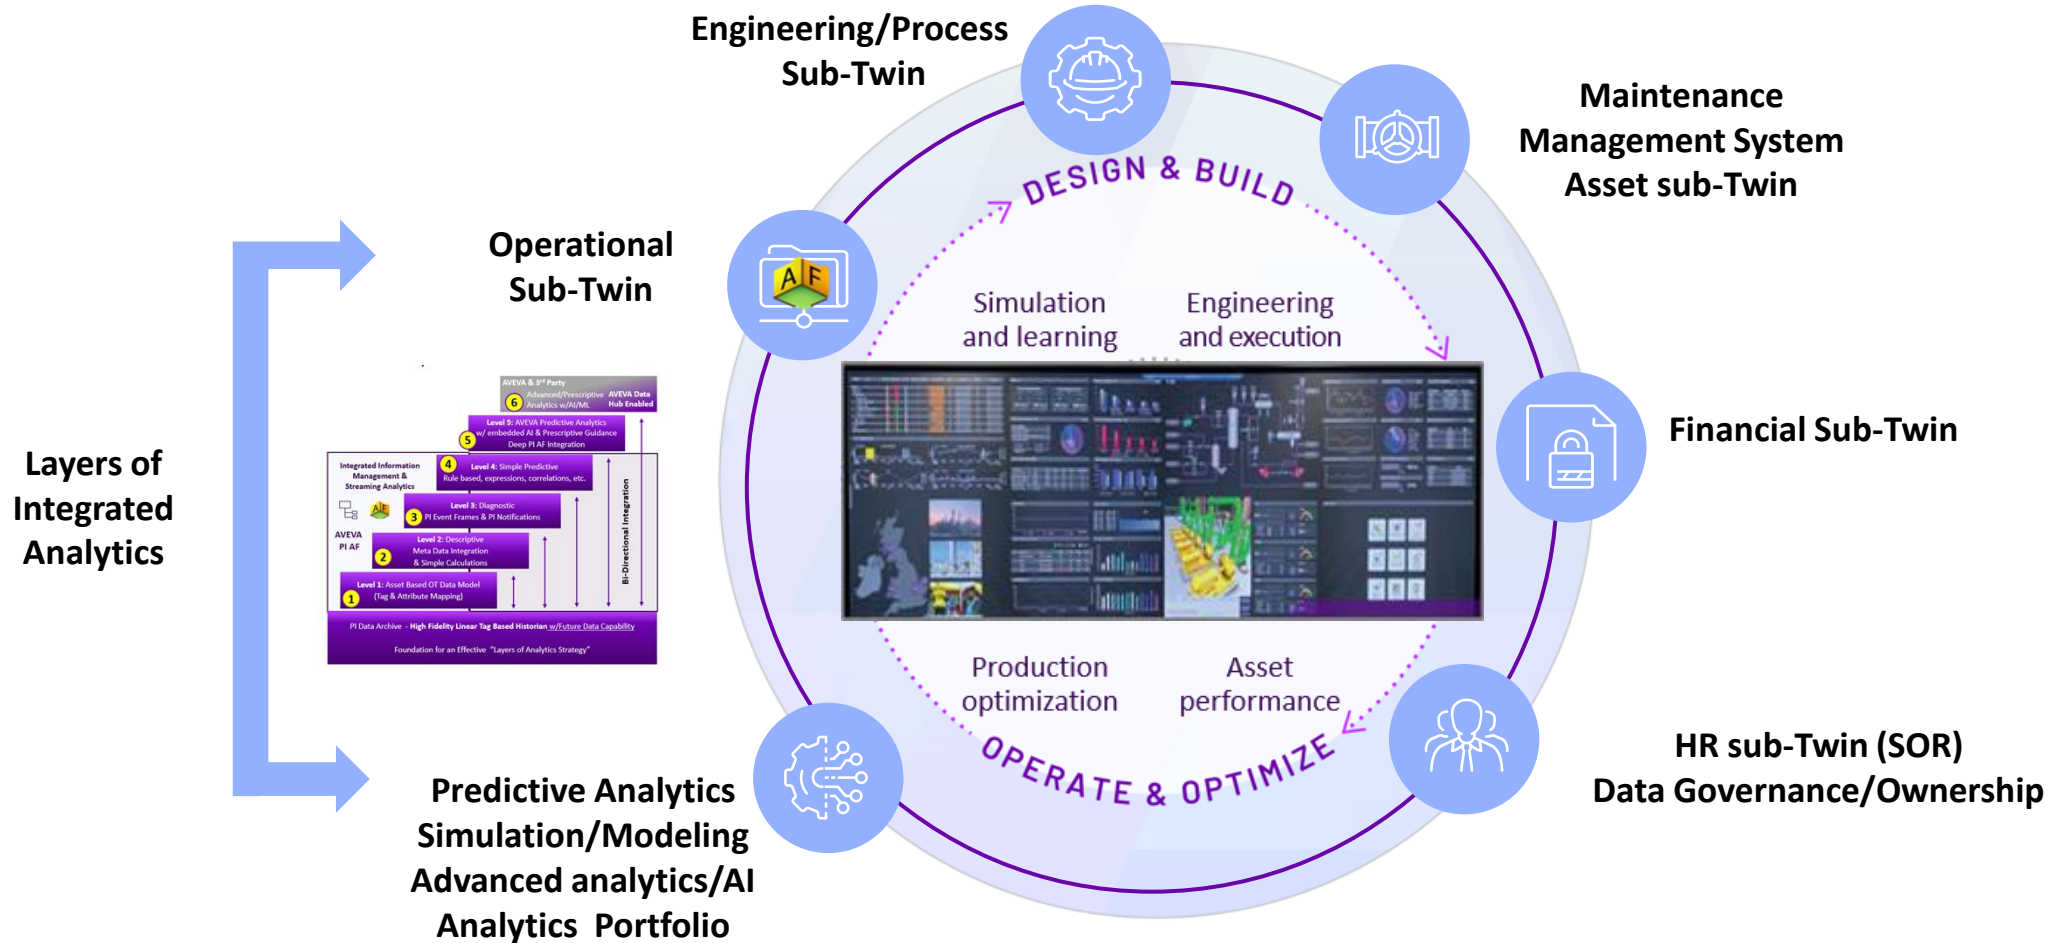

# Redefining the Digital Twin

Craig Harclerode

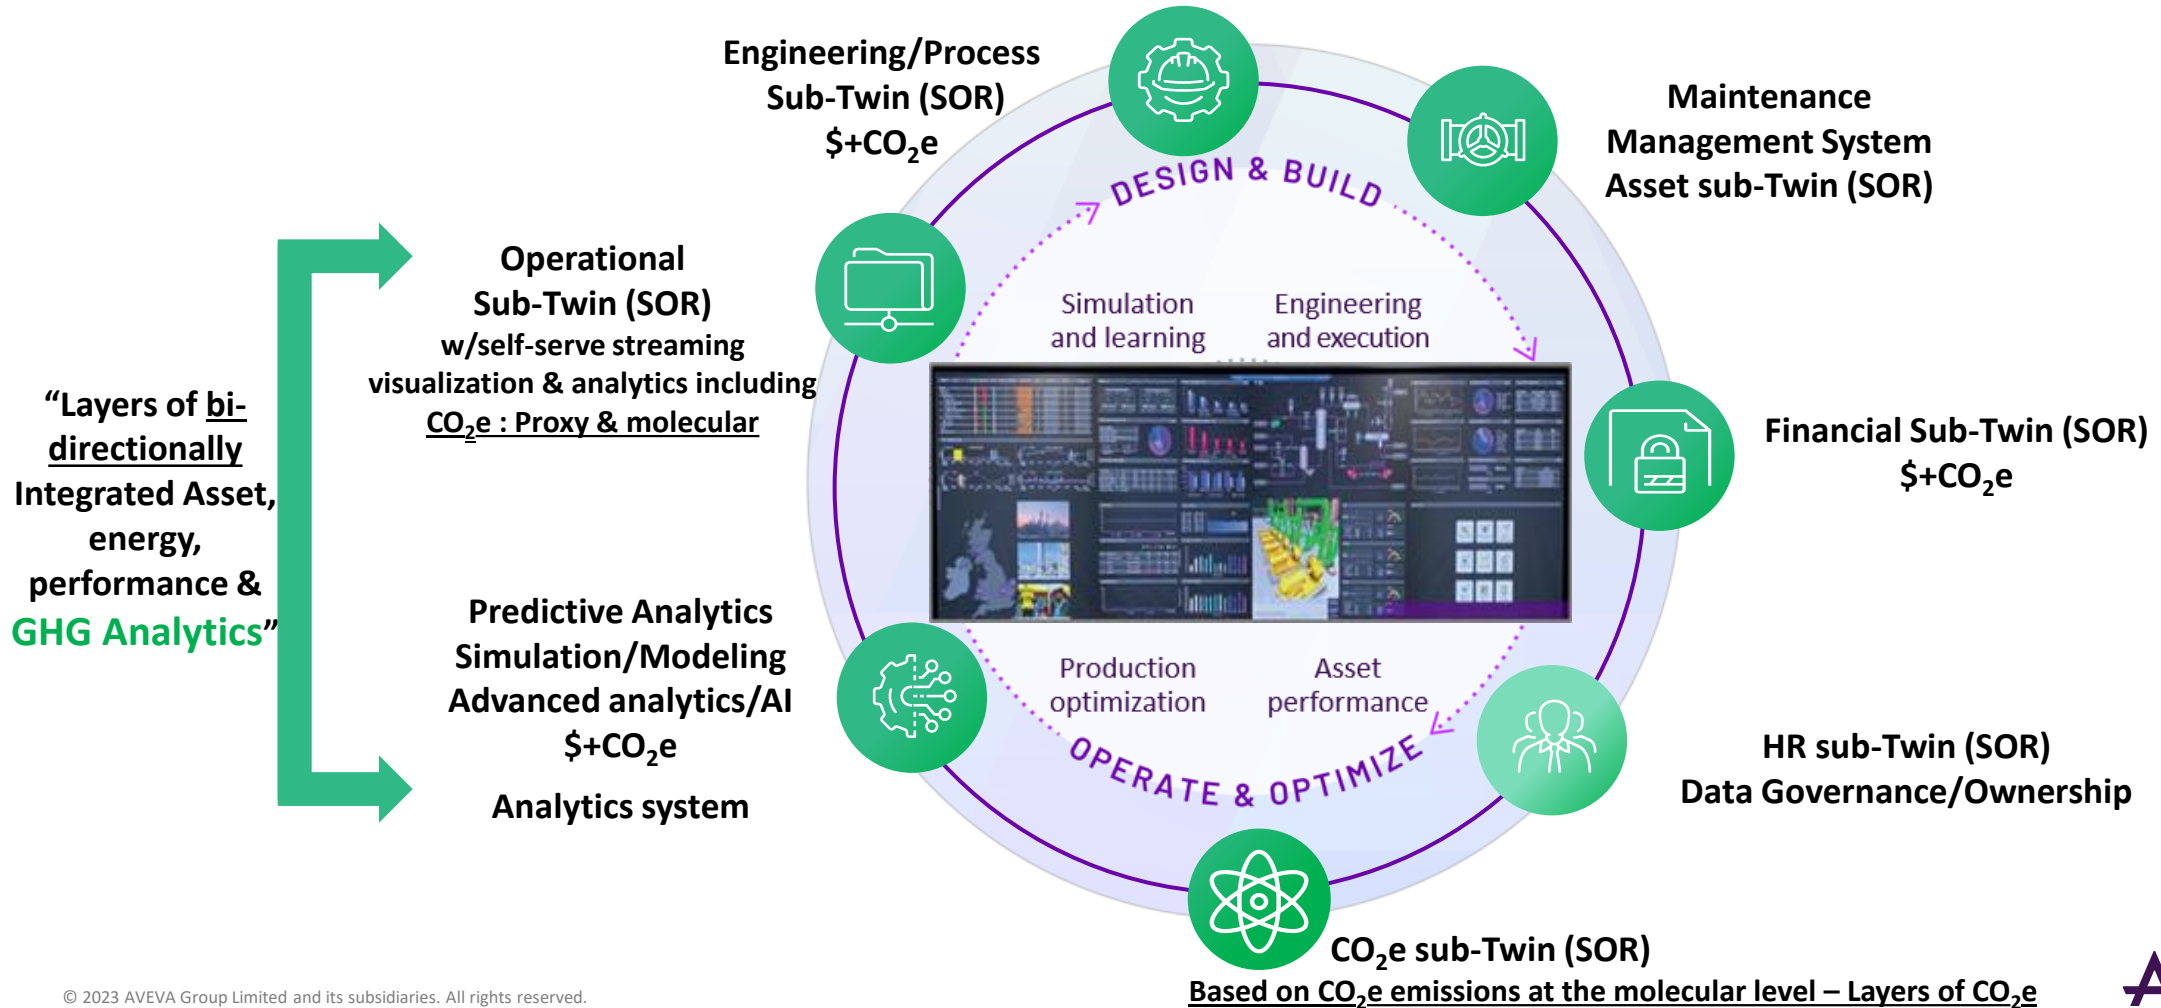

# The Digital Twin across a hybrid cloud architecture

Digital thread across the engineer, operate, and optimize life cycles – enabling the path to net zero

# The “Green” Digital Twin – Integrating Carbon Intensity and CO<sub>2</sub>e

Digital thread across the engineer, operate, and optimize life cycles – enabling the path to net zero

## Enterprise Data Management with the “Modern PI System”

### Challenge

AVEVA PI System used as a “tag-based historian across TotalEnergies operations creating “Excel hell”

