Mass Import

- User
- Equipment
- Workstation Views
- Workstations

Mass Import

Start by selecting which type of import you want to do. Next, download the XLSX template and follow the instructions on the second page of the workbook. Once all your data is in the workbook, submit it from this page.

Note on Structural Element Names

Note that some structural element names may have been customized. The mass import template file uses Teamwork's default structure names. Please refer to the structure configuration page to see what your equivalents are to ensure that your file uploads correctly.

ABOUT AVEVA

AVEVA is a world leader in industrial software, providing engineering and operational solutions across multiple industries, including oil and gas, chemical, pharmaceutical, power and utilities, marine, renewables, and food and beverage. Our agnostic and open architecture helps organizations design, build, operate, maintain and optimize the complete lifecycle of complex industrial assets, from production plants and offshore platforms to manufactured consumer goods.

Over 20,000 enterprises in over 100 countries rely on AVEVA to help them deliver life's essentials: safe and reliable energy, food, medicines, infrastructure and more. By connecting people with trusted information and AI-enriched insights, AVEVA enables teams to engineer efficiently and optimize operations, driving growth and sustainability.

Named as one of the world's most innovative companies, AVEVA supports customers with open solutions and the expertise of more than 6,400 employees, 5,000 partners and 5,700 certified developers. The company is headquartered in Cambridge, UK.