*How to share local knowledge?*

*How to democratize the data?*

*How to digitize assets and add value to data?*

### Solution

Implemented strong operational data management with governance

Engaged sites and SMEs to migrate to the modern PI System/PI AF

### Benefits

Significant improvement in data management and migration to a data-driven culture with proactive, exception-based operations

## Our Development Process

All generic use cases pass through a unique process

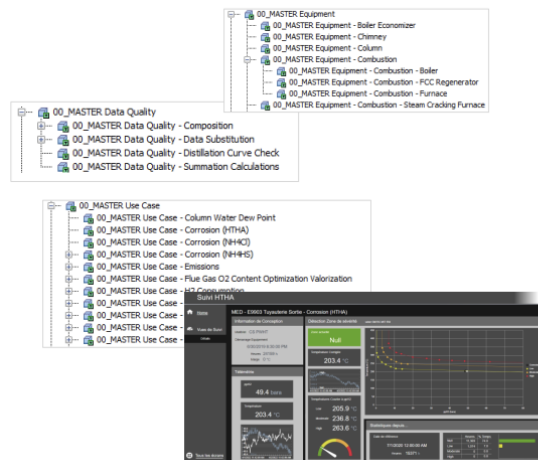

To deliver our AF use cases:

- **A dedicated team** made of process engineers and AF developers
- **Agile** approach = Quick delivery
- Use of Azure **DevOps** platform to manage our projects:
  - Easy to follow and track any changes
  - Lifecycle of AF objects / PI Vision displays
- 1 Use case = **AF templates + PI Vision displays**

## Concretely...

**Today** at TotalEnergies (RC Branch):

- **400 master AF element templates** covering several needs: Energy, Environment, Process, Maintenance, Data Quality...
- Templates already used and **instantiated by sites**

Ex:

  - 50 boilers / furnaces
  - 400 streams digitalized in AF
  - 7 packinox units, 3 HDS, 3 reformers
- **160 master PI Vision displays**
  - Full control of site objects = **Autonomy**

# Digital Decarbonization: GHG Molecular Determination for Combustion Sources

## Challenge

Lack of accurate GHG determination for combustion globally

GHG determination was disconnected to energy management and asset performance management

## Solution

Developed PI AF GHG templates for combustion sources using the molecules as “assets” with stoichiometry and thermodynamics

## Benefits

Rolled out globally

Foundational to TotalEnergies “layers of GHG” strategy with more accurate baselines and operationalization via AVEVA PI System streaming analytics and decision support

# Combustible(s) under Equipment

**Thermal Efficiency and Emissions at Heater level**

Category	Item	Value
Efficiency	Air Sensible Heat Duty - Air Temperature	33.393 kW
Efficiency	Duty Absorbed in Convection	2.2057 MW
Efficiency	Duty Absorbed in Radiation	6.2545 MW
Efficiency	Efficiency - Advanced Correlation	83.64 %
Efficiency	Flue Gas Sensible Heat Duty - BWT	3716.8064 kW
Efficiency	Flue Gas Sensible Heat Duty - Stack Temperature	1409.885 kW
Efficiency	Fuel Combustion Duty	10.085 MW
Efficiency	Fuel efficiency at BWT	62.02 %
Efficiency	Fuel efficiency at Stack	83.9 %
Efficiency	Fuel Sensible Heat Duty	4.862 kW
Efficiency	Furnace Losses	2.5 %
Efficiency	Thermal efficiency at BWT	61.78 %
Efficiency	Thermal efficiency at Stack	83.57 %

Category	Item	Value
Emissions - CO2 Consolidation	CO2 Mass Flowrate	1.997 t/h
Flue Gas	Acid Dew Point	131.31 °C
Flue Gas	CO2 Mass Flowrate	1.997 t/h
Flue Gas	Flue Gas Composition - Wet	
Flue Gas	Flue Gas Flowrate (3% O2) - Dry	9840.4561 Nm3/h
Flue Gas	Flue Gas Flowrate (3% O2) - Dry BREF	9798.7481 Nm3/h
Flue Gas	Flue Gas Flowrate Actual - Dry	13615.97 Nm3/h
Flue Gas	Flue Gas Flowrate Actual - Wet	15638.79 Nm3/h
Flue Gas	Flue Gas Flowrate Stoichiometric - Wet	10407.72 Nm3/h
Flue Gas	SO2 Emission	353.46 mg/Nm3
Flue Gas	SO2 Emission BREF	354.96 mg/Nm3
Flue Gas	SO2 Emission BREF vs Calc	1.0043
Flue Gas	SO2 Mass Flowrate	0.0034782 t/h

# Consolidation at Chimney level & and Refinery Level

Building on top of lower level Elements

**Chimney : grouping several Heaters**

**Refinery Use Case**

**Roll-up of Heaters in Chimney**

**Roll-up of Chimneys and others at Refinery level**

Emissions Instantanées		SO2 (mg/m3)	SO2 (ppm)	Furnace sélects à 3%O2 (mg/m3)
Combustible	678		0,099	145 977
Analyseur	508		0,074	

Cumul d'émission		SO2 (mg/m3)	SO2 (ppm)	Furnace sélects à 3%O2 (mg/m3)
Journalier	Combustible	678	0,099	145 967
Journalier	Analyseur	489	0,071	
Mensuel	Combustible	585	36,069	61 658 100
Mensuel	Analyseur	503	31,010	
Annuel	Combustible	581	144,291	248 346 560
Annuel	Analyseur	527	130,864	

Cumulative emissions		SO2 (mg/m3)	SO2 (ppm)	Furnace (tonnes)
Journalier	326	1,614	4 956 t/Année	
Mensuel	341	87,600	257 t/Année	
Annuel	323	428,95	1 329 t/Année	

Contributions principales		SO2 (mg/m3)
Chimney CH5	187	
Chimney CH7	22	
Chimney DEE	108	
Chimney FCC	768	
Chimney HD2/US1	427	
Chimney L0101	958	
Chimney L0102	958	

# Digital Twin Representations

Customer presentations throughout 3 days to reinforce value of AVEVA PI System & the Digital Twin

## Tuesday

**AVEVA**

**YINSON**  
Production

**Ovintiv**

**TotalEnergies**

**BR PETROBRAS**

## Wednesday

**ENBRIDGE**

**Schneider Electric**

**Petrabytes**  
ENERGY DATA INSIGHTS

**PERTAMINA**

**Cameron LNG**

**SoCalGas**  
ProcessInnovations  
ProcessPlugins

أرامكو السعودية  
saudi aramco

**PRefChem**

**PETRONAS**

## Thursday

**bp x energy**

**PETRONAS**

**radix**  
Engineering and Software

# AVEVA & our Partner Ecosystem are here to help

Opportunity to unlock power of the “modern PI System” to support transformative business value

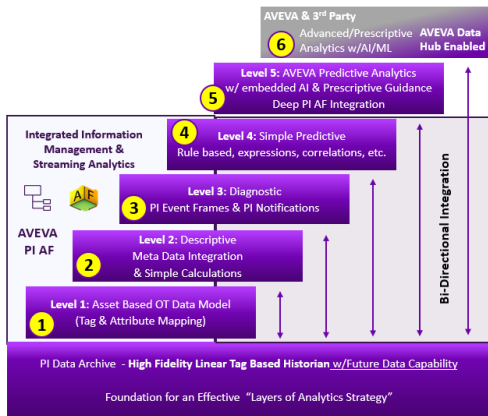

Achieving PI AF full potential has been problematic

Redefining the OT-IT Partnership to support and empower the SMEs

PI AF Acceleration Options

“Layers of Analytics”

### AVEVA Operational Digital Twin Success Services

AVEVA Operational Digital Twin Success Services Offering

4 to 10 day Workshop (Paid or EA Vouchers):

- Best Practices
- Standards & Governance
- Centralized PI AF/PI Vision template mgmt. & distribution
- Training using a customer use case/asset
- Access to the AVEVA PI AF Digital Twin Library & Community
- Ongoing coaching and Mentoring

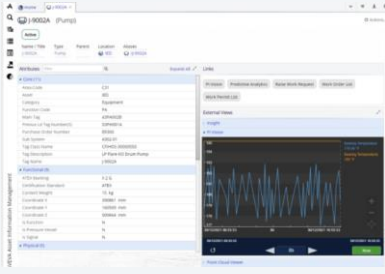

PI AF Saved Libraries Subscription and Distribution

PI Digital Twin: Libraries to Templates

### PI System/PI AF Partner Ecosystem

# Key Themes to Note in the Presentations

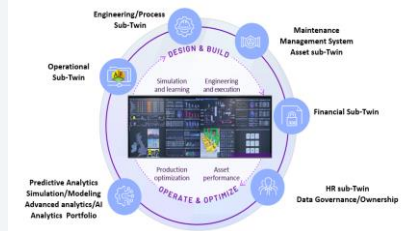

Enabling the use of digital technologies to address the energy trilemma with the AVEVA portfolio

Treat Information as a Strategic Asset

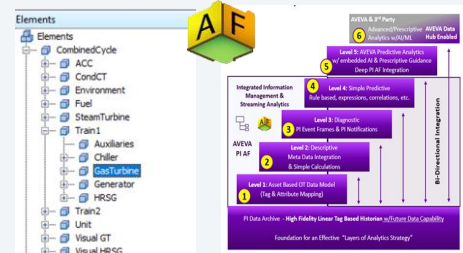

Value Chain Visibility and Collaboration

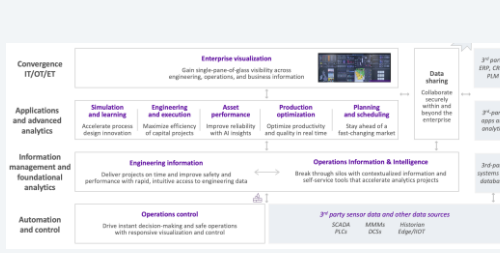

Various "Sub Twins" of the Digital Twin

Synergy Value Between AVEVA Offerings

Importance of PI AF and Layers of Analytics from PI AF to AI

Flexible and Agnostic To Enable Business Value

---

# Presenter Information

Feel free to reach out if you saw anything of interest or had any questions

## Craig Harclerode

#### ABOUT AVEVA

AVEVA is a world leader in industrial software, providing engineering and operational solutions across multiple industries, including oil and gas, chemical, pharmaceutical, power and utilities, marine, renewables, and food and beverage. Our agnostic and open architecture helps organizations design, build, operate, maintain and optimize the complete lifecycle of complex industrial assets, from production plants and offshore platforms to manufactured consumer goods.

Over 20,000 enterprises in over 100 countries rely on AVEVA to help them deliver life's essentials: safe and reliable energy, food, medicines, infrastructure and more. By connecting people with trusted information and AI-enriched insights, AVEVA enables teams to engineer efficiently and optimize operations, driving growth and sustainability.

Named as one of the world's most innovative companies, AVEVA supports customers with open solutions and the expertise of more than 6,400 employees, 5,000 partners and 5,700 certified developers. The company is headquartered in Cambridge, UK.
